Insinuating?

We hesitate to call the student body a bunch of nosy individuals, but rather a part of our student body, one of whom we happened to see at 2 p.m. Thursday.

Those 30 students were outside one of the residence halls, and no doubt some of them were talking about someone else. No comment needed. The story about the incident that occurred last week, involving some students and a faculty member, involved no nosy individuals; it was a story of law enforcement. The students were simply doing their duty. No comment needed.

Who's Aware?

Reading the News this week we've undoubtedly noticed a problem. This year we've noticed an increase in the number of students who aren't aware of what's going on. This is a problem because it's important to know what's going on. In fact, it's important to know what's going on.

This week we requested activities sheets from about 600 students. We'd like to believe that these sheets were sent out to all students. This is important because it's important to know what's going on.

This year's campaigning seems aimed toward the student who never picks up his student mail, never reads the News or other publications. This is a problem because it's important to know what's going on.

GOES AND GOES AND GOES ON A GALLON!

CHEVY'S NEW HI-THRIFT 6

More miles are back in a gallon of regular-grade gasoline than in any regular-grade 6-cylinder engine that there is. It also offers you more "go" in the speed you drive the most.

Here's a engine that always gets more out of a tank of regular-grade gas. In fact, if you're one of those drivers who have a lot of "spare time" to relieve your worries, you'll be happy for this new Hi-Thrift 6 to keep up to 15% more miles a gallon.

Another thing you'll like about this '59 is its extra pep it gives you for passing and climbing hills. This is due to higher compression which is boosted to 8:1 in the speed you drive the most.

Get your regular-grade gasoline at your nearest station and get all the extra pep you can get out of it the same way you get it out of your Chevy's new Hi-Thrift 6 engine.
