Office Moves Create Dorm Space

by Steve Brackett

A series of academic office shuffles will open up six more floors of Mohawk Tower on Indian Quad for dormitory space this fall.

Acting SUNYA President Vincent O'Leary has ordered the renovation of one-half of the School of Library and Informational Science facilities, located under the main library, to accommodate the Graduate School of Public Administration. GSIP is moving out of Mohawk Tower.

The move began over the Easter recess and is expected to be completed by the end of May. According to O'Leary, GSIP and SLIS will share the space until the renovation of GSIP, when SLIS will move to the dormitory. (Editor's note: the article incorrectly states the move will happen in April instead of May.)

Wiley said the office space in the tower would be converted to dormitory space this summer.

A group of SLIS students objected to the move, and said students were not informed of the move until two or three days before it began.

Sarah Hong, one of the students, said she was concerned that ISIS materials which are being temporarily housed in the main library may be difficult to retrieve when the school moves downtown.

Growing Demands

The move is a part of a larger plan for the transfer of academic and administrative groups to the downtown campus in order to meet the residency demands of a growing student population, according to Dennis Stevens, Chair of the committee dealing with the problem.

O'Leary is still trying to find room for the School of Criminal Justice and the School of Social Welfare, which occupy the remaining six floors of Mohawk Tower. According to O'Leary, they will be relocated after a selection of academic or administrative offices are moved downtown with SLIS.

O'Leary explained that, with no new building construction planned, it was decided last year that in order to move the academic offices out of Mohawk Tower, it would be necessary to relocate some academic or administrative offices downtown.

However, according to O'Leary, when it was decided that the SLIS would be one of the academic groups to go downtown, "it became clear that by moving their private library to the other side of their facility, we could convert space for GSIP right now."

"Moving is a necessary but insignificant step," said GSIP Dean Ovrole Poland. He said that the move will allow the school's central office space by one-third until SLIS moves downtown.

SUNY Chancellor Wharton Visits Albany Campus

by James Hudson

SUNY Chancellor Cyril Wharton visited SUNY Tuesday as part of his tour of all sixty SUNY campuses.

Wharton spoke to a group of faculty members, and then later in the afternoon, he addressed a selected students including SUN President Dave Gold, Central Council Chair Mike Looser, S.U.M Chairman Tim Martinez, ASP Editor-in-Chief Thomas Mattello, and WCHB General Manager Paul Rosenblatt.

Wharton's two-hour talk covered a range of subjects from cooperation between administration and students to methods to improve the quality of teaching.

He stated his commitment to keep SUNY a University Center despite losses of graduate programs.

The utilization of the quality and quantity of resources available at SUNY for public policy research would benefit both SUNY and the public, Wharton said.

He stressed the autonomy of the individual SUNY campuses in matters of tenure and distribution requirements.

Before becoming SUNY Chancellor, Wharton was associate at Michigan State University from 1970 to 1979. He received his Ph.D. from the University of Chicago in 1957, and has a masters degree from Johns Hopkins University, and a bachelor of arts from Harvard.

Youths Burglarize Record-Co-op

by Seth Tilly

An attempt at burglarizing the SA Record Co-op has failed.

Earlier recess was foiled by officers of the SUNYA Department of Public Safety. Two Albany youths have been arrested and charged in connection with the incident.

Over $500 worth of goods was confiscated from the youths, who were apprehended by Public Safety Officer Jim Reddy Sunday as they were attempting to flee the campus. The Record Co-op will be closed and the building was locked until April 5 because of the goods which constitute a large part of the co-op's stock, are being held as evidence.

The names of the youths, age 13 and 16, have been withheld because of their ages.

The youths were seen by Reddy while he was on patrol. Both carried large bags, and ran when they saw Reddy's patrol car. The goods, which included records, bonds, and pipes, were abandoned in the flight.

The elder of the two youths was arrested at Fuller Road after a chase, and the younger was picked up a short time later near his home.

The younger½of the two youths used to gain entry into the Campus Center, where the Co-op is located, is still unknown. The building was locked on the Friday night before the burglary, according to Acting Campus Center Director Jim Sheldrake.

There were no apparent signs of forced entry.

After the youths got into the Campus Center they broke into the Record Co-op by punching a hole in the wall with a piece of metal, according to Reddy. He said they took turns passing the goods through the hole and then packed their haul into two large plastic bags.

Record Co-op Vice-Chair Kenny Friedman said that the heist, a part of the Record Co-op's business, will remain closed for the remainder of the semester.

