Danes Split Vacation Pair

Fall to Hartwick, Uproot Hamilton, 91-83; Cavanaugh Scores 36 in Season Finale

by Mike Plants

The University's women's basketball team was finding it tough to stay on top. Last Thursday, the Danettes split their final meet with Canisus (101, 20 points) and Hamilton (91, 83 points), each after leading early but trailing for most of the season here never having basketball team was fighting for its Division III NCAA Tournament bid, Hartwick (ranked number one in the country, including: Cornell, Albany, Hamilton, and Hamilton).

While most of the university population was ready to welcome winter weather, the Albany Danettes split their season on a high note. The Danettes split their final meet with Canisus (101, 20 points) and Hamilton (91, 83 points), each after leading early but trailing for most of the season here never having basketball team was fighting for its Division III NCAA Tournament bid, Hartwick (ranked number one in the country, including: Cornell, Albany, Hamilton, and Hamilton).

The Danettes completed their season here never having basketball team was fighting for its Division III NCAA Tournament bid, Hartwick (ranked number one in the country, including: Cornell, Albany, Hamilton, and Hamilton).

The Danettes completed their season here never having basketball team was fighting for its Division III NCAA Tournament bid, Hartwick (ranked number one in the country, including: Cornell, Albany, Hamilton, and Hamilton).

A three-pointer by Albany guard was the deciding factor in the team's victory over Hamilton. The Danettes led 39-36 at halftime and extended their lead to 46-39 in the second half.

Hamilton center Barry Cavanaugh in the first half, but the Danettes took control in the second half. Albany led 11-7, but the Danettes went on a 10-0 run to take over.

In the second half, the Danettes went on a 13-2 run to take the lead for good. Albany led 46-39 at halftime and 59-51 at the end of the third quarter.

School Records Stir Controversy

ALBANY, N.Y. (AP) — The state Education Department and the SUNY campus in Albany have agreed to settle a lawsuit over the release of student records.

The agreement was reached Thursday afternoon and is expected to end the legal battle between the two agencies.

The lawsuit was filed by former SUNY Albany student Richard Goldstein in 1975, alleging that the university was violating his privacy rights by releasing his academic records without his consent.

Under the terms of the settlement, the university will pay Goldstein $75,000 and agree to adopt new regulations to protect the confidentiality of student records.

The university also agreed to establish a new office to handle student records requests and to provide training for staff members.

The settlement is subject to approval by a federal judge.

— AP

Erratum

The AP regrets printing incorrectly that the Front-Page Headlines Anonymity was reference to a party in the New York Times for “Thursday morning” (14 Mar. 1976). It was actually “Thursday evening.”

According to The P.A.N., the political budget must have been in error because, despite President Ford’s announcement, the House Republicans did not meet the next day as scheduled.

The actual statement made by President Ford was: “This government has spent more money on welfare than any other government in history.”

Unfortunately, this statement was not accurate, as President Ford later admitted.

Quality you can trust...

Texas Instruments electronic calculators. More math power for your money.

You need math power, no matter what your major. And TI proves more math power at your fingertips:

- **TI-1200** and TI-1250, real quality in low-cost scientifics with replaceable batteries.
- **TI-2550**—a versatile scientific with memory.
- **TI-1500**—great looks, great versatility. TI’s most powerful calculator...it’s rechargable.

Why TI calculators are quick and easy.

All TI calculators are designed around an algebraic entry system. This allows you to key in a problem just as you would state it...in the same natural manner in which you think. No system is easier to master.

Special functions keys include square root, square, reciprocal, raised a fractional number to a power, trigonometric functions and inverse, standard deviation, factorials, permutations, combinations, and 9 key memory locations. In short, a TI calculator makes the solution of even the most complicated problems easy.

Ideal for your college math courses, TI calculators are found in labs, classrooms and libraries from elementary to graduate level.

**TI-1200 and TI-1250**

The TI-1200 gives you performance par excellence. It has a standard scientific key layout, an automatic constant memory and can store up to 5000 data points. It is easy to use, powerful, and capable of handling a wide variety of problems.

**TI-2550**

A versatile scientific with memory. This eight-function, eight-digit portable adds, subtracts, multiplies, divides, automatically subtracts 1 from the memory at power off, and stores up to 999 entries. A lighted alphanumeric display makes it easy to see. The TI-2550 is lightweight and portable and will be a welcome addition to your student life.

**TI-1500**

Great looks, great versatility. TI’s most powerful calculator...it’s rechargeable. A sturdy, portable unit that you can use anywhere. It’s powerful enough to handle the most complicated problems. It has a display that is easy to read and easy to use.

**TI-1620**

A versatile scientific with memory. This eight-function, eight-digit portable adds, subtracts, multiplies, divides, automatically subtracts 1 from the memory at power off, and stores up to 999 entries. A lighted alphanumeric display makes it easy to see. The TI-2550 is lightweight and portable and will be a welcome addition to your student life.

**SR-50A and SR-51A**

Slide rule calculators. The SR-50A performs all classical slide-rule calculations—roots, powers, reciprocals, factorials, common and natural logarithms and their inverses—a whole class of advanced calculators impossible to fit into a calculator.

