Is Student Interest Decreasing In Extra-Curricular Activities!

It is a common complaint of the student body that extracurricular activities are decreasing in popularity. The question of whether student interest is decreasing in these activities has been brought to light in recent months. The reason for this decline is not clear, but it may be due to several factors.

One factor that is often cited is the increase in academic workload. Students today are required to take more courses and are expected to perform better academically. This leaves them with less time to devote to extracurricular activities.

Another factor that may be contributing to this trend is the emphasis on standardized testing and college admissions. Students are often counseled to focus on their academic performance, which can limit their involvement in activities that are not directly related to college admissions.

However, there are also those who argue that extracurricular activities are still important and should be encouraged. They believe that these activities provide valuable experiences that cannot be replicated in the classroom.

In the end, the question of whether student interest is decreasing in extracurricular activities is complex and multifaceted. It is likely that a combination of factors is at play, and more research is needed to fully understand the reasons behind this trend.

"Get a Lift with a Camel!"
The News Editor expressed it thus:

The President of the National Student Association, Kellogg, desired that the university have a stronger voice in the discussion of student affairs.

The university recognized this need and, in order to accommodate the students' wishes, the 1935 officers made it a point to provide more opportunities for student participation in university governance.

There are some who believe that this is a further step in the right direction. However, there are those who argue that the superficial aspects of student life have been emphasized at the expense of the deeper issues that constitute the essence of university life.

It is an opportunity for the bureau to stand on its own feet and reward those who truly deserve honors, such as the delightful student, Mr. Smith, who has been recognized for his exceptional contributions to the university community.

The bureau is trying to manifest its integrity and provide a platform for students to voice their opinions and participate in decision-making processes.

Senior and former Miss Lowerre (In her share of the bureau) has been a member of this student group, and now is working with the Superiors to include views of the immediate future.
BOOKS

THE MERRY QUEEN, by Pierre Nezelof (Liveright, $2.50). This book was written in 1932, but publication was held up so that it would not compete with Stephen Zweig's "Marie Antoinette," previously published tome on the same lady. Concerns the life of France's famous Queen, Marie Antoinette, and goes into detail. On the whole, Nezelof seems to be less sympathetic with the intriguing lady than Zweig. If you have read the first book, don't pass up "The Merry Queen" on account of it. The two books provide a nice contrast. Marie Antoinette is not an admirable or particularly charming person, but she is an interesting one. Worthwhile from a literary and historical point of view.

THE PEEL TRAIT, by Joseph C. Lincoln (Appleton-Century, $1.50). Joe Lincoln, the old maestro of Cape Cod characters, is at it again. Cyrenus Peel, old and horse-sense-ish, together with his children, Lettice, Erastus and Susan, form the characterizations for a salty, humanly-homely, smile-provoking book. Rec.

MOVIES

THE BARRETTS OF WIMPOLE STREET—A classic of the stage comes to the screen and, (miracle of miracles), loses nothing of its classic sentiment and touching beauty. The well known story of Robert Browning (Frederic March) and Elizabeth Barrett (Norma Shearer) and their love. (Charles Laughton, Maureen O'Sullivan)

ROMANCE IN THE RAIN—Hodge podge including the old Cinderella theme, a wise P.A. (publicity agent, to you), romance and music. Result is just about what you might expect. (Roger Pryor, Heather Angel)

RADIO

THE CAMEL CARAVAN—An elaborate musical and humorous revue featuring Walter O'Keefe as M.C., Annette Hanshaw, personality songstress, and the Casa Loma Orchestra (starred on last year's Camel Cigarette program). One of the most pretentious and entertaining programs on the air. Be sure and tune in. (WABC-CBS network, Tuesdays 10-10:36 PM, EST, Thursdays, 9-9:30 PM, EST. Re-Broadcast for western stations, 11:30-12 midnight, EST)

NEW PONTIAC PROGRAM puts "music in the air," Headlines Jane (how she can sing) Froman, "funny mans" Don McNeil, Frank Black's Orchestra and the Modern Choir (under direction of Emile Cote). NBC-WEAF network. (Sundays, 10:30 PM, EST)

RICHARD VOIGTLANDER '38, says: "Study­ing electrical engineering takes as much out of me as the hardest physical effort you'd put into an active outdoor sport. A Camel smoker, I find that with the most intense work, because Camels help me to keep up and still feel fine. I enjoy Camels until it's time, and they keep me up longer!"

You will like this delightful way of "turning on" your flow of energy. Whenever you feel "played out," try this convenient way of ironing out fatigue and increasing your energy: Light a Camel. Soon you will enjoy a definite "lift"...an upturn in energy...and in good spirits. Smoke Camels all you wish. Camels are made from finer, MORE EXPENSIVE TOBACCOS and never interfere with healthy nerves.

E:XPLORER: Capt. K. Stuart Murray, F.R.G.S., says: "It's great to be back! I was in Honduras—Mosqui­tia Territory—10 months. Fortunately I had plenty of Camels. They always give me a 'pick-up' in energy when I need it. I prefer Camel's flavor, they never upset my nerves."

SPORTS WRITER: Pat Robinson says: "I've been smoking Camels ever since they were put on the market. I find they erase that 'done in' feeling quickly and restore my 'pep. I smoke at least two packs of Camels a day and I am sure that they never upset my nerves."

