**Albany's Ghetto Free School Struggling to Stay Alive**

By Mike Ellis

Albany's South Side Free School, one of the few pure Free School in the nation, is struggling to stay alive. The school is in constant need of funds to keep its doors open. The school, which has been in operation for over 20 years, is facing financial difficulties due to a drop in enrollment and a lack of funding from the city. The school's mission is to provide a non-traditional education experience for children from the South Side neighborhood. The school offers a variety of programs, including a public school, a public health program, and a community center. The school is facing the possibility of closing if it cannot find the necessary funding soon.

**Job Picture Looks Glum for Graduates**

Appointed SUNY President Carl S. Fieldman said on Friday that the state's economy for the coming year is likely to be even more difficult than expected. The job picture for graduates is expected to be very bleak, with many institutions reporting a significant decrease in the number of job offers for recent graduates.

**Rambler Thoughts**

By Phil Ellis

The New York State Legislature is in the process of choosing between different options for the future of public schools. The governor and the legislature are both interested in finding ways to save money and improve the quality of education in the state. The $250 million that the state has been able to free up for educational purposes is a significant amount, but it is not enough to cover the need for new buildings and facilities. The governor has signed an emergency session bill that would allow the state to sell $500 million in bonds to fund educational programs.

**Struggling to Stay Alive**

The Albany Free School is in a state of crisis. The school has been operating for over 20 years, but it is facing financial difficulties due to a drop in enrollment and a lack of funding from the city. The school needs to raise $250,000 to keep its doors open. The school is facing the possibility of closing if it cannot find the necessary funding soon. The school is struggling to stay alive, and it needs the support of the community to continue its mission of providing a non-traditional education experience for children from the South Side neighborhood.

**Cutbacks Seen for SUNY**

The chancellor of SUNY (State University of New York) has announced that he will be proposing serious cutbacks for the university system. The chancellor said that the budget deficit is becoming unmanageable, and the state cannot continue to fund the university at the current level. The chancellor is expected to propose a $1 billion cut to the SUNY budget, which would affect all campuses.

**It's Official**

The chancellor of the state-operated SUNY (State University of New York) system said on Friday that the state cannot continue to fund the university at the current level. The chancellor announced that he will be proposing serious cutbacks for the university system. The chancellor said that the budget deficit is becoming unmanageable, and the state cannot continue to fund the university at the current level. Editorial Comment
Reform FSA!
The Faculty-Student Association will run into the red this year. For most large corporations, this would mean continued cuts to the budget, no new jobs, and an overall drop in productivity. This is not the case in FSA: while most reputable businesses can only afford to trim their staff, FSA can afford to add positions. This is due to the fact that FSA is made up of students, who have been trained to work for less money. In effect, the FSA will be able to cut expenses and still maintain a high level of service.

4. Presence of bizarre library practices, such as periodical reading of the stacks.

3. Lack of normal library practices. No one seems to have heard of periodical reading of the stacks. If you go to the stacks, you are likely to find it hard to keep your hands off the books. If you don't, you'll be asked to leave.

1. Students who take home all the books. It's not uncommon to see someone borrowing a book for a week, only to return it unread. This is especially true if you're a liberal or radical, so it's as preventing the liberal from getting the books as it is preventing the radical from getting access to them.

There is no longer a need for an FSA library, since the library is already overcrowded. The only reason it exists is so that people can study there. However, if you're planning on using the library, you should be aware that it will be closed on Saturdays.

Prosecution
1. Student and faculty who steal books. It's not uncommon to see someone taking a book out of the library and not returning it. If you see someone doing this, you should report it to the library staff.

2. The time limit for keeping out books should be raised from 1 to 2 weeks. This will help to reduce the amount of time people spend in the library.

3. Library staff who don't enforce the rules. It's a common sight to see someone borrowing a book for a week, only to return it unread. This is especially true if you're a liberal or radical, so it's as preventing the liberal from getting the books as it is preventing the radical from getting access to them.

4. Students and faculty who refuse to return books. It's not uncommon to see someone borrowing a book for a week, only to return it unread. This is especially true if you're a liberal or radical, so it's as preventing the liberal from getting the books as it is preventing the radical from getting access to them.

Constitutional Vote
The proposed Student Association constitution, which comes into effect next year, will be a big improvement over the current system, and the students will have an equal say in the way they are governed. The new constitution is designed to prevent fraud and ensure that the interests of the students are taken into account.

This may seem like a small step, but it is a big step. The current constitution is flawed, and the new one will be far more effective in protecting the students' interests.

Problems include:

1. Problems with the current constitution.

2. The time limit for keeping out books should be raised from 1 to 2 weeks. This will help to reduce the amount of time people spend in the library.

3. Library staff who don't enforce the rules. It's a common sight to see someone taking a book out of the library and not returning it. If you see someone doing this, you should report it to the library staff.

4. Students and faculty who refuse to return books. It's a common sight to see someone taking a book out of the library and not returning it. If you see someone doing this, you should report it to the library staff.

This may seem like a small step, but it is a big step. The current constitution is flawed, and the new one will be far more effective in protecting the students' interests.

This will be the first time in years that the students will have a voice in the way they are governed. The new constitution is designed to prevent fraud and ensure that the interests of the students are taken into account.

Do Something
To: The Editors of the Alumni
It's about time something was said and done about the library. As it is, there is more concern with the building itself, and the problems of keeping it clean and tidy, than there is with the actual library. The staff is not trained to handle the books properly, and they are not interested in the books themselves.

N.B.
To have heard of periodical reading of the stacks.

The library is far too crowded. It's not uncommon to see someone borrowing a book for a week, only to return it unread. This is especially true if you're a liberal or radical, so it's as preventing the liberal from getting the books as it is preventing the radical from getting access to them.

The problem is that the library is overcrowded. It's not uncommon to see someone borrowing a book for a week, only to return it unread. This is especially true if you're a liberal or radical, so it's as preventing the liberal from getting the books as it is preventing the radical from getting access to them.

The library will be closed on weekends as of next week. This will help to reduce the amount of time people spend in the library, and it will also allow the staff to catch up on their work.

March 1-31 is Ring Month at the Bookstore

In the past few months there has been increasing correspondence from student bodies and the University on the topic of the student body being in charge of deciding the future of the student body. There are some students who believe that this is a good idea, while others believe that it is not. The University has made it clear that it is not willing to give up control of the student body to the student body, and the students have made it clear that they want to be in charge of the student body. Therefore, it is likely that this issue will continue to be debated for some time.

The discipline board. Those cases that do not involve the board are called Administrative cases. In the University, almost all cases of a student removal from a dorm should go through the discipline board. If a student is removed from a dorm due to a disciplinary issue, the student must be present when the student's belongings are taken. For instance, if a student leaves school or gets married, the student is released from his or her contract. But there are special circumstances in which the university will release a student from their contract. For instance, if a student is removed from a dorm due to a disciplinary issue, the student must be present when the student's belongings are taken. For instance, if a student leaves school or gets married, the university will release a student from their contract.

The office of residences is in charge of determining what is the extent of this inspection. Whether or not a student's drawers containing personal belongings are gone during this inspection is a matter of common practice for inspections to take place over vacations. However, the policy is not always followed. The office of residences is in charge of determining what is the extent of this inspection.
