**Gridders Home Tomorrow**

Injuries Could Be Factor

By Len Federman

Albany, October 11 — The State University of New York at Albany football team (6-1) will face the University of the Province of New York at Oneonta (1-5) tomorrow afternoon at 2 p.m. at Fourteenth Street Field. Oneonta has been sitting on the sidelines since October 4 because of the injury of their quarterback, Bob Hartmann, and they have been unable to participate in their last four games.

The team, however, is expected to be strong and to play well. The team is composed of many experienced players who have been at the school for several years. The team has a good record and is expected to do well against Oneonta.

The game will be played in front of a large crowd, and the weather is expected to be clear and sunny. The team is looking forward to the game and is confident of their victory.

**Booster Drop Key SUNY Contest**

Booster Cartridge

by David Cope

The printing of any photos of the SUNY Stony Brook football team is a tough one. The team is composed of many experienced players who have been at the school for several years. The team has a good record and is expected to do well against Oneonta.

The game will be played in front of a large crowd, and the weather is expected to be clear and sunny. The team is looking forward to the game and is confident of their victory.

**Faculty To Decide On Powers; Academic, Student, And Others**

By David Cope

POTSDAM — The SUNY Potsdam football team (6-1) is expected to do well against Oneonta tomorrow afternoon at 2 p.m. at Fourteenth Street Field. Oneonta has been sitting on the sidelines since October 4 because of the injury of their quarterback, Bob Hartmann, and they have been unable to participate in their last four games.

The team, however, is expected to be strong and to play well. The team is composed of many experienced players who have been at the school for several years. The team has a good record and is expected to do well against Oneonta.

The game will be played in front of a large crowd, and the weather is expected to be clear and sunny. The team is looking forward to the game and is confident of their victory.
"We believe, it on top of this movement," Moskowitz noted. "It's one of the issues," he said. "We filed a lawsuit against CREEP (the private political donations) and much has been achieved."

"It's been a good year," Moskowitz said. "We've grown in four years from nothing to $300,000."

"I believe Common Cause and the citizen's lobby, has had some degree of success in getting Congress to use its power," Moskowitz said. "And that's going to encourage an increasing number of people to get involved."
Senate Acts on Governance

Opponents of Collins' "faculty caucus" proposal claim that there is no need for political separation on campus and that legitimizing such a thing by putting it in the by-laws is not necessary. Opponents argue that NSFPs should not be delineated from faculty voting, but that they should be dealt with in the appropriate offices.

According to the Ad Hoc Committee on By-laws, "a faculty caucus" would work in the same manner as a Senate committee. However, the Senate set aside its By-laws Committee resolution number 4. The Ad Hoc Committee has made the case that they feel a"faculty caucus" would not work in the same way as a Senate committee. The Ad Hoc Committee has also made the case that they feel a "faculty caucus" would not work in the same way as a Senate committee.

The Ad Hoc Committee has made the case that they feel a "faculty caucus" would not work in the same way as a Senate committee. They argue that a Senate committee would have more power and authority than a "faculty caucus". Welcome A.C.T. 2nd Edition

The Students of Albany State in cooperation with the faculty are pleased to announce plans for another comprehensive course & teacher evaluation.

Talented, hardworking people who would like responsible positions to help A.C.T. to achieve permanence excellence and maximum utility are requested to contact Dave (482-1423).

Welcome A.C.T. 2nd Edition

Re-scheduled Debate
Mister Wayne Wagner vs. Congressman Sam Straton
4 pm
LC-4
TODAY
All Welcome

It's surprising that many people still have not heard of A.C.T. or understand its purpose.

A.C.T. sends a student representative with prior permission into each faculty member's section, distributes the evaluation forms and collects them. These results are then published for the use of the University Community.

A.C.T. 1st edition is still available in limited numbers in CC 346.

All work done in collecting and compiling evaluation results is done by students.

Come to Room 111 (across from billiards collision) or Student Association office to sign up. It takes approximately 125-150 people, 1-6 hours, during a one week period to collect all data.

People are asked to bring forms to campus on Monday, October 29th. All forms must be turned in by November 9th.

Next A.C.T. is on December 4th. All forms must be turned in by December 17th.

Several new classes will be available for credit.

THE WASHINGTONIAN

November 30th, 12:00 to 3:30pm in CC 346.

More information to follow.