BOOKS

GAY CRUSADER, by Magdalen King-Hall (Appleton-Century, $2.50). There are a few things in this book that might not be in the beat of today in a modern drawing room, but this is a story of the Middle Ages told as it seemed to the various characters, who are we to criticize at way people thought centuries ago?

Story concerns Sir Fulk de Lacy, his son Alain and their adventures on their way to and during a Crusade in the Holy Land. The whole book is a robust picture of the life of that time. Although it moves slowly at times, both from its leisurely plot development and the way in which the story is told, modern thoughts and ideas which crop up here and there lift it above the average.

PIRATE JUNK, by Clifford Johnson (Scribner's, $2.50). Day by day journal of the adventures of four officers of a British Merchant ship kidnapped by Chinese bandits. Written on anything handy, even cigarette papers, during the actual experiences described. "Truth is stranger than fiction."

MOVIES

ADVANCED ORGANIC CHEMISTRY, (Fredric March, Joan Bennett). Advanced Organic Chemistry is based on the novel by John Dos Passos, and was written by J. B. Thomas. It is a story of two brothers, one of whom is a chemist, and the other a professor of chemistry.

BOOKS

* A *Thesaurus of Slang*—compiled by Howard N. Rose (McMillan, $1.75). This is not exactly the reference book to use in writing themes for frosh English, but it's a "lalapalooza" (collegiate slang, according to the book, for "something out of the ordinary") for anyone who wishes to talk so no one can understand him, aspiring writers, editors and all students interested in the language of contemporary America. The book is divided into fifteen sections and the slang used by aviators, college students, detectives, hoboes, lumberjacks, New Englanders, newspapermen, oilmen, railroaders, sea fishermen, participants in sports of all kinds, actors, cowboys and soldiers is nicely tabulated and often plenty explanatory. In addition to being useful, it's good for laughs.

MOVIES

* Judge Priest*—Civil War South. Will Rogers philosophizing. Two sure-fire ingredients mixed with more attention to dialogue and characterization than is usual in Rogers' pictures. Result is highly amusing, highly pleasing. Good clean fun for the whole campus.

* The Last Gentleman*—Wheels within wheels, a picture within a picture—and George Arliss. An old eccentric's son tries to have him proved mentally incompetent by an alienist because he dotes on a few minor things such as a collection of clocks and stuffed peacocks. The old man (Arliss, of course) takes his son's perversity to heart and goes into a decline. Instead of a deathbed scene, the old gentleman speaks his last will and testament on the screen through the medium of a homemade talking picture, makes his bequests and gives various members of the family a piece of his mind. (Charlotte—Alice in Wonderland—Henry; Donald Meek).

ASTRONOMY

* Stars and Nebulae.* Are incandescent bodies—The stars are generally spherical. The only way to determine the motion of a heavenly body is to compare its position at two different epochs.
The mythical giant of the northwest, Paul Bunyan, hung in the Badger institution's student Memorial Union building. The murals are depicted in this series of murals executed by James Watrous, University of Wisconsin (Madison) graduate student, as a CWU art project. They portray several of the more interesting incidents in the life of the owner of the Blue Ox.

"Even the greatest writers are supposed to find writing a hard task, and if you ever have to cut any writing you know how hard it is to meet the needs of, who ever again to please. How in trying to do this," says Douglas E. Jones '36, Majoring in English. "I just get all worked up if heavy physical labor. When I feel played out I smoke a Camel. Camels give me a real snapback in energy. They are so mild that I can smoke all I want without upsetting my nerves."

"You, too, will like Camel. I smoke a Camel a lot, and never have any trouble," says the reader's own. Don't be afraid to try Camels, you will find that steady smoking does not upset the system."

BOOKS

A TROUBLE OF SORROW
by Patricia O'Meara

The first thing about this book that impresses the reader is its "Anthony Adverse" size... 949 pages. The reviewer opened the tome with visions of an increased electric light bill more than anything else. Twenty pages (dr. w. a deep breath), forty (light a pipe), sixty (settle down). Who cares about electric light bills? Tros, of the Greek Island of Samothrace, a physical and mental superman, dares to challenge Caesar, the greatest Roman of them all! The battle between the two men, as far apart as the poles in ideals and temperament, and the battle between the Britons and Romans, even farther apart than the distance between the two countries, makes Tros of Samothrace a book to be read. Take a week, a month or a year—and enjoy yourself!

THE FOLKS
by Ruth Suckow

Not "the great American novel" the publishers blurb it to be, but a grand one nevertheless, Midwestern setting. Family life and what becomes of the children. Probably will be enjoyed most by older people, but sales will go up and up!

MOVIES

THE COUNT OF MONTE CRISTO—You know the story. Has been done before, will be again. Robert Donat not particularly convincing until he begins to grow long hair and a beard. Then . . .

BRITISH AGENT—Hollywood's idea that all moom pitchurs must have a happy ending spoiled one that might have been grand if everything had gone BOOM at the psychological moment. As is, British Agent, though too slowly paced to suit some tastes, is a thrilling picturization of Russia at the time England was attempting to keep her from making a separate peace with Germany. Leslie Howard, Kay Francis.