The SR-51A is the most advanced and the most powerful scientific calculator available. It includes all the features of the SR-50A plus additional scientific functions. It can perform all the classical slide rule calculations of the SR-50A plus the ability to do complex calculations in any of the 8 fields of science—chemistry, physics, engineering, astronomy, mathematics, statistics, algebra and calculus. It includes all the features of the SR-50A plus additional scientific functions. It can perform all the classical slide rule calculations of the SR-50A plus the ability to do complex calculations in any of the 8 fields of science—chemistry, physics, engineering, astronomy, mathematics, statistics, algebra and calculus.

JACK FLASH IS COMING

What's In A Date?
by Robert M. Barrett
WASHINGTON, D.C. (Liberty Lobby News Service) - A year ago today, he was shot in the head. Today, he's alive and well in Albany, the Capitol of New York State, where he has worked for the last 12 years as a state trooper. The case is one of the most significant in the history of law enforcement in New York State. The defendant, a state trooper, is charged with murder in the second degree, a crime that carries a maximum sentence of 25 years to life in prison.

The trial is set to begin today in Albany Supreme Court. The state trooper is represented by two well-known attorneys, one of whom is a former prosecutor. The case is expected to last several months.

The trial is being held in a secure building next to the New York State Capitol. The defendant is granted a $5 million bail.

OFFICIAL STATEMENT
(issued by the New York State Department of Law Enforcement)

The defendant, who was arrested last year for the murder of a 15-year-old boy, was acquitted yesterday by a jury of his peers.

The defendant was charged with murder in the first degree, a crime that carries a maximum sentence of life imprisonment.

The jury deliberated for four hours before reaching its verdict.

The defendant was arrested after a four-day manhunt. He was captured on March 17, 1976, in the town of New York, where he had been hiding since the day of the murder.

The victim, a 15-year-old boy, was killed with a single gunshot wound to the head.

The case is one of the most significant in the history of law enforcement in New York State.

**Sauers’ Streak Extended**

**Danes Post 12-11 Rollercoaster Record; Mark 21st Consecutive Winning Season**

by Mike Patmon

"We've never experienced anything like this," exclaimed Richard Sauers, "It's the best year we've ever had!" Sauers leads the Danes to their 12th consecutive winning season. "We've had two seasons of 13 wins and one of 12," he said. "But this..." Sauers continued. "This season has been the best of all. Our team is playing well together. We're playing as a unit. No matter who is swimming, we're all doing our best.

**Swimmers 7th in N.Y. State Meet**

The Albany State varsity swim team performed a great job and routine in matching speeds in season's best and sending the soundest season's best to the state's best. "We've been swimming as a team," said Sauers. "We're swimming well together. We're swimming as a unit. No matter who is swimming, we're all doing our best.

**Kuhn: Camps Open Soon**

by Ralph Bennett

"If we ever get over to the lake, we'll be surprised," said Richard Sauers. "We've never had a lake this big before." Sauers leads the Danes to their 12th consecutive winning season. "We've had two seasons of 13 wins and one of 12," he said. "But this..." Sauers continued. "This season has been the best of all. Our team is playing well together. We're playing as a unit. No matter who is swimming, we're all doing our best.

**With Honors**

Richard Sauers, Albany varsity basketball coach, drives and hits into two-pointer in last week's home game against Iroquois. Sauers, too, began to make his presence known on the court, as a unit. No matter who is swimming, we're all doing our best.

**Kuhn: 'We're not really sure what a winter is'**

"We're not really sure what a winter is," said Richard Sauers. "It's the best year we've ever had!" Sauers leads the Danes to their 12th consecutive winning season. "We're not really sure what a winter is," said Richard Sauers. "It's the best year we've ever had!" Sauers leads the Danes to their 12th consecutive winning season. "We've had two seasons of 13 wins and one of 12," he said. "But this..." Sauers continued. "This season has been the best of all. Our team is playing well together. We're playing as a unit. No matter who is swimming, we're all doing our best.

**With Honors**

Richard Sauers, Albany varsity basketball coach, drives and hits into two-pointer in last week's home game against Iroquois. Sauers, too, began to make his presence known on the court, as a unit. No matter who is swimming, we're all doing our best.
**Thursday**

Students rushing up steps of the Capitol

SA Poll:
The following questions were asked of students during the last election. Results follow:

1) I prefer a system of plus/minus grading to our present system.
   - 716 students responded
     - 416 (58.2%) said yes
     - 360 (50.7%) said no
     - 68 (9.5%) said it doesn’t matter

2) Would you prefer just plusses to our present grading system.
   - 707 students responded
     - 417 (58.8%) said yes
     - 210 (29.7%) said no
     - 81 (11.4%) said it doesn’t matter

3) Mohawk Campus is approximately 100 acres of land on the Mohawk River. Is it owned by SUNY and has an estimated value of $500,000. If an on-campus recreational structure could be constructed with funds obtained from the sale of Mohawk Campus would you be in favor of such a move?
   - 727 students responded
     - 237 (35.4%) said yes
     - 379 (52.9%) said no
     - 81 (11.4%) said it doesn’t matter

Help!

To keep this paper coming out, help is needed. If you can help, as a proofreader, typist, writer, or perform any other useful function, come up to the S.A. office, or call John Lafayette at 7-4042.
