POETRY AVOIDS SHOCK, OBSCURITY

by Richard Loomis

"The Month of the Unicorn," is a delightful piece. The primary theme here is man's attempt to find meaning in a universe that is essentially earth-bound.

One of the most recent popular poems is "I Shall Not Be Moved." This poem is not at all a confessional piece, but rather a statement of man's will to continue to exist.

Seniors Protest Arguments Against Sororities and Fraternities

In recent years, there has been a trend towards excluding fraternities and sororities from the campus. Many students believe this is unfair and discriminatory.

Catalog Hold Inadequate

It is indeed unfortunate that the students must rely on the University catalog for information about the University. Often the mistakes made in the catalog bring serious problems for the student. One such problem is the confusion that results when a student refers to the catalog to find information about the University, such as the requirements for graduation, the names of the departments, the requirements for majors, the requirements for minors, and the like. The catalog is a valuable tool for students, but it should be updated regularly to reflect any changes made in the University.
Players Develop Characters Poorly in 'Macbeth' Adventure Story

by Sue Murphy

Last Saturday Night the Albany York Players put on a very good performance of the play "Macbeth". It was a strange play to begin with, and certainly one of the least successful performances in the 200 year history of "Macbeth". Throughout the play, the actors failed to develop their characters properly. They tried to make them as realistic as possible, but failed to inject any life into their roles.

The production itself was effective in many ways. The acting was excellent, especially that of the main actors. The set design was also imaginative and well executed. The costumes were appropriate and added to the overall effect of the play.

However, the writing of the play itself was weak. The dialogue lacked depth and did not fully develop the characters. The acting did not compensate for this lack of depth and the overall effect was a rather flat performance.

One of the most disappointing aspects of the performance was the way in which the actors handled the central character, Macbeth. He was portrayed as a rather one-dimensional figure, lacking in depth and complexity.

In conclusion, while the production of "Macbeth" was overall quite good, the writing of the play itself was lacking. The actors did their best with the material they were given, but unfortunately the play itself was not up to the mark. It is a shame that such a talented group of actors had to struggle with such a weak play, but hopefully they will be able to find better material in the future.

**Hitting & Pitching Look Sharp As State Varsity Routes RIT 11-3**

State’s varsity baseball squad got its 1963 campaign off to a running start last Saturday when the state varsity team defeated an experienced Rochester Institute of Technology (RIT) team 11-3. The Peds outscored the losing RIT squad in all departments.

This game marked the first time in a number of years that the Peds opened the season at home. As Roger H. E. has been an honored tradition with the Peds, the wearing of the RIT uniform is a sign of the start of the season. The winning Peds will look to continue their winning streak in the upcoming games.

The SUNYAC Athletic Advisory Board has recommended that the team be allowed to wear the RIT uniform for the opening game in order to give the players the opportunity to wear a uniform that is different from their own.
