Earthquake Shakes Northern Italy

The most powerful earthquake in the history of Venice hit the northern Italian city on May 7, 1976. People reported feeling the ground move for about 30 seconds. Buildings and other structures were damaged, but there were no reports of major injuries. Venice was cited as the site of many other historical earthquakes, including the 14th-century quake that caused the city’s famous bell tower to collapse.

STATE CONSIDERS NEW TAX REGULATIONS

ALBANY, N.Y. (AP) The state is considering a new tax regulation that would apply to businesses selling real estate. The proposed changes would give owners of multi-unit buildings a break on their property taxes by lowering the tax rate. The regulation would also require landlords to register their properties with the state, and their tenants would be required to pay an additional 2% sales tax.

NYPIRG Offers Students Internships for Fall

The New York Public Interest Research Group (NYPIRG) is currently accepting applications for its fall internship program, which offers students an opportunity to gain valuable work experience and contribute to important public interest projects. NYPIRG provides internships in a variety of fields, including environmental, consumer, and public policy advocacy, and is dedicated to advancing the public interest through research, education, and advocacy.

To apply for an internship, students should visit the NYPIRG website at www.nypirg.org/internships and submit an application. The application process is competitive, and positions will be filled on a first-come, first-served basis. Students with a strong interest in public policy, environmental issues, or social justice are encouraged to apply.

NYPIRG is committed to fostering a diverse and inclusive workplace and is dedicated to providing equal opportunity for all employees and applicants. NYPIRG offers competitive compensation and benefits, including health insurance, retirement savings plans, and paid time off.

NYPIRG is based in Albany, New York, and offers internships throughout the state. Interns will have the opportunity to work on a variety of projects and gain valuable skills in research, communications, and organizing.

To learn more about the NYPIRG internship program and to apply, visit www.nypirg.org/internships.

NYPIRG Chairperson Chris Aidun, right, talking with NYPIRG staffer (and SUNYA alumna) Joanna Slaight. Applications for fall NYPIRG Internships are now being accepted.
School Band Members Hallucinate in the High Heat

Police and medical experts are trying to deter­
mine why 19 members of a junior high school band went into severe hallucinations after a can of soft-
drink was passed among them during a parade.

"It was really frightening. They were all of 14 and 15 years old," said Dr. Norman Wheeler, who treated the youngsters after the incident last week.

"They said: 'Don't kill me, don't kill me,' and tried to get away from us.

All Recover

All 19 recovered after three or four hours and were sent home, Wheeler said. Another 10 to 15 members of the band from Mitchell Junior High School in Atwater, had mild symp­toms but were not admitted to the hospital in this small farming com­munity in southern Fresno County.

Acting Police Chief Vera Gon­salves said there were several ver­sions of how the youngsters ob­tained the drink.

Soda Can

"The main group that got sick claimed that they got a can of soft-
drink from someone along the street, passed it around and then got sick," said Gon­salves.

"We found that two of the kids had the group and went to a grocery store and got a can of soft-
drink, then filled the can up with water," he said. They passed the can around to fellow students, who marched for two hours in 90 plus degree heat.

"We don't know if there is any chance of any drugs being involved. We haven't any facts to prove that," Gon­salves added.

He said that blood and' urine samples from the band members were being sent to the Fresno Coun­ty Health Department laboratory for analysis.

Unopened cans from the store, and empty cans found where the children had been will be studied at the criminal investigation laboratory at Fresno State University, Gon­salves said.

Two Explanations

The police official said there are at least two other possible explanations of the incident—some sort of indus­trial pollution in the soft drink, or that the cramps and panic were triggered by drinking cold liquid after extensive physical activity in the heat.

Sawhill Is Speaker at Graduation

by Damien Max

This year's commencement cer­
emonies will be held on May 30, at 1:30 p.m., on the football field, behind the Physical Education Building.

Guest speaker for the occassion will be John Sawhill, President of New York University.