The younger youth has been released to the custody of his parents, and will appear in family court later this week. The younger youth has been released on $500 bail after being charged with burglary, criminal possession of stolen property, and criminal possession of a deadly weapon. A switch blade was found on him when he was arrested.

In a related incident, an attempted burglary of the Record Co-op earlier in the week was prevented by Assistant Campus Center Director Nate Briggs.

After closing the co-op, continued on page 4

President List To Be Released

by Matthew Cox

The SUNYA Presidential Search Committee has narrowed to about a half dozen candidates, some of whom may be issued invitations for visits at a meeting of the Presidential Search Committee this afternoon.

Presidential Search Committee Executive Secretary Donald Iran released the release of a final list of candidates is imminent.

Acting Queens College President Nathaniel Siegel, whose name at one point was being considered, said he has had no contact with the committee. Chasin said the committee has yet to receive all the candidates it is actively considering.

Final meetings with the candidates will probably be opened to the SUNYA community, Chasin said.

The search process was the key point of the meeting, and all of the more than 200 names considered, has been kept confidential.

[This open hearing] is what search Committees have done in the past, and I'd be surprised if they didn't follow that procedure again," he said.

Search Committee Chair J. Vanderhoof panel was unsuitable for comment.

The Committee met Mar. 17 and identified six or seven particularly strong candidates form among the 12 it had already narrowed down to.

Chasin said.

"We'll continue now on the details of identifying those three dozen out of our next meeting," Chasin said. That meeting is scheduled to be held today, he added.

"Once we extend the invitations to visit, the candidates names become public knowledge," Chasin said.

The SUNYA Presidential Search Committee is expected to find a permanent successor to Emmett Fields, who left SUNYA over the summer to assume the Presidency of Vanderbilt University in Nashville, Tennessee.

Acting SUNYA President Vincent O'Leary has said he did not submit his name for consideration, but Search Committee members have confirmed that fields is among the 15 candidates then being considered.

Fields has been since released confirm on whether O'Leary's is being considered.

O'Leary was Dean of the SUNYA School of Criminal Justice when he was named as one of three Fields.

The Presidential Search Committee, which includes faculty and students as members, has been seeing every other week throughout the academic year, according to Chasin.

Chasin said he could give no firm estimate on when the committee would complete its work.

The search has been conducted nationally-wide, in national education periodicals were placed earlier in the year while applications were still being reviewed.

 Death Penalty... see page 3
Death Penalty Veto Expected

By Susan Ragosa

The death penalty is in "a state of collapse," declared Senate President Tom V. Barry, Jr., in opening the debate on a death penalty bill Wednesday. Barry had previously conformed the value of life in a way of the state's most serious crimes, the murder of a law enforcement officer. The question now remaining in the Senate, Barry said, is whether a judge may give up the sentence of a person to be executed. V. Barry's bill would provide for a new method of execution in the state. Under the bill, a prisoner would be sent to prison, and if he refused to return to the sentence, he would be executed by lethal injection. The bill also outlawing mitigating factors to be considered in determining the penalty, something which has been a chief complaint of both Barry and Chief Justice Joseph Peter. The bill also makes no mention of capital punishment for the first degree murder of a law enforcement or prison officer.

SASU Holds Health Fair Protest at State Capitol

By Ed Ruder

The administration has violated the Constitution of the State of New York in its efforts to establish a health-fair program at the State Capitol, said a speaker at a protest held Wednesday afternoon. The speaker, a New York City resident who had been involved in the movement for a health-fair program in the city, said that the administration had violated the Constitution by its attempts to establish a program at the State Capitol without the consent of the elected officials of the state. The administration's actions were also in violation of the state's Constitution, which protects the right of the people to participate in the government's decision-making process.

SA May Limit Campaign Spending

By Jill Kaplan

Plans to regulate campaign spending in SA have been proposed by SA President Tom V. Barry, Jr., and SA Speaker Joseph Peter. The proposals would limit the amount of money that candidates can spend on their campaigns to $10,000. Candidates who exceed this limit would be fined up to $250. The proposals would also require candidates to report all campaign contributions to the SA Office of the Attorney General.

O'Leary Speaks to Central Council

By Earl Nye

An audience of approximately 50 people attended a meeting of the SA Central Council at the Appleby Club Thursday evening. The meeting was called to order by SA President Tom V. Barry, Jr., who announced that the agenda for the meeting would include discussion of SA's budget, student involvement in the administration, and a presentation by O'Leary on the subject of student representation in the legislative process. O'Leary, a member of the New York State Assembly, spoke on the importance of student representation in the legislative process and the need for students to be involved in the decision-making process. O'Leary also discussed the role of the Central Council in the student government and the importance of student input in the budget process.

