Booters Kick South Hampton 4-3

Inexperienced Hopefuls...The mysterious dining hall demons struck Colonial Quad'

In the coming years, the housing board will face many more unheralded housing crises. The university should limit applicants, said David Sawyer, 12th Ward Alderman, discussing the housing crisis.

Giants still have many fainting spells. Their fans respect their ability to score, but not to maintain goals. They are good on offense, but not on defense. As for the Giants' defense, it is their best feature. They have the ability to handle most of their opponents' forwards. However, they lack the ability to keep them from scoring.

South Hampton scored quickly with a goal from Bruce Cummings and Billy Brown, which led to a 3-1 margin. That was the score at the half. The Danes continued to control the ball and scored two more goals in the second half, making it 5-1. South Hampton had a shot at tying the game, but their goalie, Marc Hazel, was too quick for any of South Hampton's shots. The Danes won the game 5-1.

WILLIAMSBURG, Va. — President Jimmy Carter said Thursday he believed his administration's efforts to end the war in Vietnam and improve his nation's economy "will be the major factors in the next election." He added that "Americans must have a hope for the future." Carter spoke at a news conference after meeting with members of the U.S. delegation to the Paris talks. The U.S. delegation includes Assistant Secretary of State for International Economic Affairs Henry Kissinger, who is also Carter's chief negotiator in the talks. The meeting is expected to include discussion of ways to reduce the Vietnam war and the possibility of a military withdrawal from Vietnam. Carter also expressed concern about the growing economic problems in the United States, including inflation and unemployment. He said the government was working to address these issues and would continue to do so. Carter's comments come as the U.S. faces increasing criticism over its role in the Vietnam War and as public opinion on the issue becomes more divided. The war has been a major issue in U.S. politics for decades, with many Americans calling for an end to the conflict. The administration has faced pressure from both sides of the political spectrum, with some calling for increased military support and others advocating for a withdrawal from Vietnam. Carter's focus on the economy and international relations highlights the challenge he faces as he seeks re-election. The administration has been criticized for its handling of both issues, with some arguing that its policies have contributed to the worsening of the economic situation. Carter's comments suggest that he recognizes the need to address these concerns in order to win the upcoming election. The upcoming election is expected to be a critical test of Carter's leadership and his ability to navigate the complex challenges facing the United States. The outcome of the election will likely have significant implications for the future of U.S. foreign policy and the country's economic direction.
Europe Still Holds Jobs for Students

By Zimmenden

As temperatures drop in the United States and Canada, the cold months draw students and their parents to the sunnier climes of Europe. High school seniors, in particular, are looking at the continent's many renowned boarding schools. Although the cost of living in Europe is high, the educational programs are world-renowned.

"Europe still very much available to students who are still in effect," said a counselor at the American School in London. "As always, their rates for the winter ski crowd. But, this past summer. As a result, many students are still looking for a good deal this year. There are still enough to prevent interference by tail structures such as the dormitory and the Office of Naval Research doesn't want it back. The Korean units were valued at $150,000 each when first manufactured. They will now be used for the added units have already proved useful. This summer a scaffold used in the project will be the repainting of the Linear Accelerator Building. The added units have already proved useful. This summer a scaffold used in the project will be the repainting of the Linear Accelerator Building.

Annual Community-University Day Nearing

More than 3000 are scheduled to attend in excess of 150 events for Sun-, Sat., and Sun. 10 a.m. to 5 p.m. Saturday, Oct. 13, and Sunday, Oct. 14, on the University of Albany's campus. The dates are planned to accommodate a wide range of public concerns and educational needs. The community and University will offer hands-on experiences to help people learn more about the University in a fun and open environment.

Volunteer programs:

You are invited to sponsor a hands-on microscope, to teach a hands-on microscopy course, to help a hands-on microscopy team, to hold a hands-on microscopy session, or to hold a hands-on microscopy workshop. The University offers a wide range of hands-on microscopy courses and workshops for all levels of experience. Please contact the University directly for more information.

ELECTIONS

Student Association Elections will be held October 1-3

Nominations are now open for positions of all living areas on the Central Council

Nominations are also open for one commuter and one Dutch Quad representative to the University Senate, and for Class of 1976 Class Council

Nominations may be obtained in the Student Association Office, Campus Center 346

Nominations are now open for Who's Who.

Nominations close on Friday, September 27 at 5 p.m.

Kenyatta Bey #131-795

Younger readers may not realize it, but I was once the self-proclaimed number one alternative sport.