Sawhill became chief executive of NYU in September 1975. Previous to that he had nationwide recogni­tion as a management expert while serving as federal Energy Ad­ministrator.

Outside Ceremony

The ceremony is to be held outside barring inclement weather, in which case it will be held in the gymnasium. Tickets will not be issued for guests since seating will be sufficient outdoors. If the ceremony is held in the gym, students will view the proceedings on closed circuit television from the Lecture Centers, Performing Arts Center and Campus Center; again, tickets are not necessary.

Caps and gowns must be pur­chased at the University Bookstore by May 28. For further details call James Doccheleff, Commencement Coordinator, at 437-7210.

Uncoupled on the Road to Thelbes

By Ellen White

Marge looked out to the small pool village stuck to the side. It was neatly cropping the crescent flooded and brown velvety strands of reeds cushioned by occasional pines.

Paul returned in Albany. At the momen­t Paul didn’t even know that she had left. In a few hours he would leave home, sit down in his chair, and wait. He would turn on the television. He would find the fish. It was as if he was especially considerate maybe he might even, in ar­rangement of her activity, focus on the one. Then he would sit at a table and play cards.

A man sat beside her and he inter­rupted her speculations.

“Sort of genteel,” she suggested. She re­membered that she had been gentle.

“Sort of genteel,” she suggested. She re­membered that she had been gentle.

She lit a cigarette. The waitress pushed the ashtray nearer to her.

“I don’t know you,” Karen answered.

“Then why are you here?”

“Come on, spit it out,” Karen pleaded.

“He didn’t tell me not to smoke. He didn’t tell me not to smoke. He didn’t tell me not to smoke.

“Marge opened wide her mouth. She didn’t want to smoke.

“After an appropriate pause, Karen dis­closed her mouth enough to ask another question:

“Then you had better know it.

“No, I don’t know. I’m just saying what I thought.

“Karen lit a cigarette. She then sat down in her chair.

“Karen, who was wearing a pair of black sunglasses.

“Both you always sounded so happy when you talked. You sound so happy.

“Marge sat down in her chair, and wait. She sat down in her chair, and wait.

“Karen, who was wearing a pair of black sunglasses.

Fear of Falling

continent's first parachute jump. He dropped from 6,000 feet above the clouds and parachute landing near the beach. He was hailed as a hero by the people of the country and many newspapers around the world. However, some people were not so sure about his actions.

Although there is no concrete evidence that Alcibiades tried to make a parachute jump, there are some stories and rumors that he might have attempted it. One theory is that he wanted to make a grand entrance into Sparta, the city where he was born, and that he wanted to make a dramatic statement about his own courage and5.5.

But there is something beyond this. The fear of falling is not just a physical fear. It is also a mental fear. People have a fear of falling from heights because they are afraid of the unknown. They are afraid of what might happen if they fall. They are afraid of the possibility of injury or death.

There are also people who have a fear of falling because they are afraid of losing control. They are afraid of the possibility of losing their balance or their footing. They are afraid of the possibility of being unable to control their movements.

In either case, the fear of falling is a universal experience. It is a fear that everyone has to some extent. The fear of falling is a fear that we all have to overcome.

The fear of falling is a fear that we all have to overcome. It is a fear that we all have to face. It is a fear that we all have to deal with. It is a fear that we all have to overcome.

The fear of falling is a fear that we all have to overcome. It is a fear that we all have to face. It is a fear that we all have to deal with. It is a fear that we all have to overcome.

Looking for a Place for Student Recreation?

The SUNYA Student Recreation Center Committee
Has the Place for You!!!!

BACKGROUND

In the late 1960's and prior to the completion of construction plans for the new campus, our University community learned that our long-awaited Field House would not be constructed in the immediate future. The need for such a facility, which existed then, increased considerably with the university's growth through succeeding years.

The rapid growth of participation in men's and women's intramural athletics (88% participation increase over 1970-71) and the need for increased space for freetime recreation have underscored the desirability of a multi-use facility.

