COUNCIL WILL CURB ANONYMOUS NOTES SENT TO PLEDGES

Some present-day measure is being taken by Inter-Sorority Council to prevent the sending of anonymous notes to pledges or those who have received such notes. Miss Edythe Cairns, general chairman for this year, is in charge of the movement.

Dr. Harold Rugg, nationally recognized educator, will speak.

"The child and his activities as the most important factor in education" is one of the session of the round table conference for high school teachers and administrators of the eastern division of New York State to be conducted here, Saturday, March 16, at which Dr. Rugg is an author of "The Child Centered School," which has created a furor in educational circles, according to President A. R. Brabner.

While the mechanism's terms will not be announced, Miss Cairns intimated that it would be of great interest. It was passed recently, following the sending of derogatory notes to freshmen who had been held to certain activities. It was said by members that those notes were intended to influence freshmen against certain activities which are members.

Whether the writer of the notes were sorority members is not known to the council. No definite evidence has been found. Miss Cairns said it points out the section of person responsible for the notes. This year the trouble, which has been present for several years, broke out in an advanced form. Miss Cairns deigned.

Neither the junior nor the freshman class voted in support of a suggestion which would bind them to contribute one-fourth of the total of ten dollars to be necessary repairing.

KIRTLAND LECTURES AND DEMONSTRATES EVOLUTION OF VASE

"You don't know anything about vases until you make some," Richard H. Kirtland, professor of education, told an audience of more than one hundred persons in the Albany Institute of History and Art, Tuesday afternoon.

In his lecture on "How a vase is made," Professor Kirtland marked a piece of clay into many different case shapes. He showed the evolution of a pre-Volunteer, little brown jug into a rocky jar and then into a rosebowl.

Professor Kirtland has taken his lessons in case-making. During the lecture, Professor Kirtland said that he happened upon a potter at Fort Edward a few times and then bought a potter's wheel to try out case-making for himself. "This is my first teaching," Professor Kirtland declared. He believes the method of self-instruction is the best in any art.
