Walks Prove Fatal in Batmen Loss

by Mike Kaplan

The Engineers knocked off 13-12 in the first game of their doubleheader Saturday afternoon. Albany was too much for the Engineers in the second game, losing 9-5.

The Engineers opened the game with a home run in the top of the first inning. They added three more runs in the second inning, making it 4-0. Albany finally got on the board in the bottom of the second inning with a solo home run by Joe Panzerelli. The Engineers responded with a three-run homer in the top of the third inning, giving them a 7-1 lead. Albany scored two runs in the bottom of the third inning, making it 7-3. The Engineers added another run in the top of the fourth inning, giving them an 8-3 lead. Albany scored two more runs in the bottom of the fourth inning, making it 8-5. The Engineers responded with a two-run homer in the top of the fifth inning, giving them a 10-7 lead. Albany scored two more runs in the bottom of the fifth inning, making it 10-9. The Engineers added two more runs in the top of the sixth inning, giving them a 12-9 lead. Albany scored two more runs in the bottom of the sixth inning, making it 12-11. The Engineers added the final run in the top of the seventh inning, giving them a 13-11 lead. Albany was unable to score in the bottom of the seventh inning, giving the Engineers the win.

The Engineers were led offensively by Bronwen Mulligan, who went 2-for-4 at the plate with two runs scored and two RBIs. Nick Johnson was the starting pitcher for the Engineers. He went six innings, allowing six runs on nine hits, with five strikeouts.

Albany was led offensively by Joe Panzerelli, who went 2-for-3 at the plate with a home run, two RBIs, and a run scored. Bob Johnson was the starting pitcher for Albany. He went five innings, allowing seven runs on eight hits, with three strikeouts.

The Engineers won the game 13-11. The next game against the Engineers is scheduled for Sunday afternoon.

RESTORED BOULEVARD CAFETERIA TO REOPEN SOON

by Paul Francola

The Boulevard Cafeteria closed last year after operating seven days a week, twenty-four hours a day for 36 years. The Boulevard was the place to go for SUNYA students for a quick lunch, a meeting place for faculty and students, and a place for students to hang out and do their work. The cafeteria offered everything from coffee and pastries to full meals. The only thing missing from the Boulevard was a sign.

Recently, SUNYA Administration officials have been working with local business owners and the public to bring back the Boulevard Cafeteria. The plan is to reopen the Boulevard as soon as possible.

The Boulevard will be a center for SUNYA students and faculty. It will offer a variety of food options, meeting spaces, and a place for students to study. The Boulevard will also have a new look, with modern decor and updated equipment.

The Boulevard will be open for breakfast, lunch, and dinner. It will be open seven days a week, twenty-four hours a day.

The Boulevard will be under the management of a local restaurant chain. The chain has a proven track record of success in the industry.

The Boulevard is expected to attract a large number of customers. The location is convenient for SUNYA students and faculty, and the variety of food options will be sure to please everyone.

The Boulevard is expected to open in the next few weeks. Stay tuned for more updates on the restoration of the Boulevard Cafeteria.

There has been some debate within Student Association in recent weeks about whether the $185,000 loan money returned to SA from FSA (Faculty-Student Advisory Board) should be used to support intercollegiate sports by AAB (Athletic Advisory Board). The money originally came from the AAB surplus.

Over the past few years Central Council has regularly approved giving S7.25 out of every $10 in student fees to SA, to be distributed among the various student groups as they see fit. Recently, some members of the AAB have suggested that since it comes from the student fee, it should be spent on intercollegiate sports by AAB. They reason that since it comes from the student fee, it should be directed to the area of student interest, i.e., athletics.

The FSA loan money adds a dimension to the issue that makes it imperative that the Executive Council analyze it carefully. The $185,000 loan money was invested in various ways over the years, the bulk being loaned out to FSA (Faculty-Student Advisory Board). Now that SA has recalled some of the money out of FSA, it is clear that the money could be affected by the economic downturn of the nation.

The Executive Council has been divided in its view of whether or not the S185,000 loan money should be returned to FSA. Some members believe that it would be better to spend the money on anything but AAB. They reason that since it comes from the student fee, it should be directed to the area of student interest, i.e., athletics.