Man Arrested in High Speed Chase

By Mike Patterson

A man was arrested Wednesday after leading police on a high-speed chase in and around the city. The man, identified as Larry, 23, of Albany, was driving a car that was traveling at a high rate of speed when he was stopped by police on Beach Road. The man was arrested and charged with reckless driving.

Steelmakers Pension Increases

PITTSBURGH (AP) - Steelworkers are demanding a $2.50-a-month increase in pension contributions from employers in the second year of the new plan. The increase would bring the annual contribution to the plan to $100 from $75. The steel industry has been trying to negotiate a new pension plan since the beginning of the year, but progress has been slow. The steel industry has also been trying to negotiate a new pension plan since the beginning of the year, but progress has been slow.

NYC Gate Order to Bar Transit Strike

NEW YORK (AP) - A New York City transit strike ordered by the city's transit authority was put on hold Monday, May 10, 1982, by an order from the city's transit authority. The order was issued after the city's transit authority and the transit workers union failed to reach an agreement on a new contract. The city's transit authority has been trying to negotiate a new contract for several years, but progress has been slow. The city's transit authority has been trying to negotiate a new contract for several years, but progress has been slow.

PROF STUDIES OFFICE ROMANCES

by Anne Deutsch

Office romance are an amusing and
harmonious part of the office world, a
study published recently in SUNYA.
Public Administration faculty member Robert
Quinn, author of the study, feels an
office romance relationships are both more
common and more desirable than previously
recognized.

Mr. Quinn said he was surprised that
"prejudicing" and "prejudging" are so common
in the office.

The study was carried out in two
offices and the study was carried out by
surveys and interviews with office employees.

Racism As Usual

The aforementioned AFS article is not an isolated instance but is a representation of the everyday experience of Black people in this country. For example, the article mentions the experiences of Black people who are subject to profiling by law enforcement. This is a common occurrence, and it is important to acknowledge the systemic racism that exists in law enforcement and the criminal justice system. It is essential to educate ourselves about the history of racism in this country and the ways in which it continues to manifest today.

One of the ways in which we can challenge these systems is to support organizations that are working to address racism and promote justice. This can include supporting local organizations that are working to address issues of inequality and advocating for policy changes that will help to reduce the impact of systemic racism.

At the individual level, we can also work to challenge our own biases and assumptions. This can include examining our own attitudes and beliefs about race and working to understand the experiences of people who are different from ourselves. It is important to listen to and learn from those who have been affected by racism, and to work to create a more just and equitable society for all.

In conclusion, racism is a pervasive issue that affects all aspects of our lives. It is essential that we work together to address this problem and create a society that is truly inclusive and equitable for all people.

Removing Barriers: SUNY Works to Improve Environment For Handicapped

By THOMAS MARTIN

The problem of disabled students is a major concern for educators throughout the nation. The National Rehabilitation Association has taken pains to make campuses more accessible to people with disabilities.

At SUNY, a task force was formed last spring to implement section 504. The law requires that all public institutions be accessible for disabled students. With the task force, programs and policies specifically designed to assist disabled students were put into place. The State University of New York Home for the Blind in New York City is among the institutions where the task force is working.

The task force has been working to develop educational programs that will help students with disabilities. The group has also been working on improving the physical environment of the campus to make it more accessible to disabled students.

The task force has been working to develop educational programs that will help students with disabilities. The group has also been working on improving the physical environment of the campus to make it more accessible to disabled students.

The task force has been working to develop educational programs that will help students with disabilities. The group has also been working on improving the physical environment of the campus to make it more accessible to disabled students.
Tightened and more energetic, the group was firing on all cylinders. The album opens with the title track, a hard-driving, upbeat number that sets the tone for the rest of the album. "Abba" is a fun, danceable track that features strong vocal harmonies and a catchy melody. The guitar work is particularly impressive, with fast runs and intricate solos that add to the overall excitement of the song.

The second track, "Fool's gold," is a more subdued, introspective number. It features a piano melody that is both melancholy and beautiful. The lyrics are more personal and introspective, reflecting on the challenges and ups and downs of life. The overall mood is one of reflection and self-discovery.

