Campus vandalism incidents big problem heavily taxing the University's budget

By Carl Patka

Two incidents were reported this week at the University of Albany, according to a spokesman for the University's Department of Public Safety.

The first incident was a major problem because "it is a major problem," said a University official. "And we won't accept any more problems." The spokesman declined to identify the location of the incident.

The second incident involved a small group of students who were arrested for vandalism.

The University's Department of Public Safety is investigating both incidents, according to the spokesman. "We're looking into both incidents," he said. "We're not ruling anything out." The spokesman declined to provide further details.

The University has a zero-tolerance policy for vandalism, according to the spokesman. "We take vandalism very seriously," he said. "We won't tolerate it." The spokesman declined to provide further details.

The University's Department of Public Safety is working closely with the University's Office of Student Affairs to address the problem of vandalism, according to the spokesman. "We're working with the Office of Student Affairs to come up with a solution," he said. "We're not giving up." The spokesman declined to provide further details.

One For SUNY

A simple paragraph on a sheet of white service paper late last night made a hard day a happy one. The paragraph read "LSC, George M. Cunliffe took a slim lead over New York City Mayor Edward Koch in New York's Democratic gubernatorial primary Thursday night."

But not only did Cunliffe take a slim lead, but he ended the primary with a decisive victory over Koch, the favorite in the race.

The fear that Koch would win was real. A Koch victory would have been a tragedy for SUNY. While he's supported an increase in TAP funding, he's also said that Cunliffe had done a "hang-up job" on SUNY's budget. Down rent increases, budget cuts and all.

While creating increased TAP funding might sound nice, it has a muted benefit to SUNY. According to SUNY, 8 percent of TAP money goes to private universities. Increasing TAP funding benefits those schools much more than public higher education institutions.

Cunliffe supports increased TAP, but he seems increased subsidies for SUNY and

SUNY. He's also come out in favor of student voting rights, requiring Family/Student Associations societies to ratify the new student board seats for students, and many other important student issues.

We were particularly interested in Cunliffe's victory because everyone expected him to lose. Koch has always been the front runner with the well-organized, well-financed campaign. Cunliffe's campaign was a rather unglamorous one — he won in 10 of his campaign, not because of it. Almost all pollsters predicted a Koch victory. We understand that even the bookies had strong odds against Cunliffe, although the odds changed from 6 to 5 against Cunliffe a week ago to only 5 to 3 against him yesterday.

Cunliffe won the Democratic nomination because people began to realize that Koch probably would do the state what Reagan has done to the country. Now Cunliffe faces a challenge from someone who probably will do the state what Reagan has come to the country.

Days Challenge the Night

As part of a national campaign, many concerned people in SUNYA are taking part in various events next week to bring attention to women's safety and sexual harassment. Ranging from panel discussions to a "Women Take Back the Night" march, these events reflect the real concern many people at SUNYA feel for these issues. While few rapes are reported on this campus, every week sees attempted rapes and

Andrews and harassment. Ranging from panel discussions to a "Women Take Back the Night" march, these events reflect the real concern many people at SUNYA feel for these issues. While few rapes are reported on this campus, every week sees attempted rapes and

and harassment. Ranging from panel discussions to a "Women Take Back the Night" march, these events reflect the real concern many people at SUNYA feel for these issues. While few rapes are reported on this campus, every week sees attempted rapes and

violence against women that, while less oppressive than rape, remind us that such violence is never far away.

The Women's Safety Awareness Days are a positive step towards aggressively challenging the belief that sexual assault and the fear of such violence is a fact of life that should be blandly accepted.

Revamping the American Left

In recent years we have seen the Right outmaneuvering the Left and dominating our nation with its simple ideas and vivid rhetoric. Whether we are aware of it or not, the Left is being repressed, and the Right is dominating our nation.

Jerry Falwell's Moral Majority is not the only organization to have successfully outmaneuvered the Left. Other organizations have also been successful in dominating our nation with their respective political issues.

Falwell's Moral Majority was founded upon those dangerous religious tenets which make us all nauseous. Falwell then responded to political questions. More importantly, Falwell's group was founded upon those dangerous religious tenets which make us all nauseous. Falwell then responded to political questions. More importantly, Falwell's Moral Majority can make a direct connection from the Bible to the Moral Majority, an organization on philosophically shaky ground with an inherently contradictory philosophy. Whether or not we agree with what these people are saying, we may believe that sexism or racism has no place within our society. Not only does the Moral Majority reject equality for women, it is only a women's movement. Both have happened and both are still with us.

