EDITORIAL COMMENT

Psych Decision

Two readers have been given notification that their contracts will not be renewed. And, it must be stressed, these are students. We, too, would like to express the hope that people who Work and study as students, and teach, are not the ones at whom this decision is aimed. Student opinion must be both heard and respected.

In the above case, the 1968-69 contract was signed by the student, the faculty member, and the University. The University was acting on the recommendation of the Faculty.
The seminar was funded through a social insurance program of the state government and included: (C) General 40-hour program in Social Services; (D) Technical 40-hour program in Social Services. The program will be conducted from April 6 to April 28, at the Assembly Hall. Attendees will be divided into three groups: (1) Program 1, 40-hour program in Social Services; (2) Program 2, 40-hour program in Social Services; and (3) Program 3, 40-hour program in Social Services.

For the course. The $5 will not be refunded if withdrawn from the program.

April 27. Anyone wishing to attend may obtain a reservation for the program by Monday, April 28, at the Student Association Office, C.C. Information Center, or at the C. C. Information Center. The fee may also be paid at the C. C. Information Center.

In order to keep your contact lenses as comfortable and convenient as they were meant to be, you have to take care of them. But until now you needed two or more pairs of solutions to properly maintain and prepare your contacts. Not with Lensine, Lensine is a one-lens solution for complete contact lens care. Not only does it keep your lenses clean, but it also retards the buildup of foreign deposits on the lenses.

Bacteria cannot grow in Lensine which is why it is perfect for contact lenses. It also prepares and maintains your contacts. Not only that, but it also prevents eye irritation and in some cases can endanger your vision.

This is a sure cause of eye irritation and is not only uncomfortable, but it can also lead to complications. That's why it's important to use a solution like Lensine to prevent these issues.

Knapp: I used with interest a review of the film “The Fixer,” by Frank, in the March 11 issue of the ASP. Frank described the film as “a political man,” highlighting the Jewish struggle for freedom and the persecution of Jews in the Soviet Union.

The story, just as Jews throughout the world have dreamed and fought, is told by the thousands who have participated in the film. The “final solution” for Hitler’s extermination camps is a fitting conclusion to the film.

All right, who did it? Whose fault did it fall on? Some friend or straight plucked it out of your hand and let your hat brush against the hat of another so that you got a muss in it? Have you scratched? Have you let yourself get into a disagreeable mood because someone has not been out of fashion lately or has not received a whole year or two since you were last seen among them? How many log books have you been left open on your sidetrack there? If you have turned the page, or if you have not read it for a whole day, then you should have no complaint, since that is not where they are.

Peace there may be in silence. As for and haste and remember what Paul's Church, dated 1692.

How many bigots have you eaten up? How many do you know, it may have been me. Isn't there a quote somewhere, that your mind is now reaching, that says something for your ego, something for your ego.

Militer Suppression

Many Americans today view with horror the suppression of American Indians. When the U.S. Army, through the use of the press and various other techniques, has been able to maintain the impression of the American Indian as a subhuman, the Indian has been forced to accept a lower place in the scheme of things.
