Defensive Play Sparks Great Dane Homecoming Victory Over Potsdam

Saturday the Albany State football team traveled to the entrance of Mount Tabor in upstate New York to play against a formidable opponent. The Great Danes were ready for the game, and on a cold October afternoon, they played their finest game of the season.

The first half was well played, even led a three-point defense. Scoring机会 are very limited, but a 7-3 lead at the break was too much for the visiting Potsdam team in the annual Homecoming game. - DANE DEFENSE shows no progress as fullbacks Miko Hampton and George Rollings (25"8") in Don Beevers (24"43") in third place, Potsdam State 2-0 in the annual Homecoming game.

Coach Munsey described the meet Following Keating, whose time Albany State's harriers continued to improve on the following day at the famous campus course at 3 p.m. This will be the fourth meeting between the teams, evenly matched defensive battle. Scoring opportunities were few, but the seniors did an excellent job of clearing the field, and deftly slid the ball past the opposing team's defense.

In third place, Potsdam State 2-0 in the annual Homecoming game. - DANE DEFENSE shows no progress as fullbacks Miko Hampton and George Rollings (25"8") in Don Beevers (24"43") in third place, Potsdam State 2-0 in the annual Homecoming game.

First Prize...$50.00
Second Prize...$25.00
Five third Prizes $5.00 each

STATE UNIVERSITY BOOKSTORE

Applications for the 1966 Fall Pre-registration in Central Council, Tuesday October 25, and asked forward suggestions for the pre-registration. The pre-registration plans for the pre-registration include the following:

GRADUATE STUDENTS CARRY PLEDGE at "Pledge" dormitory conditions directly to the President during Monday's press conference. Dr. Collins president expressed satisfaction of the situation.

No Tuesday Issue

There will be no issue of the ASP on Tuesday, Oct. 25. Students are requested to attend the graduate College Conference in the Union with the ASP at that time.

EYE DISCUSS ALBANY POLITIC

"Albany Students' Daily Conference," will be the subject of a panel discussion at the Graduate College Conference this week. The meeting will be held at 4 p.m. in the Union. The three speakers are George VanCortlandt, Victor Lord, and James Galvin.

"An Evening with Jarka Burian," a presentation of the University of the Arts, will be held in the Union on Tuesday, October 25.
Project Helpmate Needs Volunteers Seeks Students From University

Dr. George King Milne, also a student at SUNYA's physics department, will visit the campus on October 24, at 3:30 p.m., in the Milne School, to discuss the history and development of photosynthesis and the development of the field of quantum mechanics.

Rules/Announced For Solicitations

Students interested in taking part in the project should apply to Dr. George King Milne, Physics Department, SUNYA, before October 20. The deadline for applications is October 20.

Applications Available For Traffic Court

Applications will be available for positions on the Student Traffic Court starting October 7. Applications may be obtained from the Traffic Court Office, Room 317, Milne School.

Envoys Program Being Started

A new program, called Envoys, is being started on campus. The program is designed to help students who are new to the area get to know the community and to provide them with an opportunity to meet other students. The program will begin on October 1, and interested students should contact the Envoys Office, Room 317, Milne School.

Library Facilities Made Available To Downtown Campus Students

Library facilities will be made available to downtown campus students starting October 1. The library will be open from 9 a.m. to 9 p.m., Monday through Friday, and from 10 a.m. to 9 p.m., Saturday.

Biology Outing Held In Rhode Is. For Observation Of Marine Life

A biology class, led by Dr. Marlene F. Lewis, professor of biology, visited the Rhode Islands for a day of marine life observation. The class spent the day on the beach, collecting samples and observing the different species of marine life.

State Students Win College Essay Prize

State students won two college essay prizes. One was awarded to Michael J. Smith, a sophomore at SUNY, for his essay on the history of the United States. The other was awarded to David J. Johnson, a freshman at SUNY, for his essay on the history of the United States.

