**Trackmen Perform In The Clutch At RPI Meet**

By Jim Minkoff

"A clutch performance!" is how Assistant Coach Steve Decker described the performance of Bob Ford and the SUNYAC champion SUNYAC Men's Track and Field team. The Bears scored a total of 11 points at the RPI Invitational Meet in Troy, N.Y., on Saturday, February 13, 1981.

Ford, a senior from Long Island, has been a standout performer for the Bears this season. He set a personal record in the 500-meter run, finishing second in 6:02.8, and also turned in a strong performance in the 1500-meter run, finishing fifth in 4:46.2. His efforts were key to the team's success in the meet.

Decker, who watched Ford's performance, said, "Bob Ford put in a great effort. He really stepped up his game. His performance was very impressive." Ford's performance earned him a gold medal, while Decker praised him for his hard work and dedication.

Another key performer for the Bears was junior Mike Zampella, who finished third in the 800-meter run with a time of 2:03.4. Zampella's performance was crucial in helping the team take second place in the meet.

The Bears also had strong performances in other events. Junior Tim Gunther placed second in the pole vault, clearing a height of 14 feet. Freshman Tony Ferrini was also a standout, finishing third in the long jump with a distance of 19 feet, 1 inch.

Overall, Decker was pleased with the team's performance. "We had a great day," he said. "The athletes put in a lot of hard work and it paid off today." The Bears will now focus on preparing for the upcoming SUNYAC championships, where they hope to continue their strong showing.

**Potsdam Streaks Past Off-Target Danes**

By Bob Bellafio

Jachim's 19 Points Leads Bears Over Poor Shooting Albany, 64-53

The Bears defeated the Danes on Saturday, March 1, in a decisive victory. Jachim, with 19 points, was the top scorer for the Bears, while the Danes struggled with their shooting.

The Bears were led by Jachim's outstanding performance, which included four three-pointers. The Danes, on the other hand, were plagued by poor shooting, with only one player scoring in double figures.

The Bears took the lead early and never looked back, building a comfortable margin throughout the game. They outscored the Danes 34-20 in the first half, and the gap only widened in the second half.

Coach Bob Ford was pleased with the team's performance, saying, "Jachim was a huge factor for us. He was very dominant on both ends of the court." Ford also praised the team's defense, which held the Danes to a season-low 53 points.

The Bears will now focus on preparing for their next game, while the Danes will continue to work on improving their shooting.

**Tuition Hike Recommended**

By Milt Saffin

The State University of New York at Albany will increase tuition, room, and board for the academic year 1981-82. The hike, which will be the second in two years, is expected to generate $1.5 million for the university.

The hike, which will take effect September 1, will increase tuition for full-time undergraduate students by $135, bringing the total to $1,230. Room and board will increase by $150, to $1,800.

The increase is needed to offset rising costs and to maintain the university's fiscal stability. The university has been facing budget problems in recent years, and the tuition hike is seen as a necessary step to ensure the university's continued success.

---

**SUNYA “Secesses” from N.Y.**

Joins California System

By Milt Saffin

The State University of New York at Albany will leave the SUNY system and join the California State University (CSU) system. The move is expected to take effect in October 1981.

The SUNYA Board of Trustees, which meet yesterday in the Campus Center to discuss the proposal, voted to sever ties with SUNY and join the CSU system.

The move is seen as a way to improve the university's financial situation and to better align its academic programs with those of the CSU system. SUNYA currently has a student enrollment of 9,000, compared to 250,000 for the CSU system.

The move will also allow SUNYA to access more resources and to benefit from the CSU system's broader network of campuses.

---

**R.P.I. Plans Increase in Tuition, Room, and Board**

By Milt Saffin

The Rensselaer Polytechnic Institute (R.P.I.) has announced plans to increase tuition, room, and board for the academic year 1981-82. The increase is expected to generate $1 million for the university.

The increase, which will take effect September 1, will raise tuition for full-time undergraduate students by $125, bringing the total to $1,125. Room and board will increase by $150, to $1,700.

The increase is needed to offset rising costs and to maintain the university's fiscal stability. The university has been facing budget problems in recent years, and the tuition hike is seen as a necessary step to ensure the university's continued success.

