Japanese Finds Reading Problem, Skidmore Plans
Friendliness, In Educational Search New Laboratory

To Harold Soutrude, State Child
in a mongrel manner, this week is
better than the Hardee's in New York, where he
stayed for two weeks and had to
stand in line at the counter to get a
milk shake.

In the case of the young boy in
the Bronx, the problem is much
more serious. He finds that his
reading is not nearly as good as it
should be, and that he must work
harder to keep up with the other
boys in his class.

Skidmore, on the other hand, is
planning to start a new laboratory
in educational psychology. This
laboratory will be equipped with
the latest equipment, including
computers, and will be staffed by
a team of experienced psychologists.

Brunbacher Bar Turns Tavern

"Come in," boomed the man whom
students call "Mr. Nice Guy,"
who is the owner of the Brunbacher
Bar. "This is a fine place to relax,"
he said, "and we want to make

Anarchy Forever

To the Editor:

It is about this time each year that students of the college and the union become interested in the theme of the upcoming election. This year it is the theme of the ‘police force’ that is being emphasized by the union. The idea is that the union, as a body, should act as ‘a police force’ to protect the rights of the students and to prevent the violation of any rules. However, this idea is not new. In the past, the union has tried to act as a police force, but it has failed to do so. The problem is that the union is not able to enforce the rules that it has made. The union is not able to do this because it is not able to act as a police force. The union is not able to act as a police force because it is not able to enforce the rules that it has made. The union is not able to enforce the rules that it has made because it is not able to enforce the rules that it has made. The union is not able to enforce the rules that it has made because it is not able to enforce the rules that it has made.

No. 24

THE CLAM
