The Last Blast...
Cigarettes are piling up in the ashtray...what do you say to the reader of the State College News in your last editorial...do youreview the events that have occurred at State since your debut in 1954...or do you write a philosophical critique of your own college career? You light another cigarette. And then something terrible happens to you! You realize you're smoking your last cigarette...you've put it off long enough...you have to write something...and now you're forced to write about something that you've also missed. The thing is to come up with a two or three line editorial, which you then have to manage to pare to three or four more cigarettes.

You make a decision. You're going to write just one subscription card, which you already know you'll miss. You decide to write about the last editorial...

The Torial?...or do you still want to write that editorial?...you have to decide what's the best thing to do.

But you can't...you've been bitten by the journalism bug...and you want...you get back to your thoughts...but first, you light another cigarette.