Once in a While
It All Meant Something

by Richard Nordwind

M
cally, I remember laughing.
The memory may be false, but
I was there. The last time back at
my friend's house and something known, talking about where
I was going when I don't know how, I
shook something from the air and
smelled it, what would now seem
wrong and many will frown at, but
that was 1974. At the time, I thought
I could do anything. Even shed the
unlightedness of being young.

It was only during my junior year in
high school that I realized the graph
of my life was not a straight line.
I had been an only child for most of my life, and
a well-adjusted, well-adjusted and
very average one. I have come to
realize that this was not the case.

I had a story, and I was not the only
one. Richard Nordwind's story, and
my story were frustrating, sometimes exhilarating,
tours of life which we felt were
ending. Four years here (two on the
campus), and about the only
thing we can say is goodbye.

APRIL 22, 1975
These are people of color bursting forth. They are dark like the African. They are red-haired and pale-skinned as the Irish. They show the creaminess of the Southern European.

Yet they are unified. Latinos United, sponsored by Fuerza Latina here this weekend, carried this message: the Spanish-speaking people shall bloom together.

The skit tells of Juan, Miguel, Milagros, Olga, and Manuel. They have died in trying to become Americanized. And so, says the narrator, "They died dead. They were born dead." Yet they rise once more to warn those that come after, that to be Puerto Rican should not have meant shame, but beauty; pride, not exploitation. The equality of the grave, they say, was meant also for life.

"Aqui", says Juan, "you salute your own flag first." "Aqui", says Miguel, "there are no Dial soap commercials. Everybody smells good." It is wrong, says Milagros, to accept a mechanized pace which is not one's nature: "TV dinners do not have a future."

"Aqui!" says Olga. "The men and women admire desire, and never get tired of each other." "Aqui!" says Manuel. "'Que pasa power' is what's happening, let's be called Negro (dark) is to be called love!" "Puerto Rico," they say, "is the place you should be—even if you are not there."

The Latin lands were there that afternoon before, during, and after Pedro Pietri's Puerto Rican Obituary, a theater group from SUNY at Binghamton called "Sentido" (feeling). They performed Saturday afternoon in the PAC, as part of the Teatro Horiken Activities.

The Latin lands were there that afternoon however, during Teatro Boriken. They were in the 14 different performances given in words and song which expressed the talents, desires, and pains of the people present.

The performers sang of a need to drive the capitalist exploiters from their land. The audience of about one hundred supported vehemently. "Long live Puerto Rico—free and socialist!" was the final cry, in Spanish, from protest group Sangre Joven. "Que viva!" echoed back, with the strength of many voices sharing cultural growth in one.
Very Little Time Left

by Alan D. Abbey

They had very little time left together. He had to go. Somewhere. It didn’t really matter . . .

She kept on worrying about something other than the way she worried about him. She was bored. He was lost. She didn’t know why. She couldn’t think about him. She couldn’t think about anything.

One day they began a project they had been working on together. When it was completed, they were both happy. They were both happy. They were both happy.

But it was a mirthless laugh, and it didn’t hurt so much. Those facts didn’t console. It was the moist, fecund earth of the ground under their feet. It was the moist, fecund earth of the ground under their feet.

When it started raining, the mountain valley as they ran, hand in hand, was left behind. Her hand gripped his tightly as they laid it there. It lay there, a half-grin, half-cry, in each other’s arms.

They both knew they weren’t localized people, ever after, and that millions of people on earth were much worse off. Those facts didn’t console. It just hurt so much.

As the sun sank behind the mountains in a burst of fire they headed back down the trail. He guessed at his watch; it had stopped sometime during the day.

“What time is it?” she asked.

“Time is money,” he replied.

Her laughter echoed through the mountain in a burst of fire they headed back down the trail. He guessed at his watch; it had stopped sometime during the day.

“Time is money,” he replied.

Disneyland... Oh, Disneyland

by Gary Adamson

Sure, I have heard things about Southern California—scary stories about the smog, the sprawl, the monotony of endless tract houses, the length of freeways, the world's largest Disneyland, the enormous clean-up crew, the disinterested defense of cleanliness and good taste.

