Danes Stun Ithaca 111-94

by Mike Piekarski
The Albany State junior varsity basketball team went down in flames Tuesday night as the Engineers destroyed the Pups by a score of 111-94. It was a true test.

The Engineers have been keeping an eye on the Pups, probably the biggest single reason being Mike Sauers. An award-winning director of motion pictures, Sauers is a master at conjuring up a scene. With 14 minutes left in the first half, he was able to bring the crowd to its feet with a three point shot. The spectators were thunderstruck. Sauers had proven himself a master of the dramatic when the Danes line four warriors in front of Kevin Keane who is assigned the job of stopping him. The Danes have been just tremendous as far as shooting accuracy is concerned, and I feel that they are capable of playing fundamental basketball.

The Danes five four-warriors in front of Kevin Keane who is assigned the job of stopping him. The Danes have been just tremendous as far as shooting accuracy is concerned, and I feel that they are capable of playing fundamental basketball.

**State Travel Club Presents $59 to Florida**

Renaissance NYC - Cityplace, Fri., Mar. 24, Sat., Apr. 1
Debut accommodations as low as $83 per person
Call for reservations 417-4999 or 405-6452

**Antophylloids**

Antoophylloids is a new drug that helps prevent hospital-acquired infections. It works by inhibiting the growth of bacteria and fungi. The drug is being tested in clinical trials and is expected to be approved by the FDA in the next few years.

---

**ANTHROPOLOGY**

Ndanoze: A New Democratic Alliance (NDA) was formed recently in South Africa. The alliance brings together several opposition parties and seeks to promote democratic principles and social justice. Its leaders have called for an end to apartheid and the establishment of a fair and democratic society.

---

**ANNUAL MEETING**

The annual meeting of the American Psychological Association will be held in Chicago this year. The conference features a wide range of sessions and workshops on various topics in psychology. It is expected to attract thousands of participants from around the world.

---

**ARCHITECTURAL**

Three new buildings are being constructed on campus, each designed by renowned architects. The buildings include a new student center, a research facility, and a performing arts center. They are expected to enhance the educational and cultural experiences of students.

---

**ARTS AND CULTURE**

A new play, "The Other Side of the River," will be premiered at the local theater. The play explores themes of identity and belonging and is based on true events. It is directed by a celebrated theater director and stars an all-star cast.

---

**BUSINESS**

A new startup company, Green Energy Solutions, has been formed to develop renewable energy technologies. The company aims to provide sustainable energy solutions to homes and businesses, reducing reliance on fossil fuels.

---

**CIVIL RIGHTS**

The Supreme Court will hear arguments in a case involving the rights of transgender individuals. The case seeks to establish a legal framework for protecting transgender individuals from discrimination in employment, housing, and public accommodations.

---

**EDUCATION**

A new program, "Pathways to Success," is being implemented in local schools to support students from low-income backgrounds. The program provides academic support, counseling, and other resources to help students graduate from high school and pursue higher education.

---

**ENVIRONMENT**

A new initiative, "Green Campus," is being launched to promote sustainable practices on college campuses. The initiative aims to reduce carbon emissions, conserve resources, and enhance the overall sustainability of educational institutions.

---

**HEALTH**

A new study has found that regular exercise can significantly improve mental health outcomes in individuals with depression. The study, conducted at a major university, involved a large sample of participants and is being hailed as a significant advancement in mental health research.

---

**HISTORY**

A new book, "The Great Depression: A Global History," offers a comprehensive overview of the economic crisis that lasted from the 1920s to the 1940s. The book is praised for its interdisciplinary approach and detailed analysis of the historical context and causes of the depression.

---

**INTERNATIONAL**

The UN Security Council has imposed new sanctions on North Korea in response to its nuclear testing. The sanctions include a ban on arms exports and travel restrictions on North Korean officials. They are aimed at preventing North Korea from developing nuclear weapons and missiles.

---

**SPORTS**

The local football team, the Starlings, is making a strong showing in the league this season. They have won several games and are currently ranked third in the division.

---

**TECHNOLOGY**

A new app, "SmartHome," has been developed to help homeowners monitor and control their home appliances remotely. The app is praised for its user-friendly interface and comprehensive features.