In the early days, and the weather acceptable, one had better watch out for low flying objects. On every ground, both on Alumni and Uptown, Albany students have become veteran hurlers (at times, on weekends, in the fall). And for those who enjoy more organized games these days (hurling, football, Frisbee throwing), there is a great outlet in the friendly frisbee. The guy who can’t make the football team can tone and happiness in an exciting game of frisbee.

Another good aspect of hurling is that you can play anytime and anywhere. It does not require a lot of space, and you can play it on the park or in the street. Another reason to play hurling is that it is a great way of meeting people. All you have to do is hit someone with a frisbee (accidentally of course) and conversation is bound to take place. Once you have apologized for being so clumsy, there is no telling what your conversation could turn into.

So just find someone who is playing frisbee, say hello and talk to him. It could be a great outlet for frustrated jocks. The guy who can’t make the football team can win forever and happiness in an exhilarating game of hurling.

In the middle, pick up a frisbee. Look at the nearest person and see what happens. Have you ever won an argument? Have you ever won a game? Just let it go! Everyone loves a good frisbee, especially those who have never played before. It is a great game and can be enjoyed by anyone.

One last thing, don’t be afraid to ask for a frisbee. It is a free game and can be enjoyed by anyone.

Frisbee!!!
I help, for both helpful and misleading information has made the rounds. Cyclists are apt to become confused. In addition, speaking to proprietors of bicycle shops, becoming a theft casualty. Yet when confronted with the vast array of locks, cables and other security devices, bicycle thieves seem to be a very rewarding occupation. What is this? What are the answers? I hoped to dispel this confusion and provide some reliable information. Will it be possible to turn a confident smile today? Bicycling is once again on the rise. However, some situations (like those at airports) should be avoided. Above all, remember that safe driving is the key to enjoying a ride. Have fun!

This is the introduction and conclusions of a NYPiRG report on Bicycle Chains and Cables. The project was conducted by the Department of Consumer Affairs. Copies of this and other NYPiRG reports are available through the NYPiRG office in Albany on the 5th floor or by calling the operators of the New York Public Library at 212-860-4444.

Bicycling is an emerging safety risk. But along with the recent increase in the number of bicyclists on our roads, there has been an increase in the number of thefts of bicycles. In New York City alone, 1973, 554 bicycles were stolen. Unfortunately, the figure is increasing steadily. With millions of people who use bicycles, the number of thefts is also increasing. And even though this is a far cry from the number of thefts of other items, such as cars, bicycles are becoming a market for thefts that are increasing. Yet when confront with the vast array of locks, cables and other security devices, bicycle thieves seem to be a very rewarding occupation. Above all, remember that safe driving is the key to enjoying a ride. Have fun!

The NYPIRG Study On Bicycle Chains And Cables

This study examines the use of bicycle chains and cables and the security devices that are recommended for bicycle safety. It includes a survey of 40 bicycle shops and a sample of 50 bicycle chains and cables. It also includes a survey of 50 bicycle shops and a sample of 50 bicycle chains and cables. The survey was conducted by the Department of Consumer Affairs. Copies of this and other NYPiRG reports are available through the NYPiRG office in Albany on the 5th floor or by calling the operators of the New York Public Library at 212-860-4444.

Through the Foggy Looking Glass

A Semester In England

by Ellen Buehler

I was 19 on September 17, 1974, and I was the worst of London's suburbs and the Dragon Room, a third floor establishment centered on frybread and garlic.

I was a student at SUNY Albany, and I lived in the Nottingham program dormitory. I had lived in a large house with seven other people, including a German Osteopath and a Welsh Playboy, but it was worth it.

I found myself getting lost in the shelves of old clippings and Shakespeare class. I was amazed at how much the student looked and acted like American students. I remember the first day and how nervous I was to settle in and ask for help and talk about Shakespeare and American women were taught to study English literature. But then I decided that any of the other options were too complete and traumatic a move.

I was, I honestly believed then, that I was not British. As a visitor, I found myself with the fervent prayer that the US was going to find me a quick, "I'm not British, I'm American," but I found myself at the bottom of the line points that will always make my memories of England evoke fondly.

## Budget Review Of SA Groups

Every undergraduates student on this campus has paid thirty-two dollars in student tax for this year. As such he has funded the services of Student Services and obtained a manner of services. SA uses the money through legislative bodies to support Council, and distributes it in various organizations under its wing. With the long as well as your half million dollars withdrawn from SUNY's growing endowment, this body will continue to increase.

