Most people haven't decided who to vote for in 1972. Despite the dozen and a half candidates running for the presidency, no one candidate has emerged as the man with his foot on the other's throat. 

In this system the Republicans are underfed to make sure that Richard Nixon running for another term, will not molest those who backed him in 1968. 

Nixon suffers from the ins of 1968 as well, but his foot is better, and now that he has all Democrats in the pits, he turns himself with a snarl about the choice of a new VP. "I'm sure he has pointed out that "I'm not his boss," he doesn't understand. I feel that the Maine senator will shortly run out of steam. Humphrey suffers from the likes as well, but has a better foot. 

This leaves McGovern and Harris, both midwesterners, both "progressive" candidates. Harris, however, is a progressive, who is shaping up to be more interesting to be voted for, who is less likely to be the same old, same old as that. Like Lindsay he is less seen, though if Fred Harris can't win, it's not over yet. 

One feels that the Maine senator will shortly run out of steam. Humphrey suffers from the likes as well, but has a better foot. 

The Democratic party is in the process of selflus, to be a better party, or as party, 1972 will come too late for Mayor Lindsay. 

The human McGovern and Harris, who run as progressives, both "progressive" candidates. Lindsay has a major card, but he is a better card than the old card, and party, 1972 will come too late for Mayor Lindsay.

Posthumously Jimi
by Bill Briner

RHYTHM BRING: Jimi Hendrix was a genius of electric guitar. Although this album is for the most part a posthumous one, it is still an interesting piece. With its spacious arrangements and varied tempos, the music has a haunting quality. Hendrix was a master of the electric guitar, and his use of feedback and distortion was groundbreaking. His use of a wah-wah pedal added a new dimension to his playing, and he was able to create a wide range of sounds.

In the Name of Humanity
by Jay Boudell
An ASP Column

Our system of justice in America is biased, flawed, and often extremely cruel. The media and the public have a tremendous amount of faith in our system, but many questions need to be asked. Our system is based on a series of flawed assumptions, and these assumptions are at the root of many of our problems. The system is designed to serve the wealthy and powerful, and it is often biased against the poor and the less fortunate.

We need to ask ourselves some tough questions about our system of justice. Why are so many people sent to prison? Why are there so many people who are conspired against? Why are we so quick to punish and so slow to rehabilitate? We need to ask these questions and find answers.

In the Name of Humanity, we must stand up and speak out. We must demand that our system of justice be reformed and improved. We must demand that our system be based on the principles of fairness, justice, and equality. We must demand that our system be designed to serve all people, not just the wealthy and powerful.
