Also for your convenience, student rate magazine subscriptions are available in the Book Department.

Checks Cashed....

A check cashing service is available in the drop boxes. Hours are 9:00 a.m. to 1:30 p.m. Monday through Friday.

Please feel free to come in and browse. We look forward to the pleasure of having the opportunity to be of service. This is your hub.

**NEW CURRICULAR POLICIES FOR THE UNIVERSITY'S GROWTH**

By Dr. J. M. Deeringer, Dean of Academic Affairs.

The academic policies of a university are as important as its academic resources. The new policies for the University's growth include measures designed to improve the quality and effectiveness of the curricula. These policies aim to ensure that students are adequately prepared for their future careers and that the University remains competitive in its field.

The new policies include:

1. **Curriculum Development**: New courses and programs will be developed to reflect the latest advancements in various fields. This includes the incorporation of interdisciplinary studies and the integration of technology into the curriculum.
2. **Faculty Development**: The University will invest in the professional development of its faculty, including providing opportunities for research, publication, and international travel.
3. **Student Support**: Enhanced support services will be provided to students, including academic advising, career counseling, and mental health support.
4. **Assessment**: A more rigorous system for assessing student learning outcomes will be implemented to ensure that students are achieving the desired learning objectives.

These policies are designed to meet the changing needs of society and the demands of the job market. The University is committed to providing an education that prepares students for success in the 21st century.

**WORKSHOPS CONTEND WITH NEW FRATERNITY RULES**

A series of Greek workshops has taken place in recent months in response to the sweeping revival of rules governing fraternity and sorority life on this campus. The most recent of these workshops took place on September 16, 17, 18. Three representatives from each university and fraternity were present.

Dr. David Hartley, Dean of Students, and William McKeon, Director of SAC, also took part in the discussions. Plans for the workshops to be reconvened in October. A meeting with alumni representatives of the Greeks has also scheduled to continue with the workshops.

**Athletics are not "Fun" at State as in other universities.**

Yes, there are winners in that following. Athletics are not "Fun" at State as in other universities. The students are not really "in it" for the fun of it, but rather for the opportunities it offers. The "fun" takes a back seat to the serious business of winning.
Worksheets Help Greeks

This newspaper comments on the intelligence and spirit of cooperation that have been embodied in this attempt to deal with a problem that has been brought to our attention. Starting with some of the most specific statements of policy we have ever seen, the Greeks have been able to make the most of the opportunity to make themselves heard in the way that they have been working hard ever since.

A general decision that the Greeks have to continue with is the recreation of organizations on campus. Virtually, nothing remains unaltered as they have been told that they must limit themselves to forming and pledging, initiate a few minimum averages for members, and drop all fraternities and sororities from the Student Constitution. For a shake-up of this magnitude, State's fraternities and sororities might have been hurt more sharply. However, while a certain amount of trouble has been caused, the problem of the whole situation has been demonstrated to the Greeks.

Wrong Estimate Difficulties

For the past week Senate has been deeply involved with financial problems. These problems result from a large mistake in complicated arithmetic. When it appeared that the accumulation of successes with budgets over a period of a few years would pay off, a similar period of surplus was declared, with about $17,000 dollars, student association President Cerris in our view, then to build up to a $30,000,000 depletion of Surplus.

While the accumulation of three institutes was completed in mid-August, surplus was declared as a result of a Senate Committee for President Cerris, who is chairman, as a result of a $10,000,000 non-budget Surplus in four or five or four or five or four or five or four or five or four or five or four or five or four or five or four or five or four or five or four or five or four or five or Senate Ratification of Test Ban Pact Fools Delight;
Russians Gain Big Edge Over U.S. in Treaty

by J. Roger Lee

If a group of wrong-headed statesmen were to meet to re-adopt the principle of the gentleman's compact, and to advise their successors to observe it, there is only one treaty they would approve of—namely, the General Agreement to Limit the Testing of Nuclear Weapons in Outer Space. For there is nothing in human nature to make us believe that the widest possible limits to nuclear tests would be observed if we were to adopt them.

The second month of the year's monitoring of the Treaty was last week reported by the Atomic Energy Commission to the State Department, which is responsible for maintaining the records of the treaty. The Commission's report confirmed that the Russians had continued to limit their testing to a single bomb, while the United States had concluded a series of tests in a series of tests of smaller yield.

The treaty was signed by the United States and the Soviet Union in 1962, and is designed to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted.