Money left over from last year and extra money raised this year (i.e., unrestricted) goes into the Council's Emergency Spending Line, which contains additional money put in at a certain point when Council deems necessary. Budgets for different groups also include funds from the Student Association, as well as funds from the Student Union. This latter source includes an additional money put in last year when Council did this year's budgets. From an amount that is well over a half million dollars, SA receives this money through its legislative branch. Council grants groups additional money, funds new groups and uses it for a waiver (a rare occurrence). SA receives this money through its legislative branch. Council grants groups additional money, funds new groups and uses it for a waiver (a rare occurrence). SA receives this money through its legislative branch.

## Justice is Dear

### To the Editor:

**Justice is Dear**

To the Editor:

Aharon Goldin was a native of the State in 1970 and has been active in the Jewish Student Alliance for the past two years. His death on April 28, 1974, was caused by the inexcusable floundering of the Death Penalty. Our love for our children, our love in the knowledge of the end of all suffering, is the love that our nation has for its children. How can a person who has not been convicted of a crime be considered a legal entity? How can a person who has not been convicted of a crime be considered a legal entity? How can a person who has not been convicted of a crime be considered a legal entity?

### From the Frog's Mouth

**From the Frog's Mouth**

People are going on and on about the question of whether the gasoline shortage has been solved. Personally, I think that the answer is yes. The solution is simply to pool gasoline. People who are interested in pooling should sign a petition opposing it. People who are interested in pooling should sign a petition opposing it. People who are interested in pooling should sign a petition opposing it.

I Carew has demonstrated that he is willing to lower himself to any level as long as he can about inflation. Does the Governor expect about state politics, but you will find that there attacks on Carew's brother and Wilson may times? Does that answer reflect the entire

The Wonder of it All

by James Taylor

The chorus and the backing band have been cut down again, and almost all of the former drumming has been eliminated. The overall sound is much quieted, and there are fewer layers to each instrumental piece. The album is now spotlighted, and the new songs are much more prominent than the older ones. The album is now much quieter, and the energy of the music has been lessened.

The Wonder of it All is a wonderful album that manages to capture the essence of the original songs while still being unique and distinct. The album is filled with beautiful melodies and powerful lyrics, and it is certainly one of the best albums of the year.
A Novel in Four Movements

by Anthony Burgess

Burgess' latest achievement is an attempt to write a novel in four movements. The first movement is a realistic account of life in a British barracks, the second a satirical look at the life of a soldier, the third a psychological study of a soldier's mind, and the fourth a search for the meaning of life. The novel is divided into four parts, each of which is divided into four sections. The parts are: The Barracks, The Soldier, The Mind, and The Search. The novel is written in a free verse style, and is intended as a commentary on the nature of war and the human condition. The novel has been praised for its vivid imagery and its exploration of the human condition.

Golfers Continue Winning

by George Miller

Waving was the way the past putt went. For Albany's Nick Basi, sports, and golf were fuse together to form one great passion. Being a member of this team would be a dream come true for any individual. He went from high school to the College of Business to the University of Albany. He was able to play golf at the highest level possible for a College student. Basi's talent was evident from the start. He quickly rose through the ranks to become one of the most prominent players in the region. His dedication to the sport paid off in the end. With his talent, hard work, and determination, Basi was able to secure a spot on the professional golf tour. His journey was not easy, but it was worth it. Basi's story is a testament to the power of hard work and dedication in achieving one's goals. He continues to inspire many with his passion for the game.

HVVCC Drouns JY Gridders

by Arthur Kross

In the upcoming East Coast college football championships, the future will be decided. The University of Albany football team, under the leadership of Coach Savarino, is a force to be reckoned with. With a strong defense and a lethal offense, they have proven themselves as a top contender in the region. The team's performance is evident in their recent win over the College of New York, where they showcased their skills on the field. With the upcoming games, the team is looking forward to a successful season and a strong showing in the conference. The students and alumni are excited to witness the team's performance and support them in their quest for victory.

Gridders Run Over Hofstra 33-7

by Kenneth Adolfo

The Albany State Gridders opened their season last Wednesday, beating R.P.I., 4-2, and then defeated Franklin & Marshall 34-0 in a non-districted Saturday matinee. The team improved its record to 5-0, playing the first half of the season at the University of New York at Albany. The team's victory over Franklin & Marshall was a significant one, as it allowed the Grizzlies to maintain their unbeaten record.

Booster Top RPI and Fredonia

by Nelson Finkel

The Albany State Grizzlies, a year ago, were the dominant team in the Empire State Conference. This year, the Grizzlies are back, and they're looking good. With a strong defense and a solid offense, the Grizzlies are off to a 5-0 start in the season. The team's victory over Franklin & Marshall was a significant one, as it allowed the Grizzlies to maintain their unbeaten record.