---

**TRAVEL**

A new travel guidebook, "The Best of Europe," offers a comprehensive overview of Europe's top tourist destinations. The guidebook includes detailed information on attractions, accommodations, and transportation options.

---

**WORLD AFFAIRS**

The United Nations is hosting a special conference to address global climate change. The conference aims to promote international cooperation and the development of sustainable solutions to reduce carbon emissions and address the impacts of climate change.

---

**YOUTH**

A new youth program, "Empowerment Hub," is being launched to support the development of young people. The program offers mentorship, academic support, and skills-building opportunities to help young people achieve their goals and thrive in their communities.

---

**ZOOLOGY**

A new species of bird, the "Glowing Parrot," has been discovered in the rainforests of Southeast Asia. The bird is unique in its ability to emit bioluminescent light, which is believed to play a role in attracting mates and deterring predators.

Second Field May Be Key in Gloomy Job Market

by Beverly Hewes

The job outlook for this year's college graduates is generally not promising. "In 1975, just 45 per cent of graduates were employed, compared to 70 per cent in 1974," reported Dr. Peter Lapinski, Assistant Dean of SUNYA's Placement Office. "We're just kidding ourselves...we in education must recognize that it is our duty to provide our students with marketable skills." The non-educational fields are the only ones in which students can find work.

The gloomy predictions came from four sessions of SUNYA's annual meeting of the Association of Student Affairs. "I think it's a real challenge to the liberal arts today," said Dr. John H. Brown, Assistant Dean of Student Affairs. "The job outlook for this year's graduates is a bit gloomy." Dr. Brown pointed out that SUNYA's administrators are already working on this problem. "We're preparing our students for the job market," he said.

Just what can a student do besides job hunting? Dr. Lapinski offered the following advice: "Students should know about the trend is toward more business-oriented fields. They should study the fields and prepare themselves for them.""The job market is not as gloomy as you think. There are still jobs available, but they require more education and training. So students should consider taking additional courses or going to graduate school. They should also consider alternative careers, such as teaching or social work."

Career opportunities exist abroad. "There is a growing need for people with a good command of at least one foreign language," Dr. Lapinski said. "This is because more and more people are now traveling to other countries."

Students must have a 3.45 grade point average, "on applicants," Dr. Lapinski pointed out. "Not only are jobs hard to come by these days, but they are often difficult to obtain. Students must have a strong academic background to be competitive."

SUNYA is "producing more graduates than ever before," Dr. Lapinski said. "We have more students coming to our campus this year than ever before. This is because of SUNYA's strong liberal arts program." The job market is not as gloomy as you think. There are still jobs available, but they require more education and training. So students should consider taking additional courses or going to graduate school. They should also consider alternative careers, such as teaching or social work.

Not only are jobs hard to come by these days, but they are often difficult to obtain. Students must have a strong academic background to be competitive. second party personal checks, not state, FSA, or company payroll checks. In addition, the policy would ban payroll checks from the items negotiable at the window. The new policy will only ban checks drawn on the institution and not drawn on a financial institution. The policy begins on February fourteenth, rather than on the fourth as was originally reported.

In the midst of the budget crunch, organized athletics is taking it firmly on the chin. Two years ago, the Board of Directors voted to cut the AAB, as it was considered unnecessary by the corporate powers that be. This decision was made in the name of saving money, but it has had a devastating effect on the athletes, who have lost their main source of funding.

Errado

It was a beautiful winter day and I was out skiing with some friends. The air was crisp and the mountain was covered in fresh snow. We were all excited to get on the slopes and have some fun.

I skied with my friend, and we both enjoyed the day. We were both intermediate skiers, and we had a great time. We were able to ski down some of the groomed slopes, and we even tried out some of the more challenging terrain.

The mountain was quite busy, but we were able to find some quiet spots to ski. We even found a small cabin where we could take a break and warm up. We enjoyed a cup of hot cocoa and some snacks while we talked about our day and our plans for the next one.

