Peace Has A Price

It's always disheartening to discover students at State College who believe that we are an enemy-crazed country, and of course, that our foreign policy is just for the benefit of the enemy. It is a sad state of affairs that we have become so plantocratic that we have no time for those who are fighting for us.

It is a great American mistake to think that we can fight the enemy without a program. Many of our leaders have forgotten that it is not the war that comes with the war, but the war that comes with the peace. We must prepare ourselves for peace, and we must prepare ourselves for war.

It is up to the college student to remind the country that there is no place in the future for complacency. The time to insure a lasting peace is now. We must not only continue to fight the war, but we must also prepare ourselves for peace.

A Time For Decision

In a few days the Freshmen women will be asked to indicate their final sorority preference. In a few days the Freshmen women will be asked to indicate their final sorority preference. It is a good idea to have a personal relationship with your sorority, but it is also important to consider your personal-social relationships.

Many of us are still working for de-alcoholization, and we recommend that students make these recommendations for students, and write, the speeches we make, the papers we write, and the recommendations we make. The time to insinuate a lasting peace is now. We must not only continue to fight the war, but we must also prepare ourselves for peace.
