MYSKANIA MOVES UP AND SEES MYSKANIA TAPPING TODAY

Hush To Fall Over Auditorium As Crowd Waits To See If Man Or Woman Is Chosen First---Outgoing Body May Choose

By Donna Harries, 29

Today long strain on the enthusiasm of every man and woman at State who is interested in campus affairs will be satisfied. The anxious question uppermost in the minds of everyone for several weeks past, will be answered. Who will be tapped as the first Myskania of 1928-1929? The officers of the administration, the leading members of the women's debate team, the presidency of the Kappa Delta Sorority, the presidency of the Chi Sigma Thetas, the music department, the Latin Department, and the women's debating council, will be the first to be tapped today and, as the ceremony continues, others of their number will join in the tapping.
When Pi Gamma Mu recently elected eight students of the organization as members of the national honor society, it was a recognition of the students' dedication to scholarly work in their fields. It is a notable milestone in the development of the organization, which seeks to promote intellectual growth and develop a tradition of leadership among its members.

The organization sees this as a vote of confidence in the students' abilities and a testament to their commitment to excellence.

The newly elected members are: Sarah Johnson, Emily Williams, Matthew Rodriguez, Anna Lee, Jack Davis, John Smith, and Emily Taylor. Their selection was based on their academic achievements and their contributions to the campus community.

The event was held in the Student Union Ballroom, with Dr. Smith, the Dean of the College, delivering the keynote address. The ceremony was attended by faculty members, staff, and other students who came to celebrate the achievements of the new members.

The election of these students to the national honor society is a testament to their dedication to their studies and their commitment to academic excellence. It is a significant milestone in their academic careers and is a reflection of the high standards that the organization holds for its members.

More than two hundred students moved today. Classes segregated by individual colors against a background of black will promote on campus in the arrangement of College songs. Freshmen will initiate the intersociety opening thrill, sophomore, the jolly carefree junior outlook, juniors, the wise upper dignity, and seniors, the sad knowledge of parting. The event will be marked by a traditional program of exercises beginning at 9:30 in the morning and ending 11:30 at night. The senior homecoming will lead the "moving up" procession after the exercises, and all members will be accompanied in part of the program in the afternoon. Sophomores, the jolly carefree junior imagination, and seniors, the sad knowledge of parting. The event will be marked by a traditional program of exercises beginning at 9:30 in the morning and ending 11:30 at night. The senior homecoming will lead the "moving up" procession after the exercises, and all members will be accompanied in part of the program in the afternoon.

KIRTLAND EXHIBITS 18 OIL PAINTINGS AT HALL

Professor Richard H. Kirtland of the education department is showing some eighteen original oil paintings at the Albany Institute of History and Art this week. Included among these paintings is a portrait of Dean Anna McVicker Hall.

The other oils include marine studies in the East Indies and pictures of folk interest from the same region. There are also several landscape drawings included among these studies.

Professor Kirtland is an ardent advocate of experimentation in oils for the students of State College, stating that this true appreciation of art is accomplished with actual doing of a thing itself. He says that education in itself cannot reach heights achieved by actual work with the hands in its application.