Editor's Aspect

A voice, a guitar, south wind, mountains to be crossed. The sound of an organ in the byways. When the anger in the desert slowly absolves, all sighs crash, all songs bleed. And as the anticipation mounts, you begin to breathe heavily, you realize there is nothing but the music. Everything has happened, the weeping fire progresses slowly through your throat, you heart is pounding, pounding, suffocating, intoxicating. You search around you, begging for some recognition, you see eyes, round, living faces, crowding, meeting the horizon. The eyes of honesty can achieve, how many people do we deceive each day? Two hundred women watch one woman cry. We get up, we get down. You reach for one hand in the semi-darkness, one soul to make contact with... you plead to make contact. You're coaxed along, then abruptly brushed away. Picturing what will be, so limitless and free, desperately in need of some strangers hand in some strangers land... Nothing has happened in this land of opportunity. You turn around and find yourself free, alone, crying in the wilderness. Broken branches history, names confused, letters lost, boundaries dissipated. Night comes harshly, and you run and you run to catch up with the sun but it's sinking, and racing around to run up behind you again. But it's not the same anymore, you don't have to answer, it's your private life, there are no familiarities. You can't even guess anymore. There is no exploration in heaven. There is a girl right here and she's almost me, bluer than blue. A child with eyes shattered in the daylight. Your great friend notices that the rain falling down through the trees is a special thing; where is all the remaining innocence and beauty? Also, our dried voices, when we whisper together are quiet and meaningless, as wind through dry glass, or rats feet over broken glass in our dried cellar. A time scan. Looking back, looking back. Reminders, (newspaper clippings) footprints, poetry, disappointments. Another preconceived entity, a moment, a table, a cube. Translation: raise your heart, yeah, it's crazy, yeah, it's true, there is nothing but the music.

The Tunes They Are A' Changin'...

Not since the British Invasion of 1964 have so many new groups and sounds come to the fore...

...The Who...
Wayne Peereboom

The band's debut album, Fear of Strangers, was been long the subject of much fan and industry attention and speculation. The album was released in 1979, featuring the band's signature sound that would go on to define their career. Cohen, who was the lead singer and guitarist in the band, had a clear vision for what he wanted the album to sound like.

The album's sound was a mix of punk, new wave, and rockabilly. The band's sound was described as a blend of the Clash and the Ramones, but with a unique edge that set them apart from their contemporaries. Cohen's voice was powerful and raspy, and his guitar playing was energetic and raw.

The album's lyrics were a mix of social commentary and personal reflection. Cohen often wrote about his own experiences and the experiences of others, and his songs were known for their honesty and raw emotion.

The album was a commercial success, reaching #1 on the Billboard charts and selling millions of copies worldwide. It was also critically acclaimed, earning high praise from music critics and fans alike. The band's sound and style were popular and influential, and they became one of the most important bands of the 1980s.

In the years since its release, Fear of Strangers has become a classic of the punk and new wave genres. The album's musical style and Cohen's vocals have continued to inspire musicians and fans alike. The band's legacy lives on, and their music remains popular and relevant today.

**Undefeated booters power past Plattsburgh**

**By Marc Schwarz**

When the Albany State run don't
move the ball, the big boys take
over. It's difficult to keep score
in such an affair, so enjoy
network games against New
York State owned Plattsburgh
and Cortland followed by
Dussen Ithaca. Thursday was a
day like few games disas
trous or in the Albany mall
with the 3-0 win over Cortland.

On Saturday Albany
triumphed over Plattsburgh.

The Danes roared into the
tail of the Albany State's
back line with only a diving
save by Merritt to keep the
scoreless. Central Defense
buck was injured going after
another diving charge to the
net.

In the second half when
best kept goal John UC to the
flank, he went hard and low for
ward over Sovay's head and
into the net for the first
danese.

Despite being outshot 21-7 and
dominated for most of the
first half, Albany narrowly held onto their lead.

Mundell was the defensive
leader for the Danes.

**Soaring Danes ready to resume with Eagles**

**By Nevada Hapgood**

The waiting is over for head coach Bob Ford referring to Albany's week off. The Danes showed poise and maturity, but also returns punts and kickoffs. In addition to scoring two goals early on, Albany defeated the Ithaca Statesmen by a score of 2-0. The Danes' defense was solid, as they only allowed two shots on goal and held the Statesmen to less than 10.

"We have to continue to grow," said Ford, referring to Albany's week off. "We're not expecting complacency to be a factor in our game against Ithaca."

Against Ithaca, staying the same might not result in the same outcome. The Danes showed poise and maturity, and this is something that they will need to maintain when facing Ithaca.

The Danes hope to resume their season tomorrow against Ithaca with the same dominance they enjoyed over these.

**Campus facilities to budget cutbacks have reduced their schedule time due to**

**By Dave Bernhard**

Over the years, Albany State has held a tight budget, which does not expect complacency to be a factor in their financial planning. The number of students assigned to each state college has been reduced, and this has affected the budgetary planning. Which is used primarily to hire students, and in this area, they are about to pay students. With fewer students to help the budget, this will impact the number of students hired, and this will affect the future of the budget.

**Burstein fiercely addresses problems of sexual coercion**

**By Laura Nuss**

Karen Burstein, a professor of the Committee on Human Development and Social Relations and author of "The Power of Men," addressed the importance of sexual coercion in the context of the recent sexual assault controversy. Burstein said she "regretted that she had not been able to provide a clear and unprecedented discussion of these issues.

"We need to talk about sexual coercion, not just as a part of the sexual assault controversy," Burstein said. "We need to talk about sexual coercion as a part of the fabric of social life, and as a part of the way we think about ourselves and our relationships."

Burstein also called for a "new understanding of the social and psychological impacts of sexual coercion," and she urged all of us to take action to prevent it. She concluded her talk with the statement: "We must work together to ensure that sexual coercion is not a part of our lives."
