ALUMNI LOSE TO VARSITY
Juniors and Frosh Win Preliminary Game

The State College team defeated the Alumni three last Saturday in the Albany High School gymnasium by a score of 25 to 17 in the most interesting game of the season. The "grabs," although a little out of training, displayed a brand of basketball which made the Varsity travel at high speed in order to contain them. Manager Francis Fitzgerald, who is also captain of the Alumni team, and holds down one of the forward positions, presented a strong line defense. But, in spite of this, he was unable to prevent his team from losing by a score of 25 to 17.

One of the most exciting games of the season was witnessed in the gym Friday night when the sophs beat the juniors by a score of 25 to 17. Due to the absence of the juniors' clever forward hooper, the sophs were evenly matched and fought hard for supremacy. The sophomores led the game throughout, the score at first half being 5 to 4. The junior guards worked hard but it was impossible to get the ball past the soph center, Knickerbocker, who, with flying leaps, caught the ball again and again and sent it to her forwards.

NO COLLEGE CAMP IN NEW YORK STATE COLLEGE FOR TEACHERS

The demand for teachers from State College is unusually large for this time of the year according to a recent announcement by Dr. A. R. Brubacher. The demand for teachers of French, English and science is particularly heavy, and A. R. Brubacher. The AN EXPLANATION

The reason for last week's lateness in issuing the "News" was a delay in getting the copy to the printer. It left the publication office on time but the hitch occurred between here and Hamilton street.

THE CASH SYSTEM

For the past week or so a preponderance of the small talk indulged in by our fair sex has been upon the attendance rates. More than half the student body have already been compelled to use their precious dollars due to the recent conditions and illness. The thought of wasting such precious good seems distressing to the economical soul. Then, too, there is the attitude of the students' minds. How are they to know whether one is in the hands of the Editor before the facts are looked over?

THE LIGHTS

Coleman has been provoked to the point of anger a number of times lately because the "lights" have been asked we-don't-pay-for-'em attitude is not. Surely humor could not be carried to its logical conclusion without disaster. It is to the best interest of every individual to guard the property of the club as he would his own. Remember the lights then, and do not go about cultivating that thriftiness which was the watchword of our New England fathers.