One thing, however, had never been clear to me. I had never known, somehow, with what kind of legal sanctionit would be that morning last summer as I entered the turnstiles of the Anaheim terminal, considering the last time I actually had seen my own home town, that long night on a Greyhound. Tossed my Anaheim terminal, considering the...
Big Brother is Knocking on the Door

by Richard Pfeffer

As the clackerboard and sweet sounds of the F.R.I. and C.I.A. are coming to light, I want to make a point: the need for a government that is concerned with the welfare of all people and not just those in power. It is precisely the F.R.I. and C.I.A. who are responsible for the many injustices that are being committed. They have succeeded in concealing the truth from the American public, and it is imperative that we must take action to prevent this from happening again.

The severity of the situation is evident from the actions of these organizations. They have been successful in manipulating the public through propaganda and misinformation. They have used this to control the minds of the people, and it is essential that we are aware of their tactics.

In conclusion, it is crucial that we demand accountability from the F.R.I. and C.I.A. and hold them responsible for their actions. We must not allow these organizations to continue their destructive activities without a proper response. It is time for us to stand up against these entities and demand change.

Women Question Tradition

In ‘Home to Ourselves’

by Kyle Nisler

‘The girls become wives and mothers.’ Millions of girls have encountered these roles in the process of growing up and have never thought to question them. Here, in ‘Home to Ourselves’, the traditional roles are questioned and reevaluated.

The production was well-received, with strong performances from the cast. The female parts were played with conviction and emotion, and the audience was left feeling moved and inspired.

The Women’s Center, Inc., which organized the production, stated, ‘We believe that women have the right to redefine and reevaluate the traditional roles that are expected of them. It is time for our society to challenge these expectations and promote a more inclusive and equitable understanding of gender roles.’

The production is a testament to the power of art to transform and inspire. It encourages us to question our assumptions and think critically about the world around us. The Women’s Center hopes that ‘Home to Ourselves’ will be the start of a broader conversation about gender roles and the need for change.
A Chance to Laugh
by Hilary Edlib

The story of the occasion was that the subject for a new play was to be submitted to the Fiction Writers' Conference, although the script had not yet been completed. It was decided to have a rehearsal of the play in the presence of the audience. Although the script was not yet completed, the rehearsal was held in order to give some idea of the play's progress.

The rehearsal was held in the city center of the town. The audience was made up of people who had expressed an interest in the play. The script was read aloud, and the actors were given the opportunity to comment on their lines and actions.

The audience was pleased with the rehearsal. They were impressed with the actors' commitment to the play and their enthusiasm. The script is still being worked on, but everyone is looking forward to the final product.
ISA: Edible Exotica

Is it not one of the main delights about living in the suburbs that you can walk into a tropical fruit store and eat any number of fruits you may never have seen before? The Association Luncheon Committee was delighted to have Elliot Rizvi (Philippines) screen the film, 

Electronic Collage Of Sound and Light

by Gwen Yell

Franklin Morris, the head of the electronic music lab at Syracuse University, presented the following electronic music to the students and guests at last Thursday's buffet dinner, kindly sponsored by the Campus Center and Colgate Radio Club.

Women's Track Opens

The Albany State Women's Track and Field team opened in four meets with a home meet against Morris College on Friday, April 25th. The track and field team is coached by Coach Joe Ebrizio and is made up of 40 women. The team consisted of a good cross-section of the student body and was better known for its strength in the running area. As for the track, the team's schedule is a tough one with many meets against the tough competition.

Applications are available in Campus Center 130

For Summer Assistants at Camp Dipikill.

The period of employment is from May 26 to August 15, 1975.

The applications are also being accepted for Summer Camp Counselor and Camp Director positions. The applications will be handled by the Office of Student Affairs at Colgate University.

Deadline for applications is May 2 at 2 p.m.

For further information, come to our booth on east court at Colgate University on May 2 at 2 p.m.
Late Rally Carries Stickmen to Victory

By Craig Bel

Albany State was ranked by the "Sports Illustrated" in the number three spot in the nation for the second straight quarter. Charles Wall and Pete Brady led the State's 6-5 victory over Colgate in the last minute of the game.

The win marked the second straight in the series between the two teams. Colgate had defeated Albany State in the first game of the season by a score of 5-4.

Colgate State continued to match up well with Albany State in the opening minutes of the game, but Albany State capitalized on their opportunities in the second quarter. Albany State led 3-2 at that point.

In the third quarter, Albany State took control and went on to score five unanswered goals. Albany State eventually won the game by a score of 6-5.

Albany State's Peter O'Brien said, "We were very happy with how we played today. We executed our game plan and we put points on the board."