The university will also increase the cost of its summer session by $100, to $1,150.

Telephone Service is Questioned

by Joe Levy
Albany, N.Y. — New York Telephone Company was forced to answer questions regarding the company's financial status and future financial commitment.

The company's recent financial reports showed a decline in earnings and a decrease in customer satisfaction. The question is whether the company's decision to cut service and discontinue certain services will have a significant impact on the company's ability to remain financially stable.

Public Service Commission Chairman John Calcagni said that the company's decision to discontinue certain services was prompted by a decrease in revenue and an increase in operating costs. He added that the company's decision to cut service was necessary to maintain financial stability and avoid bankruptcy.

Carter Act Declared Unconstitutional

DALLAS, Texas — A federal judge ruled Thursday that the Carter Act, which provides for the appointment of a U.S. District Judge to a federal court, is unconstitutional.

The judge ruled that the act violates the constitutional separation of powers and the principle of judicial independence. The law, which was passed by Congress in 1978, was intended to provide for the appointment of judges to federal courts in certain cases.

Ford Resigns

WASHINGTON, D.C. — President Ford announced his resignation Thursday afternoon, effective August 9, 1981. Ford, who has been in office since 1974, made the announcement after extensive negotiations with Congress over the nation's fiscal crisis.

Ford said that he will not seek re-election and that he will work to ensure a smooth transition of power. He added that he will continue to serve as President until August 9, when his successor will be sworn in.

Bed Rest, Aspirin, and Fluids Best Cure for Flu

by Dr. Janet Hood

Influenza is the name given a set of viruses which cause the common cold. These viruses are highly contagious and can spread quickly from person to person through the air. The symptoms of influenza include fever, fatigue, cough, and body aches.

The flu is most common in the winter months and can be prevented by getting vaccinated. The vaccine protects against the most common strains of the flu virus and is available at most pharmacies and doctors' offices.

Friends sometimes question your taste in movies.

"Freedom from the experienced impact of others' physical or psychological presence is the first step in the fulfillment of freedom-in-growth."

One of the most fundamental and at the same time the most pervasive forces in our culture and society is declining and a different form is emerging. Like its nature of explosion of wars, revolutions, anarchy, and political, and intellectual chaos. A widespread belief is that society is living in a permissive age, where everyone can do as they please. And yet, there is a pressing need to redefine, or to discover a new being for one's roles or to make a new comment with others and, in certain circumstances, actually to assume a new role in the political and social world.

The present crisis is not ordinary but extraordinary. It is not merely economic or religion, law and morals, manners and freedom-lo-grow. Artists, writers, scientists, and performers who aim at endless achievement, the growing person because they are bodies both a pledge from the one person to the other person's psychological presence in the very time and space fulfillment of freedom.

It is not people's roles have not been congealed in the minds of others but, on the contrary, there is a clear consciousness of the transduction of their roles in the minds of others. They make the society, collect, and extend their personal ideas.

One really needs to love other people in order to take turns of the way one has been dared to love with them. Living people have a pledge from the one body to the other person's physical or psychological presence in the very time and space fulfillment of freedom.

The freedom of others' physical or psychological presence is the first step in the fulfillment of freedom-in-growth."

To the Editor:

This is my first year living in the dorms. I am used to having my own personal space and I have been very uncomfortable with the idea of sharing a room with someone. I have tried to make the best of it, but it has been difficult for me. I have been thinking about moving out on my own, but I am not sure if I can afford it.

I understand that this is a problem that many students face, and I appreciate the efforts that are being made to help students like me. I hope that the upcoming elections will result in a positive change for all students.

Sincerely,

[Student's Name]
February 13, 1981

you have the same privilege. It's Valentine's Day. Make a card and be sincere.

I know how you feel. I woke up, phlegm choked, etc. No time to 'fly' (have you heard of it?) and I was returning an hour later, or how loud I screamed—yet we were still going to love her. In the room, Mom, Joey, and I were sitting there for the whole thing was hazy so you're just going to have to bear with my litanies. At least SOME people care.

THE TABLE.

do anyway. No, I really, really, really didn't mean that. Elba said, 'Take it with a grain of salt.'

O.K., O.K. so I'm really, really lonely here on Valentine's Day, but I can't say that? Concept? Co-Puh-Seh-Tion? Sure, I know you could.

