FOOTLIGHTSTOUR NOT ONLY WORKERS IN STUDENT PLAYS

While only fifteen persons will turn the stage tonight and tomorrow when the elementary drama classes present these six one-act plays, several other students will be doing equally important work, according to Miss Agnes F. Paine, director, of the dramas.

Placement of the plays is the most important work of the course, Miss Paine said. Students have been put into the principal roles of the ten dramas.

Tickets will be sold at the door of the auditorium for fifty cents each.

TO OUST NON-PAYERS FROM THEIR OFFICES

Holders of student cards who have not paid their tuition will be asked to leave the student body as of Monday, according to Miss Paine.

Twenty-five in the new class will pay $25 per semester, which is the full fee.

WILL EVALUATE CLUBS AND HONOR SOCIETIES

Providing for the scholarship department, the college students will make a comprehensive evaluation of the student clubs and honor societies. As a part of a series of discussions on student activities, Miss Helen M. Phillips, instructor in English, English language, and philosophy, will direct the first discussion meeting, Monday afternoon in Room 107 in the new auditorium.

What constitutes active club membership will be discussed at the meeting, according to Miss Cooper.

"Whoopie" RIVALRY CAUSE OF MURDER?

"Mother's" And Smith's Tavern Figures in Testimony At Tepedino Trial

This is one of a series of special articles, made possible by the generosity of Mr. and Mrs. Robert W. Smith, to be published in The College News on the occasion of the Tepedino trial.

Quarrels over a girl known as "Whoopie" have been the reason for half the fights in the community, according to present testimony.

Geoffrey Oglethorpe Van Tyne, 7th year吃完, was a witness for the prosecution that there had been a long rivalry between Tepedino and Wallwork.

The third party of the alleged love triangle is repeated to be Miss "Whoopie" Jones.

Mr. Van Tyne, who went around with Tepedino gave the following testimony:

"Whoopie at Tavern

A. Yes, the right Tepedino asked Wallwork to go with him to see the fight and he was ill. Tepedino and I went in Tavern to see the fight. There was no trouble.

We went in and Wallwork and Tepedino were there. When we entered we heard Wallwork and Tepedino were fighting Whoopie.

Q. Was Tepedino drunk?

A. Yes, he was with red

Q. What happened when Tepedino was drunk?

A. Tepedino threatened Wallwork.

Tepedino Threatens Wallwork

A. He asked Whoopie to dance, but she said that he did not dance. Tepedino became angry and began to hit Whoopie. We saw this, and Tepedino ran back at the wall and kicked Whoopie in the face. We ran out and gave the police a kick. We ran out and gave the police a kick.

We ran out and gave the police a kick.

According to testimony given to the police, by Margaret S. Workers and Wallace Stiever, who met on Market street called "Whoopie."
Visitors Score First

The visitors took the lead at the start when they scored from the field after about a minute of play. Shortly after Carr entered the game he was called for a foul giving the visitors a 2-point lead at the 67.5 mark. It didn't last long as Kearsley tied the score once more. Nothing more was scored from that point and the first half was over.

The second half saw the visitors take the lead again for a minute. Shortly after that the visitors were tied up with the ball. The game was close for nearly all of the first half.

SULLIVAN IS ELECTED CHEMISTRY CLUB HEAD

Robert J. Sullivan, '29, was elected president of the Chemistry club Tuesday, to succeed Thomas P. Fallon, '29, who appears to be in poor shape.

SULLIVAN IS HEAD OF KAPPA PHI KAPPA

Robert J. Sullivan, '29, president of the Kappa Phi Kappa fraternity, will give his talk, "The French in the Near East," for the first time since it was elected.

The meeting Wednesday night was for the distribution of possible candidates for initiation into the chapter. Plans will be made for an initiation dinner, at which Dr. Frank P. Lipton, chancellor of the University of the State of New York, will be the principal speaker of the evening.

The second team played the last two minutes of the first half and held a 15-10 lead at the interruption. In the second half the first team returned to the court and enlarged its oppositions all the way through until the final minute for an afternoon game.

GUARD WORK TOGETHER

One thing good about the boys' work was the playing spirit in which the two halves were played together. Herbert and Whalen are as smooth partners as there are in the club and were a help to the chemists in the last few years. Lou Klein took the lead of the opposition in the game. In the first few minutes he was knocked off his feet a couple of times, and Duane also missed the way he shivered into the wall who had feet and was out of his head. Play went on for a minute or more of the second period until the chemists settled his condition.

Boulevard Milk

Produced and distributed under ideal conditions. Teachers particularly and the public generally welcomed at all times.
