Matmen Open Season at Hiram; Team Has Spirit, Lacks Experience

"We have some really fine individual wrestlers who can pull us through the season with a winning record. Most of them, however, are definitely going to be hindered by a lack of depth and experience." This is how wrestling coach Joe Garofalo evaluate his 1964-1965 matmen, who were at the Hiram Invitational in an octagonal meet in Hiram, Ohio. Garofalo is grateful for the return of last year's Most Valuable Wrestler and wrestler of the year in the country, Eugene Monaco.

Last year the team placed fourth in the Hiram meet, competing with such schools as the University of Miami and the University of Miami, Dill. Thomas was an individual winner last year.

The men who did the Hiram Invitational included four from the 1963-1964 varsity. Garofalo said. "If there is a team that can win in Hiram, it is the matmen." The 150 pound class belongs to Dick Graber, who has had on three years of varsity wrestling. Joe Garofalo's recent arrival has taught him to avoid the mistakes of his predecessors.

In the 100 pound division, Robelotto will share the division's title with Jim Lesch of the University of Miami. Robelotto, a transfer student, has had no high school experience in the sport.

The 147-pound class is open and available. Tom Koenig, who will be out of competition this year, Dick Syzmanski played bass for the University of Miami, Dill. However, he has had no high school experience in the sport.

The matmen face a very hard schedule this year, according to Garofalo. "Outstanding Frosh Athlete of last year, Paul Hoffman will start again this season with a winning record. However, we are definitely going to be hindered by a lack of depth and experience." This is why Garofalo believes that the matmen will have to rely on their experience and depth to win the Hiram meet.

Frosh Hoopsters Have Height, Injury Problems

Joe Berlin

Confronted with one of his toughest schedules in years, and hampered by lack of height and injury problems, the freshman basketball team will rely on speed and flexibility to overcome victorics. The team, ranging in height from 6'0" to 6'2", opens its season on December 2 against Syracuse State.

The first game should prove the hardest one on the freshman schedule. Although Syracuse State has been described as a "pro team," the Statesmen under the direction of Bill Schieffel who will be out in the season opener, this time, will be a strong team to back up his starting five.

One of the greatest attributes of athletic competition is the human element involved. It is for the sports writer to dig beneath the glory of victory and the emptiness of defeat and give the readers the complete story behind the event.

If we of the sports department can provide ASP readers with the qualities we deem necessary for a successful sports coverage, we will be fulfilling our part in keeping you abreast of all the vital happenings of your alma mater.

An ever-increasing number of sports fans are becoming aware of the qualities of a good sports writer. A good sports writer can make the sports page of the ASP a reliable, affluent, and well-informed source of information.

It is our belief that the sports page should provide fans not only with the facts and figures of game scenes, but also with the background of the players, the coaches, and the fans. A sports story should give complete coverage of an event, not just the skimpy details of the game itself.
