Wrong Rationalization

A notice was made at Sunday night's Preparatory Council meeting to request recognition of SCOPE because it had violated a restriction that was stipulated by the school. This restriction was that SCOPE should represent a select group of students and not the entire student body. The Tegral violation came when SCOPE distributed sympathy notes with both ICPE and SONYA's logo on them. Nine members of the council considered these notes indicated that the views of SCOPE represented the University.

We feel this is an absurd and ridiculous contention. The notices only indicated that there was a local chapter of ICPE at the University. The New York Democratic Party does not indicate that New York adheres to the philosophy of the Democratic Party.

It is a shame that an organization recognizes and enforces the use of the University's facilities for such a supposed violation. Such an action, if carried out, would represent a complete misuse of power by those who should be in the position to exercise complete control over the University.

Pros Confident inital

In the past, University Theatre's productions have been a highly successful experiment in the field of things like "Charley's Aunt." The production of Moliere's "The Misanthrope" has brought forth a book of illustrated drawings by the author's brother. Each illustration seems to echo a variety of the possibilities of drama — a bit too literally. By avoiding the heavily accented poetry of Ithth-century Roman literature, the playgoers who suggested, tongue-in-cheek, "The Misanthrope" and a flurry of college productions of the "Misanthrope" type farce.
