VISITING MOTHERS WILL SEE PAGEANT

Newman, Y. W. and Menorah To Familiarize Mothers with College Life

DR. BRUBACHER TO SPEAK

MOTHERS' and DAUGHTERS' weekend will be April 30.

For the past two years a joint committee of the three religious clubs has inaugurated a Mothers and Daughters' Weekend. It was started in order to give the students an opportunity to show their mothers what college life is like.

This year the committee in charge are: Y. W. Alice Godding, '26; Newman Club, Marion O'Connor, '26; and Menorah Society, Ruby Herman, '26.

Plans for the weekend of April 30 include: a supper in the cafeteria Friday evening, followed by the Public Science pageant; Saturday, G. A. A. will hold May Festival of the Dramatics and Art association, each club will attend services at their respective churches, and in the afternoon, there will be a general assembly in college, at which Dr. Brubacher will speak.

Plans for the historical pageant which is to celebrate the anniversary of the setting of the Declaration of Independence, are progressing rapidly toward completion. Miss Alice Johansson and Bertha Zajan, '25, are training twenty-five girls in several different dances. Dancing classes include: Sallie Haggard, Ruth McNutt, Bertha Zajan, Melvina Grant, Anna Kaiman, Molly Kaiman, Annette Mathias, Evelyn Welde, Ruth Moore, Alma Ralle, Mildred Williams, Bertha Lane, Edna Smith, Ethel Curly, Margaret Stonestam, Lila Laedy, Eleanor Vail, Ruth Wheelock, Caroline Schleick, Helen Montgomery, Helen Davis, Mary Flannan, Betty Faison and Marcella Street.

QUALITY STREET TO CLOSE DRA MA SEASON

The last big event in the year's program of the Dramatics and Art association, which the association will present Agnes E. Flanner in dramatic reading of Sir James M. Barrie's "Quality Street," will take place at Church's hall, Wednesday, April 21, at 8:15 o'clock.

"Quality Street" is a quiet street in England where Poche and Susan, two gentle English aunts of uncertain age, make their home. Romance comes to the comedy old, followed by an understanding of beauty and friendship of course, reconciliation. This rather ordinary sounding sequence of events, however, is bound together by the inimitable Barrie charm.

Students will be admitted on student ticket reservation, reserved seats may be obtained for an extra charge of twenty-five cents.

WILL PUBLISH 'PED' WITHIN FEW WEEKS

The Pedagogie is expected to be distributed in about two weeks.

According to an interview with Morrie W. Channery, editor-in-chief of the newspaper, there are several unusual features of this year's edition; a new artistic section comprising approximately fifteen pages and a magazine page for each College organization and activity.

The cover has been ordered, and the page borders, designed by Alice Godding, '26, will be Green. The senior writers are the shortest and slappiest on this year's staff, and will be not under one line. Finally, the Ped will be unusually artistic this year because of the new colored ad borders.
MILDRED LANSLEY, '26.
The general committee are Gertrude Swett and Dr. Harry V. Wilson. The subscription rate is three dollars per year. Advertising rates may be had on application to the business manager.

The electric light, the electric iron, the vacuum cleaner—the use of electricity on the farm for pumping water, for milking, and for the cream separator—are helping to make life happier.

General Electric research and engineering have aided in making these conveniences possible.

A new series of G E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet G E 18.

On an East Indian farm, where the crop is tea, a wooden plow turns up the rich black soil. A woman drives, another woman pulls—and a black ox pulls beside her.

Six hours under a tropical sun, a bowl of cold rice—and six hours more. Then the woman goes to her bed of rushes, and the beast to his mud stall. Tomorrow will be the same.

The American home has many conveniences. But many American women often work as hard as their Oriental sisters. They toil at the washtub, they carry water, they churn by hand—all tasks which electricity can do for them at small cost, in half the time.

The labor-saving possibilities of electricity are constantly becoming more widely recognized. And the social significance of the release of the American woman from physical drudgery, through the increasing use of electricity in and about the home, will appeal instantly to every college man and woman.