Of course, the treaty has been widely hailed as a triumph of non-proliferation. The treaty was signed by the United States and the Soviet Union in 1962, and is designed to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted.

In 1962, the United States and the Soviet Union signed the treaty, which was designed to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted.

However, the treaty has not been as widely hailed as a triumph of non-proliferation. The treaty was signed by the United States and the Soviet Union in 1962, and is designed to limit the amount of nuclear testing that can be conducted. The treaty would require the United States and the Soviet Union to limit the amount of nuclear testing that can be conducted. ACTIVITIES HELP FRESHMEN TO ACHIEVE TRANSITION

The first step toward "State hood" was officially presented by Dr. L. Walter Sehultze, Director of Freshmen, who delivered the excellent talk by Dean Thorne. Dean Thorne thought that as a whole it was very well planned and carried out. He described the job of the counselors in planning. In Milton Thorne, Dean, Director, Freshmen Agree, students were highly pleased. The counselors attended an orientation meeting in corridor meetings late at night. It was thought that they had "a lot of talent" and had a "better attitude than the freshmen." A Junior counselor observed that there were "more cautious" in their comments and commendations. The counselors did not vote on the question of bringing freshmen to the university throughout the summer. Some of the individual comments were excellent, but that the few that were good and a few that were not much.
Coach Garcia, Past "Big Ten" Wrestling Star
Pilots Soccer For Albany State

Joe Garcia has the honor of being one of the first football coaches in what we hope will be a regular series. We have the honor of bringing you this outstanding local man in the position of the man behind the scenes for Albany State College and for those who know him, he has been a hero for many years. He is not only a football coach, but he is a man who has had a successful career in AMIA as well as a football coach for Albany State.

A scramble for a loose ball in a typical AMIA contest. Look for these exciting and tense games every weekend.

Whether it be basketball, football, or track, Albany State has produced athletes who have made their mark in sports. The graduates of AMIA are known for their dedication and hard work, and many of them have gone on to successful careers in sports at the next level.

AMIA Program Designed To Include Everyone

Whether in basketball, football, or soccer, all AMIA coaches are dedicated to providing an opportunity for every student to participate in a team sport. These coaches understand the importance of inclusion and strive to make sure that every student has the chance to contribute and enjoy the experience.

HAMMING IT UP
by Ron Hamilton

A new year and a new sports editor in the school newspaper, the Albany State News, is already a busy time for the paper. The new sports section is an important part of the school newspaper, and the new editor, Ron Hamilton, is already hard at work.

Coaching the football team is a challenging task, but Coach Garcia has the experience and dedication to make it successful. The football team's season is off to a promising start, and Coach Garcia is looking forward to a great year ahead.

The Albany State News is proud to have Coach Garcia on its coaching staff. He brings a wealth of knowledge and experience to the team, and we are excited to see what he will bring to the sport.

Ped Harriers Are Ready
For Rough Fall Meets

This year's Albany State Harriers are ready for the challenges of the upcoming season. With new athletes and returning favorites, the team is looking forward to a successful year.

The Harriers' first meet is scheduled for September 27, and they are looking to make a strong showing in the meet. With a strong mix of experienced and new athletes, the team is well-prepared for the fall season.

State Soccermen Display Hustle
Four Regulars Return to Squad

This year's Albany State soccer team has a strong core of returning players, and they are ready to take on the challenges of the upcoming season. With the experience of four regulars returning to the squad, the team is looking forward to a successful season.

The season begins with a home game against New York State on September 21, and the team is ready to take on the challenge. With a mix of experienced and new athletes, the team is well-prepared for the season ahead.

Literary Review

'The Rock Garden' Truly Work of Pure Beauty

by L. A. Barnes

The Rock Garden is a collection of poems written by W. H. D. Rouse and published in 1929. The poems in the collection are written in a variety of styles and forms, and they explore a wide range of themes, including love, loss, and nature.

The collection is divided into three parts: "The Poet's Garden," "The Garden of the Soul," and "The Garden of the Mind." The poems in the first part are written in the form of sonnets, and they focus on the relationship between the poet and the garden. The poems in the second part are written in the form of odes, and they explore the themes of nature and mortality. The poems in the third part are written in the form of free verse, and they focus on the poet's inner thoughts and feelings.

The collection is a beautiful work of poetry, and it is a testament to the power of language. The poems are written with a deep sense of emotion, and they are able to convey a wide range of feelings. The collection is a must-read for anyone who loves poetry.