The Student Association is pleased to announce plans in cooperation with the faculty for a student representative from each course & teacher evaluation. The representatives will be responsible for gathering information and submitting it to the Student Association. The results of the evaluation will be made available to the faculty and the student body.

I.e. Cleaning the Slate

According to the Student Association of the State University, (SASU), today is the day to hit the absentee ballots for the November 7 election. According to the SASU, the State reform of the Legislature should result in the election of more experienced candidates who can serve their constituents better. We support the candidates who have the vision and determination to serve the people of New York. The election is crucial for the future of our state, and we encourage everyone to vote today.

We support Hugh L. Carey for Governor. Incumbent Malcolm Wilson, since he has too much political experience and has been a member of both political parties. We believe that Carey will bring new ideas and solutions to the problems facing our state. He has been a fierce advocate for the working class and has been successful in his efforts to improve the lives of New Yorkers. We urge everyone to support Carey in this election.

Square-off In The Center Ring

Mexican Oil and Us

There has been a recent new discovery of oil in oil-rich Mexico, and this has caused a stir among industrial nations. This could be a momentous historical event that has the potential to dramatically alter the course of human history. The world of Latin America will be different after this discovery, and this could have far-reaching implications for the rest of the world. The Mexican government has been working hard to develop their oil resources, and they have been successful in doing so. This discovery will only increase their efforts to develop their resources and increase their oil production.

Too Much Revenue

For this week we're changing our Perspectives, instead of including a variety of topics in one issue, we're providing a variety of issues on one topic. But what is it? It's — Election 74.

In the issue, you'll find analyses of the top New York State elections, a chart of the opinion of the candidates on various issues, some notes on our partners, and a discussion of the transportation bond issue.

If one thing seems to be certain, it is the imminent Democratic parade into the main ring of the political circus. We have it from the fortune teller that Hugh Carey will be the pizzazz, with Jimmy Carter a potential lion tamer. Almanacs and Leopards are still on the tightrope, dangling it out for the other's tail and Mary Anne Krupack is certainly taking the spotlight as the imperious circler of the scene. Ciao can be the hot dog salesmen in the stands, and Java is the giant of the midway. But remember, it's us who buy their tickets. 

In the office, we're madly trying to arrange to send some reporters to the New York headquarters of the candidates so that we can provide firsthand coverage of the vote. The issue will be a full one, and a hot one. We'll get it to the printer by seven in the morning and I'll be at your local newsstand Wednesday, November 6th.

Dan and Barbara will be back next week with an article on the local bars, a feature on the history of Eddie the Elep. and other stories.

We hope the articles here will brighten your political appetites — the next step is yours. It is you who'll make the news November 5th.

And now it's your show...
by Bob Messenger

After 16 years of Republican red妨碍, New York voters brace for the October 24 gubernatorial election in which Democrat Hugh Carey will try to turn the state blue for the first time since 1958.

Carey, 55, a traditional bread-and-butter liberal who has been a Connecticut Yankee for most of his political career, is running against Republican incumbent Governor Nelson A. Rockefeller for the governorship by Republicans who promise a downstate upset.

"Wilson's liabilities are not all personal," Rockefeller said last week, adding that he could build his White House dreams from his launching pad of New York voters. Obviously he has an uphill climb. Wilson has called to assure voters.

Some of the Carey Stances

Carey on the Rise

by David Lenson

Described alternately as dull, intellectual, thoughtful, unemotional, politically sharp, and unimaginative, the political career of the Democratic Party's leading candidate for governor has been the subject of much attention.

For the past 15 years, Carey has served as lieutenant governor of New York State, a position that has given him a strong base of support within the party. He is known for his moderate stance on issues and his ability to work well with both Republicans and Democrats.

One major reason for the Democrat's strong showing is his reputation as a fiscal conservative. Carey has made it clear that he wants to control spending and reduce taxes, while also investing in education and infrastructure.

Wilson in Decline

by Richard Rosenbaum

The battle the two have waged is akin to the wolf tearing apart the sheep.

The Wilson campaign will make important 1974 contributions in the area of budgeting and state revenue-sharing law that has brought the state into the black. Carey's ability to control spending and reduce taxes, while also investing in education and infrastructure, is a major reason for his success.

The Governor has been basing his campaign on promises of more neighborhood police in New York City. In the past, he has appealed to former Mayors for an increase in the number of police patrols.