With these factors in mind, a group of students, faculty, and administration met to determine possible courses of action which would address these needs. (Membership of the group is listed below).

Early considerations included the possibility of a relatively low cost "bubble" similar to that which is in use at the SUNY at Buffalo. Visits by Committee members to the Buffalo campus, Boston University, Boston College and M.I.T. convinced the Committee to consider preliminary alternatives. At this time, the Committee has eliminated the "bubble" from further consideration.

A structure of longer life expectancy and service, such as the facility developed at Boston College, is now viewed with enthusiasm by this group. Using the facilities of the Boston College facility as a model, the Committee has now developed a proposal for broader campus review. The basic elements of the building and general characteristics are described in these materials.

Possibility of some architectural-engineering-structural firms initiating a competition is suggested at this time. Total cost of the proposal of the nature described on the next page has been estimated at somewhat under $2 million, including equipment. (It is important to note that construction time has been estimated at 9 - 12 months).

Funding of this proposed structure will be dependent upon a) the Athletic Auxiliary Board Surplus b) the University Auxiliary Services (UAS) c) user fees. Other sources to be determined.

After careful review and consideration, the committee has determined that a long-term funding arrangement (10 - 20 years) will be necessary, therefore, it is important that the broad opinion of our academic community be brought to bear in funding any facility constructed.

This information is presented for your review and evaluation. You will be notified by Computer members from 10 a.m. until 2 p.m. Monday, Tuesday and Wednesday (May 10, 11, 12) in the Campus Center. A questionnaire will be distributed at that table, for the purpose of recording community opinion.

The Committee requests your careful consideration of this proposal and invites your opinions. We assure you that your evaluation will be important determinants in guiding the Committee's further actions.

Trackmen Off And Running

by Jeff Adams

The Albany State Track and Field meet men's events at the University of New York at Albany, May 7, 1976. The men's team was 19th in the nation, according to Coach Paul Arzner.

The most notable achievement was witnessed in the 440 yard dash, won by Ken Dukas of the University of New York at Albany with a time of 43.6 seconds. Dukas was followed closely by Dan Mallard of Hartwick College and John Dukas of the University of New York at Albany, who recorded times of 43.8 and 44.0 seconds, respectively.

In the 880 yard run, the team of Brown, Sherwood, Bates and Smith from the University of New York at Albany, won the event, with a time of 1:55.6.

For the women's team, the Green and Gold team were victorious in the 4 x 100 yard relay, with a time of 48.6 seconds.

On the track, the women's team was led by Dawn Brown, who won the 220 yard dash with a time of 25.6 seconds.

Women Trackstetters Rally; Medley Relay Wins Meet

The score stood 52-1/2 - 52-1/3 - 36-1/2, resulting in a victory for the University of New York at Albany in the track and field meet against Cortland State and Siena College.

The University of New York at Albany won 10 of the 19 events. Orin Griffin of the University of New York at Albany won the 100 yard dash, which tied both his school and track record. His time was 10.5 seconds.

The team of Terry Bates, Dorethea Brown, and Foley in the 440 yard relay was also second, winning the event with a time of 44.1 seconds.

The University of New York at Albany men's team scored 140 points, 23 points ahead of Cortland State and 83 points ahead of Siena College.

Albany's Brian Davis leading the pack in recent home meet. Fred Booth in second place and Chris Burns is in third.

Women's Track Meet

The women's team was led by Dawn Brown, who won the 220 yard dash with a time of 25.6 seconds.

Albany's Brian Davis leading the pack in recent home meet. Fred Booth is in second place and Chris Burns is in third.

Foreman: 'Next Four Critical'

The Danes will be facing Ithaca, Cortland (2), and Hartwick College in the next four games, which Coach Bob Fowler believes will decide the fate of the team.

The Danes have a 4-3 record (right now) and are just 1-9 in the SUNYAC conference. The team has struggled with consistency and has had a difficult time finding its groove.

The next four games will be crucial for the Danes, as they aim to improve their record and move closer to the top of the conference standings.
