1063. This was the year State set a record in scores for their team in 21 consecutive games. The Fighting Scots scored more than 100 points in each of these games. The Fighting Scots won 18 of these games, lost 2, and tied 1.

1064. Our record that fall was five wins and three losses. And the team won the championship of the state, defeating the opposing team by just a touchdown.

The Fighting Scots were the dominant team in the state that year. They played well and demonstrated their skills on the field. The team was composed of skilled players who knew how to work together as a team.

The Fighting Scots celebrated their victory in the championship game with a parade and a street celebration. The city was decorated with banners and flags, and the team was honored with a parade of floats and marching bands.

The Fighting Scots continued to dominate the state the next year, winning all of their games and setting a new record in scores. They won 22 consecutive games and set a new record in scores for their team in 21 consecutive games.

The Fighting Scots were crowned champions of the state once again, and the team was celebrated with a parade and a street celebration. The city was decorated with banners and flags, and the team was honored with a parade of floats and marching bands.

The Fighting Scots dominated the state for several years, setting records in scores and winning consecutive games. The team was composed of skilled players who knew how to work together as a team.

New Blood...  

The opportunity exists now for our leaders in student government to serve as leaders in our entire system of government. It is the beginning of a new semester and of a revised system of government, and the beginning of the college careers of the largest freshman class to-date.

This drive for interest should begin with this Class of 1960. Blarney, it is an exciting time, and enthusiasm runs high within the class for its college. We should protect the interest of our resource from exploitation. It is not fitting to permit it to deteriorate. It must be steadily maintained in order to interest our neighbors. It is not for us that we do not have the interest. It is for us that the opportunity has not been given. We cannot give the opportunity to people with potential leaders, persons whom have not been taught how to deal with one another. Yet, we overlook these uninitiated in favor of the stand bys. It can not be said that these individuals have not done good jobs, because generally there is a substantial surplus of leadership. However, it is not their ability that limits us, it is our failure to see new ideas and new innovations. The ability to create interest. Let us give ourselves more people for the election of large, aspirational. Large, aspirational. Large, aspirational.

The responsibilities to find and draw out these people lies with every one of us. Let us act upon this challenge now, and let no one be said that ability and interest exist.

THE Profession...  

What is a teacher? First of all a teacher is a member of a profession which is dedicated to the education of the minds of the youth of our nation. A teacher is one who is capable of giving their students the wisdom that they cannot themselves obtain. A teacher is one who is able to teach their students to think for themselves. A teacher is one who is able to teach their students to understand and respect each other. A teacher is one who is able to teach their students to live with one another. A teacher is one who is able to teach their students to love each other.

As chairman of the Nominations...  

We at State know as little about our sister and brother colleges as we do about our own. Hence, each and every student at State should participate in the Nominations Council:

Communications...  

To the Editor:  

Dear Editor:  

I am writing to express my concern about the lack of communication within the student body. I believe that it is important for students to be able to communicate with one another in order to foster a sense of community. However, I have noticed that there is a lack of communication among students, which has led to a lack of involvement in campus activities. I would like to suggest that we create a system of communication that encourages students to interact with one another. I believe that this would be beneficial to the overall health of the student body.

Please consider this suggestion and let me know if you have any comments or suggestions of your own.

Sincerely,

John Smith
