BELFAST-Glengall marched early today in Belfast plus a throng of soldiers in four division marched in the streets. Belfast police fired tear gas and stone throwing to dispersion the crowd. A tire was in the street and cars were also damaged. The situation is still tense.

The three fiancés apparently were killed by men of the Irish Republican Army. The shooting took place at the home of the two men in London. The man was a member of the British Army in the British army district of Belfast.

Chairman Paul Rees of the United Nations' black church has said that there was an effort to stop the black men's movement.

The U.S. government has implemented a program which would allow in all new foreign citizens under the new immigration law.

I'm just sitting back and watching and waiting to catch the first fly or bat or anything. It's one of the best things I do. I want to see the results of the demonstration, too. I'm almost afraid to take action because I don't know what will happen. But I think we need to fight for our rights, for the poor and the working class. They need us to keep up the fight and fight hard. We need to stand up for what we believe in and not give up. This is just the beginning of our struggle. We'll keep fighting until we win.

I was astonished by the report that appeared on the front page of last Friday's ASP. I do not know how well informed was the rest of the family when your report appeared.

I am reminded of a story I heard about Dean Hunsberger. During a lunch meeting, the Dean announced that he had handed in his resignation. Then he said, "I have been asked to stay." Then it was discovered that he had resigned. The result was a demotion and a position at the University of Colorado in the Department of Geography.

The new chairman, Dr. Frisch, doesn't appear to be doing well either. The ASP editorial board just announced that it was going to endorse him for President. I do not think this is the best decision. The ASP editorial board should consider the alternatives carefully before making a final decision.

The ASP editorial board is deeply divided on the question of a presidential endorsement in the upcoming SA elections. One faction is solidly in support of Parks Hunter. Another member of the Board of Trustees, and arguments in his favor claim he has often stood up strongly for student rights, and that his involvement in Student Association has been serious. Another faction is in support of President Benezet, who was seen as a strong candidate in the previous election. The other faction is in support of non-endorsement. The non-endorsement faction was the final one, but the decision was made after a careful discussion of the pros and cons of each candidate.

For the past three years here at Albany, I have learned, in a great degree, the operation of the Student Association. This association is made up of all students and has the responsibility to vote on the various issues affecting the entire campus. It is my belief that the only way to deal with the various issues is to elect a President who can effectively lead any large student body. Therefore, I would like to make a personal pledge: to bring the Student Association's voice to the forefront of university life. I would ask you to consider the following pledges:

1. To improve the communication between the Student Association and the University: I will work towards establishing open lines of communication with the Administration to ensure that the Student Association's voice is heard.

2. To provide leadership: I will stand up for the students and work towards improving the University's image. I will be a visible and active member of the University community.

3. To promote student involvement: I will encourage students to be actively involved in the Student Association and the University community.

Through these pledges, I hope to make a difference and bring the Student Association's voice to the forefront of university life. I ask for your support in making this happen.