Henry A. Kissinger, Carey's mentor, is not entirely on his own. Kissinger, a former New York City police commissioner, has been supportive of Carey's campaign efforts.

The Governor has been basing his campaign on promises of more neighborhood police in New York City. In the past, he has appealed to former Mayors for an increase in the number of police patrols.

Henry A. Kissinger, Carey's mentor, is not entirely on his own. Kissinger, a former New York City police commissioner, has been supportive of Carey's campaign efforts.

Henry A. Kissinger, Carey's mentor, is not entirely on his own. Kissinger, a former New York City police commissioner, has been supportive of Carey's campaign efforts.

The Governor has been basing his campaign on promises of more neighborhood police in New York City. In the past, he has appealed to former Mayors for an increase in the number of police patrols.

The Attorney General, the Comptroller, and the Challengers

by Richard Nordoff:

On the heels of the big election victory, the Attorney General's campaign has become a focal point of the political landscape. Abrams, the Democratic candidate, has been accused of being dishonest, and never been convicted of any crime. In politics, it's more than 20 years since Levitt has never been convicted of any crime. In line political

God and the Young Pup

by David Shaffer (AP)

Stephen May, the Republican candidate for state comptroller, spends most of his time attacking Levitt—former Gov. Rockefeller said four years ago that Levitt was "in God's hands." Donald Trump, who served four years as mayor of New York City, once told a woman reporter that May is a "hardcore conservative," and never been convicted of any crime. In politics, it's more than 20 years since Levitt has never been convicted of any crime. In line political

Caso and Krupsak

“Not Just One of the Boys” and One of the Boys

by Richard Nordoff

When the Democratic state ticket polled a bit too gingerly like the Nordic Dream ballet team, the key issue was one of image. Abrams has always been known for his image of a liberal, whereas Levitt has always been known for his image of a conservative. Abrams has always been known for his image of a liberal, whereas Levitt has always been known for his image of a conservative.

Building Up Tracks and Preserving the Rails

by Daniel Gates

The Administration is investing in the state’s rail lines as a part of its “transportation blueprint” for economic development. According to the Governor’s office, the program aims to revitalize the state’s rail system, which has been neglected due to the commercial shift away from rail transport. The projects focus on improving passenger service, freight operations, and urban transit systems, with an emphasis on modernization and maintenance.

The plan includes the rehabilitation of major rail lines and the construction of new tracks. It also seeks to attract new industries to areas served by rail and to improve existing industries. The program is expected to create jobs, stimulate economic growth, and reduce traffic congestion.

To promote and assure the preservation of essential rail passenger and freight services to the inhabitants of the state, the A.T. & T. Corporation has sponsored a bill entitled the “Transportation Bond Act” which would authorize the issuance of up to $2.1 billion in bonds to be used for the construction, improvement, and maintenance of the state’s rail system.

The inclusion of the word “rail” in this year’s gubernatorial race is significant. Jerry Tuccille, the Libertarian Party candidate, is one of several alternative candidates running in the primaries. The Libertarian Party’s platform includes proposals for the elimination of state and federal income taxes, the reclassification of all drugs, and the abolition of the military industrial complex.

Alternatives to the System (Times Six)

They want government run in the interest of the people (no matter what they call them: the masses, the workers, the common man) rather than for powerful and influential minorities.

by Gary Buenker

To solve the radical problems facing New York, the “alternative parties” in this year’s gubernatorial race are proposing radical solutions. The Socialist Workers Party, championed by the Democratic and Republican Parties, is calling for a complete reconstruction of the state’s transportation system, including a new mass transit rail line from New York to Albany. The party also advocates for the reclassification of all drugs and the elimination of state and federal income taxes.

The Free Libertarians, in view of their support for the workers, have attempted to get as much exposure as possible through the news media. On October 21, Tuccille displayed his campaign here in Albany. He has expressed his confidence in winning the gubernatorial election.

The Socialist Workers Party candidate, is one of several alternative candidates running in the primaries. The Libertarian Party’s platform includes proposals for the elimination of state and federal income taxes, the reclassification of all drugs, and the abolition of the military industrial complex.
While the Republicans have controlled Congress only twice since the Great Depression, the governorships have changed hands in some reflection of the mood of the country.

The Democrats have been coming back in 20 states, winning at least 13 governorships this year. They took 29-21 since 1964, and New York, Republican since 1968.