The day ended with a delicious meal at a nearby restaurant. We were both tired but happy after a long day on the slopes. We couldn't wait to do it all again tomorrow.
Signatures in Stone

The ancient Greeks often placed their gravestones and temples in beautiful locations. For example, the Temple of Athena on Aegina, and the Temple of Poseidon at Cape Sunium will serve as a testament to the beauty of ancient architecture. The Sanctuary of Apollo at Delphi, the Temple of Artemis at Ephesus, and the Temple of Olympian Zeus in Athens are other examples of the beauty of ancient architecture.

Historians often describe Sunium not as beautiful but as sinister and threatening:

"The seamen now in wild amazement see
Moss cover'd on the lofty cape are plac'd.
There, swan-like, let me sing and die.

Music Appreciation for the Tone Deaf

by Myron E. Copland

Many people who consider themselves tone deaf are surprised to discover that music itself is not necessarily the problem. It is often the case that people who believe they cannot sing or play a musical instrument are actually capable of doing so with some training. The key is to find the right approach to learning music.

By the time he was 10, Myron Copland had learned how to play the piano and was composing his own music. He continued to study music throughout his life, and his compositions are still performed today.

Music is not simply that way.

However, a majority of symphonic musicianship and experience before music is not simply that way.

The first, and highest, plane of hearing is the musical plane. This includes the ability to hear the melody, harmonies, and rhythm of a piece of music. The second plane of listening is the emotional plane. This involves the ability to understand the emotional content of a piece of music. The third plane of listening is the cognitive plane. This involves the ability to understand the intellectual or logical content of a piece of music.

It is a refreshing surprise to see how many people can recognize a familiar tune when they hear it. This is true even for those who claim to be "tone deaf." As Myron Copland was able to demonstrate, anyone can recognize music if they only give it a chance.

In fact, very often people who claim to be "tone deaf" are simply not listening carefully enough. Listening, however, is not just passive hearing. It is facilitated by mental processes, and in order to understand music, one must be able to think about it.

Plymouth Days

Steckle's place won't be immortalized in the U.S. Though it is being produced by George Marcroft for NBC, the show will almost definitely slip into obscurity. For one thing, the price tag is too high. Like The Ritz, their name is big and history, three generations and interesting. Like T. Rex, they have this rehatatious sound for it. But not. RCA hit quite musical cheap for the AB. The all-inclusive plot features Steckle's major elimination to be a great one. (It's in the form of WGM NASA. And like T. Rex, Steckle's often called to cancel some dates, or opening acts or a few other fill-ins.

All tie, we're not to say that Steckle is steep as inclusion of Beulah's evolution. In fact, Buch's was already only. They possess a flexible musical style that moves in many ways. Steckle's name is in the mix. RCA hit for the songs of Steckle's own group, the 1970s. A promising coin is Steckle's current market and it is a risky option, definitely his fate.

Though most of the songs are cornered S M MOIRA, this one is off the hook. The best of these is something that's been hold in the air a while as a fairly young, with no special dual called "Boy, Bye, Love." The song performed by Eric Clapton and George Harrison alone.

This can lead to speculation—what should Steckle's Charley and Steckle's great stuff! Many produce that Buchs have enhanced the other men who could be allowed. This is Steckle's golden string to be a hard

---

Mellow Jazz Explores New Areas

by Pete Lassie

Just what a workshop! The second of vertical run had provided a welcome change of pace from the second week of the jazz concert series. The regular series and movie program were on offer for those content with Steckle's musical performance. For the first time, the Colony Quad Party with special drinks for under a dollar offered a true value from an additional audiovisual and artistically oriented way to enjoy "American Gothic" on the one hand. Though there were different interests, there existed a high level of excitement on both sides. The jazz concert held last Tuesday at 7 P.M. in the Center Cafe.

The Faculty Quartet, performing in a simple repertoire of simple tunes, was impressive. The large audience of John Grice, Harold, Bob Miller, and the like, "sing along" to a wide variety of his music. "Good Diggers" and "Jazz Nurse" are two of his most popular compositions. The organist, guitar, and saxophone portions of his performance were particularly effective.

"A SINGULAR TRIUMPH THAT BURNS INTO THE MEMORY."
Talent Brews

Godfather II Top Notes

By Nancy McNamara

Robin and Linda Williams will be appearing at the Freeze-Dried Coffeehouse this weekend.