The third track, "The Ballad," is a soft, acoustic number that features a gentle, fingerpicked guitar track. The lyrics are more subdued and introspective, reflecting on the challenges and ups and downs of life. The overall mood is one of reflection and self-discovery.

The fourth track, "The Love Song," is a more upbeat, danceable number. It features a strong beat and catchy melody. The lyrics are more personal and introspective, reflecting on the challenges and ups and downs of life. The overall mood is one of reflection and self-discovery.

The fifth track, "The Final Straw," is a more intense, fast-paced number. It features a strong beat and catchy melody. The lyrics are more personal and introspective, reflecting on the challenges and ups and downs of life. The overall mood is one of reflection and self-discovery.

The sixth track, "The Farewell," is a more introspective, emotional number. It features a soft, acoustic guitar track and gentle, fingerpicked guitar. The lyrics are more personal and introspective, reflecting on the challenges and ups and downs of life. The overall mood is one of reflection and self-discovery.

Overall, the album is a strong, well-crafted collection of songs that explores the ups and downs of life in a personal and introspective way. The music is both melodic and energetic, with strong vocals and tight instrumental work. The overall mood is one of reflection and self-discovery, making it a perfect album for anyone looking to find their footing in a world that can be both challenging and rewarding.

An Act To Follow?

Ah, spring. A time for the weather to get warmer, frisbees and softballs to emerge, for people to return to the podium. Spring is a time of rebirth. And in that spirit, Student Association will be holding a meeting next week to discuss the restoration of an evaluation of faculty members by students.

This campus used to have such a program—it was called The Assessment of Courses and Teachers (ACT) and it has died and been resurrected many times more in other campuses.

An assessment of faculty members printed in a booklet for all to see serves many purposes. First, it alerts students to the best teachers and gives teachers an awareness of how they are seen in the eyes of the students. It also shows the students' evaluation of the particular strong and weak points of the faculty member.

At this university, faculty members are expected to maintain excellence in their respective field. This means that they are expected to show everyone that they are on top of matters in their field by conducting research and/or publishing.

Faculty members should also be expected to maintain excellence in teaching. The only true accurate assessment of whether faculty members have maintained this excellence can be obtained by the students. The students are the ones who interact with the faculty members; they are the ones who can evaluate the teaching performances. The possibility of a negative rating printed campus-wide may just be the added incentive for a professor to devote a little more time to the students—or at least as much time as he or she is devoting to getting published.

Tenure is another factor. Currently, there is still no student participation on tenure decisions at this university. While meeting with a number of SUNY students this week, SUNY Chancellor Clifton Wharton was non-committal on the issue of student participation in tenure evaluations, preferring to leave it to the individual faculties to determine. The student professor ratings' performance of faculty members can only add credibility to the argument that students should be involved in the tenure process.

The fact that there is movement toward the rebirth of such a publication is encouraging. It is hoped that a study will be made to look into the problems that have been experienced in the past and find ways to avoid keeping such an endeavor alive. In short, SA should get this ACT together permanently.

One person: long-haul driver. Smallest 15-passenger van goes on an
enjoyable ride. Another person that appears promising is the driver, who
grill and the driver love the ride, and the 15-passenger van is Parked.

The other infalo positions are full," said Barnard. "The
job doesn't pay much. Nobody takes advantage of their opportunities to
get down to a position."

Leading contenders for the symbolic infalo spots are Flagg, Barnard,
and Waite. Barnard is the nominee of the Stony Brook faculty, and
the New York faculty. He plans to play a part in the spring season under
the new coach, but has decided to leave the University early. Barnard
has experience in both infalo and basketball and has listed
interim positions in weekends.

Adding to the difficulties, the spring schedule is tougher than
the fall. The schedule play eight games against Division I if opponents,
leading to a grueling season under the new coach. It could cause something from a
breakdown. It won't be always next year.

Leading to the question of whether the spring schedule
is tougher than the fall, it won't be always next year.

Batmen Have To Hit To Improve

Leading to the question of whether the spring schedule
is tougher than the fall, it won't be always next year.

"I've got Pabst Blue Ribbon on my mind."
Weak Hitting Worries Batmen
by Paul Schrott
Coming off their worst season in many years, the junior varsity baseball team can only hope for a brighter spring. The team finished 20-10 last year and with the departure of some key members, the outlook is not promising.

With the loss of several key players, the team will have to rely on younger players to fill the void. The team will have to work hard to improve their hitting, which was a weakness last season.

"We're just as excited as the fans," said Coach Bob. "We have a lot of talent, but we need to work hard to get better."
