COMMUNICATIONS

Tenure Question

To the Editor:

During the last school year the University as a whole decided to eliminate twoubber students in the face of serious misconduct and moral weakness, although the University's actions may be seen as entirely justified. As a result, Dr. Tucker was denied tenure. The decision was made on the basis of the University's tenure regulations.

The University's decision to take action against Dr. Tucker was supported by a significant majority of the faculty. The five-year moratorium on tenure decisions was lifted, and the decision to deny tenure was made after careful review of the evidence presented.

In conclusion, we urge the University to reconsider its decision and grant Dr. Tucker tenure, thereby upholding the principles of academic freedom and the importance of tenure for the future of higher education.

Sincerely,

Robert WI

Environment Issues: Stanford

The University's interest in environmental issues was manifested at the first Environmental Policy Conference held in 1969. President Enright and a group of students were present at the conference, which was held at the Stanford Research Institute.

The conference was organized by the Department of Environmental Sciences and Technology, and it was attended by representatives from government agencies, industry, and academia. The conference was well-attended, with over 200 participants in attendance.

In conclusion, the conference was a success, and it is hoped that it will serve as a model for future environmental conferences.

Sincerely,

Robert WI

**PYE organizes, aimed at action**

By Barry Bechler

"Environment is a hot button in this year's political campaign," a PYE student predicted as the club members met on Tuesday evening to discuss ways to improve the environment. The PYE club, said Steve McIlhany, a PYE organizer, "is in the process now of organizing a teach-in to combat the problem of environmental awareness in the University." 

**FREE UNIVERSITY**

The Free University will be at the Student Lounge at 7:30 p.m. on February 13. All students interested in the Free University are invited to attend at 8:00 p.m. in the Center. All material and action ideas will be discussed at the meeting. All interested students are encouraged to attend.

---

**HOLLYWOOD, FLORIDA**

By Richard Gersh, Staff Writer

The Department of Mathematics and Physics at the University of Hollywood will again participate in the International Mathematics Olympiad. The team will be composed of three students selected from the University's mathematics department.

**ROGER RINAM, student, Alfred Rubinson, lower left, and Donald McNaght, lower right, address the socio-political evening of the Albany PYE club Thursday night.**

**Computerized Data Bank to be put into operation**

**WASHINGTON, D.C.**

The Army will soon put into operation a computerized data bank that will be capable of providing its PEO-CMA, Joint Service dumps, and Army dumps with the electronic computerized data bank which will be used for the Army's data processing system.

**RECRUITMENT**

James Love and Kenneth Morse, members of the Army's recruiting staff, will be available to discuss the importance of recruiting. They will be at the Career Center on Tuesday, February 10, from 2:00 p.m. to 5:00 p.m. They will also be available on Wednesday, February 11, from 2:00 p.m. to 5:00 p.m.

**FORGET THE POT, BABY, WE'VE GOT THE KUFA**

And we've got the Phal, and Beer, and Peanut Snack. The red flag. Our cook was in deep doo-doo when he was using his kickin' back in Budgal. Now he's just a short, no-brain's dish from the campus in Central Avenue. Just past Route 155. Look for the big Beef Kebob. And Persian Snow.
Asian students visit Albany on a tour of United States

The College of General Studies of the City of New York has scheduled a tour of United States for its students in the spring. This will be the first time that the College will send a group of students on a tour of the United States. The tour will include visits to several of the major cities of the United States, including New York City, Chicago, and San Francisco. The students will be able to see the sights and sounds of the United States and learn more about its culture and history. The tour will run for 12 weeks. The fee is $40.
Common Sense

by Penny Silverman

The public is not always aware of the policies and institutions that govern their lives. The University Legal Council, therefore, is not without an agenda, and those who support their decisions should be concerned. There are those who would defend this organization, and others who would argue against its actions. Those who argue against the University Legal Council believe that the organization is not following a policy of accountability and the need for transparency in its activities. They argue that the organization is not acting in the best interests of the community and that its actions are not in accordance with the principles of fairness and justice.

We would like to extend our congratulations to the University Legal Council on its recent decision to authorize the search of student dormitories. This action is not only legally justifiable but also necessary for the establishment of a safe and secure university environment. We believe that the University Legal Council has acted responsibly and in the best interests of the community.

Our Responsibility

Purchasing through the campus store means that we support the local economy. This is an important aspect of our responsibility to the community. We should be aware of the impact of our purchases and make choices that benefit the local economy.

Advisory Note

The words "objectivity" and "subjectivity" are often used interchangeably. However, they have different meanings. Objectivity refers to the ability to make judgments based on facts and evidence, while subjectivity refers to the ability to make judgments based on personal opinions and experiences. Understanding the difference between these two concepts is important for making informed decisions.

Richie Havens Climaxes "Son of a Weekend"

by Linda Nieset

The set was designed to look like a folk festival, with handmade signs and bunting decorating the stage. The band included Richie Havens, who was accompanied by a group of folk singers and musicians. The audience was enthusiastic, and the performance was a success.

"Son of a Weekend" was released in 1973, and it became a hit for Richie Havens. The album features a mix of folk and rock music, with Havens' distinctive voice and guitar playing at the center of the sound. The album was produced by Criteria Productions, and it features guest appearances by artists such as Leon Russell and John Lennon.

The album received mixed reviews from critics, with some praising the music and others criticizing the production. However, it was a commercial success, peaking at #58 on the Billboard 200 chart and #4 on the Billboard Folk chart.

Richie Havens went on to have a successful career as a folk musician, releasing several albums and touring extensively. He is remembered as a key figure in the folk music scene of the 1960s and 1970s, and his music continues to be celebrated today.

One beer that's ten feet tall

The premium hops that give Genesee Beer its real beer flavor actually grow ten feet above the rich earth of the great Northwest. They ripen in that bright sunshine and then they're picked and sorted and selected so that only the best are ever brought East to round out the flavor of Genesee Beer.

We travel thousands of miles across the country—and ten feet up in the air—to make Genesee a little more exciting than any other beer. Try one today.

We do everything to bring you better beer