This year's victories are likely to be Democratic governorships in each of the 10 most populous states—California, Pennsylvania, Texas and Ohio, which are key to President Jimmy Carter's campaign. They have won gubernatorial elections in Texas, New York, and California this year. And New York, where the incumbent is a Democrat.

The largest victory was in Michigan, where the Democratic gubernatorial candidate, William A. Egan, has emerged from a tough primary campaign to win the governorship by 100,000 votes.

Rudolph Nureyev, who was candidate for San Francisco Board of Supervisors in 1978, has also been Republican, although he lost the mayoral race.

Democratic governors have won in South Carolina, Virginia and Minnesota. The Republicans have been coming back in California and New York, which are key to President Carter's campaign.

The Democratic governor in South Carolina, David Hall, has been re-elected to a second term.

The Republican candidate in New York, whose victory would have been a significant blow to the party, is expected to lose.

The Republican candidate for governor of New York, Edmund G. Brown Jr., has been re-elected to a second term.

Once Upon a Time in Washington Park

Once there a pause, then as if by Pavlovian testing and teasing of some grand cosmic pain—testing and teasing of some grand cosmic pain—

My heart sank to the bottom of a moody, grey sea. The waves of emotional despair were rolling in, cresting, and breaking on the rocks of my soul. I felt as if I were being consumed by a great, unrelenting force—

...but in Washington Park on a virgin October morning—

I heard the sound of rushing water, and I knew that I was not alone. I opened my eyes to see the shimmering surface of a still, clear lake. The sun was rising, casting golden rays across the water, painting it with hues of orange and gold. I took a deep breath, feeling the warmth of the early sunshine on my face. I knew that this was the moment I had been waiting for—

...but in Washington Park on a virgin October morning—

The trees were rustling gently, their leaves whispering secrets of the autumn season. The scent of damp earth and fallen leaves filled the air, a fragrant reminder of the changing seasons. I could feel the cool breeze on my skin, invigorating me with its refreshing touch.

I took a step forward, my heart beginning to beat faster. I was alive, I knew it. The world was waiting for me. I was ready to face it...
Attend the Critic's Circle Shakespearean extravaganza at the Mahavishnu Orchestra. The concerts, traditionally known for their unique combinations of instruments and jazz, are a must for music lovers. This event highlights the orchestra's ability to fuse eastern and western musical traditions. 

The Mahavishnu Orchestra is well-known for their innovative approach to music, and their concerts are a must-see for music enthusiasts. The orchestra's blend of instruments and styles creates a unique sound that is sure to leave a lasting impression. The concerts are a great opportunity to experience the Mahavishnu Orchestra's signature sound and witness their musical innovations firsthand. 

Tickets are available for this exciting event. Don't miss out on this opportunity to see the Mahavishnu Orchestra live in concert. Get your tickets now and be part of the experience!

Defense Leads Danes Over Nichols

by Bruce Teague

The Danes outscored the Bisons 32-8 in a game played last Saturday.

The Danes have never beaten the State cross-country team, this past season.

The Danes were able to capitalize on the Bisons' mistakes and scored on several occasions. The Danes' running attack was especially effective, giving Nichols the short yardage. The Danes fumbled the ball three times, but were able to recover all of them.

The game started similar to last year's meeting, with Nichols taking over on their own 20, but could only move to the end zone. Nichols' field goal attempt from the two-yard line was wide from the left for the score.

The Danes have never beaten the State cross-country team, this past season.

The Danes defense got the ball back on the ensuing kickoff and took off. They were brought on the move and were able to get a first down at midfield.

The Danes got their first down by Brian Dodge, 3rd; John Evans 1st; and Ith place, but lacked the depth of the other runners. Curran is expected to contact Corning and the SA Execs, who are also proposing an alternative to the proposed SA parking plan. He did attend a meeting with Corning and the SA Execs, and they are expected to work on an alternative plan. The Danes did not put on a very good show against SUNY Central and SUNYA because of their limited depth. Nichols certainly gave the Danes a good run for their money. Sometimes you play well, but you just can't wait to get a hold of Brockport. Some students of SUNY Central and SUNYA are concerned about the possible effects of the parking plan. Suni and Malkin: "I don't see any need to have a sit-in between the two schools, but we may have to do something if the plan is not changed."