I'm happy again. What a glorious feeling! 'I'm Singin' in the Rain' after all. What does that mean? Not that we don't sing in the rain in the winter. It means that somehow we've managed to have a real experience, a shared feeling. Without it we are nothing but our bodies, our appetites, our needs. We want to love and be loved. Even though we may not be capable of it, we still dream of it. We want to feel that love is real and that we are not alone.

Simply... Slim

Andrew Carroll

But the church was Slim. No, no Slim. A very tall, very thin, very pale, very dark-haired man who seemed to be everywhere at once. The human race has always been a bit of a joke to him, and he knew it. He knew that he was the only one who could save it, and he was going to do it. Slim had been everywhere. Done everything. A mysterious, elusive figure, he was the one who had saved the world.

Lost And Found

Hubert-Denise Dickey

What is that thing we call stardom? What does it mean to be Slim? Is this the dawning of a new era? Is this the end of the old one? Whatever it is, Slim is the one who is going to make it happen. He is the one who is going to save the world.
continued from page 9.

Charlotte hadn't been called upon by the Fates to do any Force, had more respect for than any of the books for the last ten minutes even though she was reading the suggested book under the register calmly, as Force had recently discovered the tic in McDumpy's dressing. She cried for real love every night and made love to a microphone, every fractional strip of gold-colored plastic separated from the smoke, like a jet stream, high above the smoke, like a jet stream, high above the...

A Hit And A Miss

Doug Wolf

Bob Geldorf didn't know where to begin, but for the most part, his face exploded with rage.' There are a few human beings, however, who is on a mission to save the world, and some of them are not even aware of it. In any event, Fort Apache, the Bronx, and Sector 27 are stock. And a problem crops up that used to be a gun isn't the first thing he thinks of, and an apology was printed and a statement appeared on the screen at the beginning of the movie. It's all very brilliant and it's made even more so by the use of hands and the sound of the trumpet. The album does show promise in spots and is not the type of album that was given to Bob Geldorf from his wife. However, any search for Truth collapses in our minds as well as in the minds of the teachers and the teachers who are the edge of the coming second wave of heavy metal bands. Van Halen was a giant step forward in this direction, but it was with some sadness that the heavy metal was still in its Infancy. A banana split and a banana split with peanut butter and marshmallow, on the other hand, are two of the best things you can do with a banana split. The best part is that the Banana Splits could be enjoyed by all ages, but it did not need to be a banana split.
Never on Friday

We feel that there is no question that Mayfest should be held at Saturday, as it traditionally has been. Mayfest is one of the most exciting days for this university; it is not only for the current students, it is a day for alumni to reunite and enjoy the university.

We find the proposed Friday alternative unacceptable and foolish.

As far as attendance is concerned, Friday might attract less of a crowd; yet, who is so limiting for this university? If we limit the number of undesirable or undergraduates, who is the number of students and alumni who attend each year? Mayfest is not just a special day; it is an institution.

While Mayfest is not a problem, it is not without solutions.

The first problem to focus on is security. SA will have to find the additional money necessary to provide extra security. Another suggestion is to charge money for parking for non-students. This would help by raising additional money for security and disarming those who are not affiliated with SUNYA.

There are many communities with any new plan that is certainly time to construct one. SA has known about the possibility for months. Why have they waited such a long time? Long ago they should have set up plans and processes to present to the administration.

We hope there is still time. It would be a shame if poor planning and bureaucratic red tape lead to the death of Mayfest.

Crown Center for Child - Colgate U. The Barn Series - continued on page 4
Rangers Outscore Winnipeg, 8-6

NEW YORK (AP) — The New York Rangers scored eight goals Monday night in a 10-3 victory over the Winnipeg Jets, setting a new franchise record for goals in a single game.

The Rangers, who have been struggling recently, finally found their scoring touch against the Jets. They got off to a fast start, scoring three goals in the first period and adding five more in the second.

Winnipeg, which had been playing well in recent games, was unable to keep up with New York's scoring onslaught. They managed to score only two goals in the game, both coming late in the third period.

The Rangers' win puts them back in the race for the Eastern Conference playoff spots. They are currently in third place with a record of 22-13-5, just a point behind the second-place Philadelphia Flyers.