Robin and Linda Williams have been described as a musical unit with an unbreakable combination in sound and style, and their concert at Freeze-Dried Coffeehouse will be a treat for their many fans. The duo is well-known for their unique blend of vocal harmonies and acoustic guitaristry, making their performances memorable.

Besides their talents as vocalists and guitarists, Robin and Linda have a reputation for their engaging stage presence and interaction with the audience. Their performances are not just听music but a true experience for the audience.

One of the highlights of their performance will be a special appearance by M. James, a local poet with a gift for words. M. James will be reading his work, which is complemented by the music of Robin and Linda. The combination of poetry and music is sure to create a memorable night.

If you're a fan of acoustic music or haven't had the chance to experience Robin and Linda Williams, this is the perfect opportunity. With their engaging presence and captivating music, it's sure to be a night to remember.
Native People are taking legal action. Their legal actions are based on the fundamental premise that the United States government has a trust responsibility to Native People. This trust responsibility is enshrined in federal law and is grounded in the principles of the Constitution. The government has a duty to respect and protect the rights of Native People, including their right to self-determination and self-governance.

Native People’s relationships with the land are deeply rooted in their culture and history. The land is not just a physical resource but a spiritual and cultural foundation. This relationship is reflected in the treaties that were made between Native People and the U.S. government. These treaties were intended to establish a lasting relationship between the two parties, based on mutual respect and understanding.

Unfortunately, these treaties have not always been honored. The government has often disregarded the rights and sovereignty of Native People, leading to a history of conflict and displacement. Despite these challenges, Native People have continued to work towards self-determination and the restoration of their lands.

This is the most difficult thing for most people to accept. Why can’t you? In 1924 your government passed a law making all Native People citizens of this nation, whether they were born on or off the reservation. But the majority of Native People do not accept this status. It was a forced assimilation policy, but for those who sought this status it was a gesture, but for those who were not able to accept it.

This is the question of sovereignty. It is a question of whether Native People have the right to determine their own destiny and shape their own future. The government has a duty to respect these separations. The United States government has a responsibility to honor the treaties it has made with Native People.

The question of sovereignty is of prime importance in understanding the contemporary Native American situation. Indians are of our own nations and of our own lands.

Treaties are Sacred agreements made between sovereign nations and are upheld by the constitution. Do those individuals and groups...

LOST&FOUND
T. Jed—

Black Cat with green eyes wants a
but you're one hell of a diverll

SUNYA coed found dead in dorm.

You may not be much of a skier,
but you're one hell of a diverll

You got what you wanted—againl
You're a clastic. Happy 3 monthsl

Manuscript Typing Service 869-5225.

T. Jed—

Celebrate My 19th Birthday,
To My Friends Who Helped Me
Don't pin me down cause life's

This pallid Breast,
but tome kids never grow
IS NOT a long time.

Susan,

You may not be much of a skier,
but you're one hell of a diverll

You're a clastic. Happy 3 monthsl

Manuscript Typing Service 869-5225.

Trevett Stars As Danes Win

by Nathan Salant

Spurred by a scintillating second half performance by Gary Trevett (6 points, 5 passing and 3 passing), and the shrewd booking of Mike Suprunowicz (20, 12 from the field, and 12 from the free-throw line), the Danes pounded the Geneseo Blue Knights, 64-60, to improve their record to 10-5, 7-1 in the State University of New York Athletic Conference.

The game was fought in the confines of the spacious Union gymnasium, where the Danes recorded their second straight win, and came from behind to overtake the Geneseo Blue Knights, 64-60, as the Danes’ streak of games improved to 10-5, 7-1 in the SUNYAC. The Danes were in a close game in the first half, trailing by three points, but came back in the second half to take the lead and hold on for the win.

Trevett led the Danes with 20 points, while Suprunowicz chipped in with 18, as the Danes shot 15/28, to outscore the Geneseo Blue Knights 12-25.

With the opening of the second half, the Knights went on a 13-point run, tying the game at 6-6, but the Danes came back to take the lead at 13-12, and held on to win 64-60.

Trevett led the Danes with 20 points, while Suprunowicz chipped in with 18, as the Danes shot 15/28, to outscore the Geneseo Blue Knights 12-25.
