The Perfect Tribute

It is an overwhelming tradition that a college names its buildings after distinguished men and women. Such buildings are a shrine to the ideals of those who have contributed to a university, and the name of a building is a lasting tribute to the memory of its namesake. At this point in our history, the buildings already standing on the campus. Blended Hall, Hawley Hall, Draper Hall—all are named after prominent figures in the college's history.

This June will mark the completion of another permanent addition to the college. A new building will be erected for the students, guided and brought to completion by Miss Pierce and Dr. Brubacher. This building will be unique in its design and purpose, and will stand as a testament to the values they held most dear.