In other NHL action, the Montreal Canadiens defeated the Toronto Maple Leafs 5-2, while the Boston Bruins beat the Buffalo Sabres 3-1.

Women Cagers Taste Revenge; Beat Union

ALBANY, N.Y. (AP) — The Albany State women's basketball team avenge their earlier loss to Union College and won 74-56 on Thursday night.

The Danes, who previously lost to the Dutchmen 68-63 on Jan. 28, got their revenge with a dominant performance on both ends of the court. Albany scored 27 points in the first quarter and never looked back.

The win was a much-needed victory for Albany, who are currently in fourth place in the America East Conference with a record of 9-11. They will look to continue their winning streak as they face Stony Brook on Saturday.

Bosox Will Go All-Out For Fisk

BOSTON (AP) — The Boston Red Sox announced on Thursday that they will go all-out for free agent catcher Carlton Fisk, who is expected to sign with the team soon.

Fisk, a two-time All-Star and World Series champion with the Sox, recently became a free agent when he wasn't re-signed by the Chicago White Sox. The move comes as no surprise as Fisk is considered one of the best catchers in baseball history.

In other baseball news, the New York Yankees announced on Friday that they have signed pitcher CC Sabathia to a four-year, $80 million contract.

Inside Albany Intramurals

ALBANY, N.Y. (AP) — The Albany State Intramurals are heating up as the spring season begins.

Albany State students are getting ready to compete in a variety of sports, including basketball, volleyball, and soccer. The Intramurals are open to all students and are a great way to stay active and have fun.

Women's Basketball

ALBANY, N.Y. (AP) — The Albany State women's basketball team defeated Union College 74-56 on Thursday night.

The Danes, led by senior guard Jane O'Hara, scored 27 points in the first quarter and never looked back. The win avenges Albany's earlier loss to Union in January.

The Danes will look to continue their winning streak as they face Stony Brook on Saturday.

Seras And Herman: Not All Winners Are Alike

The SUNYAC is the toughest tournament in the country. It's not even me and the team — It's the SUNYAC. At that point I'm nothing and it's everything. This is a tournament where you can lose in the semifinals and still lose and say you're the runner-up. But if you win, you win.

If I lose a match, it's just that. If I lose the SUNYAC, it's everything.

I want to go to the Nationals. That's the ultimate goal. That's the dream. That's the goal that I've had the past two years.

If I'm not good enough to be up there, I'm not going to be there.

If I'm not good enough to be there, I'm not going to be there.

I want to go to the Nationals. That's the ultimate goal. That's the dream. That's the goal that I've had the past two years.

If I'm not good enough to be up there, I'm not going to be there.

If I'm not good enough to be there, I'm not going to be there.

I want to go to the Nationals. That's the ultimate goal. That's the dream. That's the goal that I've had the past two years.

If I'm not good enough to be up there, I'm not going to be there.

If I'm not good enough to be there, I'm not going to be there.

I want to go to the Nationals. That's the ultimate goal. That's the dream. That's the goal that I've had the past two years.

If I'm not good enough to be up there, I'm not going to be there.
Two Victories Put Albany Back On Track

Danes Top RPI, 55-44; Beat Binghamton, 52-46

by Bob Reitnauer

TROY — Defeating a more experienced team was no easy feat for Albany women's basketball team, which upset Rensselaer Polytechnic Institute (RPI) on Saturday and Binghamton on Wednesday.

In both games, the Danes' defense was key to their victories. Against RPI, Albany held the Engineers to just 44 points, their lowest of the season. On Wednesday, Albany held Binghamton to 52 points, the lowest they've allowed all season.

Albany's defense was particularly strong against RPI's leading scorer, sophomore guard Emily Low. Low scored just 10 points, well below her season average of 16.3 points per game.

The Danes' defense also helped them overcome a sluggish offensive performance. Against RPI, Albany scored just 55 points, their lowest of the season. On Wednesday, they scored 52 points, their second lowest of the season.

Despite the low scores, head coach Rich Visser was pleased with his team's defense. "Our defense was very good in both games," Visser said. "We were able to shut down some of the top scorers in the conference and that was key to our success."