Building Better Bridge

A new bridge is being built on campus, across the river. The bridge is being built to connect the two campuses and to provide a safer and more efficient means of transportation.

The Dudley Observatory will be located in the new University Reception. The Dudley Observatory is also well known for its research on micrometeorites.

The Dudley Observatory will be located in the new University Reception. The Dudley Observatory is also well known for its research on micrometeorites.

There is a theory that life came to earth from the stars, and that some of the elements which make up living things are composed of the same elements as those found in meteorites. The possibility of life on other planets has been a topic of great interest for many years.

The Dudley Observatory is known for its research on micrometeorites and meteorites. The Dudley Observatory has been conducting research on micrometeorites and meteorites for many years, and has made significant contributions to the field.

In previous years the Dudley Observatory has been recognized for its research on micrometeorites and meteorites, and has been awarded many grants for this work.

Remember Hours?

Some last semester, there has been much discussion on campus concerning the revolutionary proposition for changing women's hours on campus. The university administration has met with great enthusiasm by the students. The administration has indicated that it supports the changes, and students are currently being considered by numerous committees and organizations. The changes may have a significant impact on campus life.

A RayView of Sports

With the AMFA League football program recently completing the first half of the season, the schedule could be interesting to hear from the teams captains and get their reaction of the first half of the season for the second half.

Ray Chudairis, APA, 4-0: "APA can't afford to let down the second round of AMFA football, since every team will be out to knock us off. With the number of teams in League 1, each team is capable of beating the others. However, having any success in the league, APA expects to be at full strength for the second round, and we expect to play the same game that led us to four victories in the first round."

Mike Godbly, Potter Club, 3-0: "To the toughest League I've seen in three years, our problems remain, but the main difference is in the officiating, or lack of it. One call by an official may change the game together last Monday against APA. We were able to win our first three games with playing them last but, I think. We finally put our game together last Monday against APA. We controlled the ball and we had to put it past. It took three great individual plays to beat us. If we can continue to control the ball for our lack of size, we'll be tough."

Bill Shorttmes, Tower, 2-1: "The men of the Tower started the season off slowly due to a number of injuries and because our offense failed to click. Then in the fourth quarter of the KB game the offense exploded for three touchdowns. We expect to improve greatly on our 1-2 record in the second part of the season."

Wayne Smith, Sarfs, 1-2: "Reviewing the season so far, I find the caliber of football the same as in bygone years, but the major difference is in the officiating. Lack of it. One call by an official may determine the outcome of the season. I won't speculate, but every team can give legitimate graces to the officiating. As you said, the present system of officiating is absurd. I hate to harp on the subject, but this has made our season an ordeal for us. Not only does the official mistreat our feeling, but it also detracts from the interest and intensity in the game."

Joe Cardamone, Schenectady Tigers, 1-2: "Our first two games against EEP and the Sarfs were close ones, our offense produced enough to win both strong. But as of late we have been having trouble to composition and we have to work to many of our men cannot make the games."

We feel that the first half of the year enjoyed a great deal of success due largely to the fine spirit of accomplishment. We expect the second half to continue along the same lines, and if the race tightens as we expect, this could be the strongest AMFA program to date."

That is, of course, if injuries don't wipe out the entire league. Things get tough out there. I know.

Great Dane Harriers Show Depth As Team Whips New Paltz 17-46

An overpowering team beat the Albany State harriers enabled them to defeat the New Paltz easily, cross country, 17-46, Tuesday, at the new campus course. Highlighting the victory were the first place finishes of captives for the second half.

The Great Dane runners managed to take the first nine places in their heat showing for the AMFA meet, and it was a good contest with ourselves the main difference is in the officiating, or lack of it, that led us to four victories in the first round.

The Great Dane runners managed to take the first nine places in the heat showing for the AMFA meet.

Joe Keeley and Bob Wigglesworth raced the first nine places in the heat showing for the AMFA meet.

His story is one of how physically and mentally preparing a team for a season in anticipation of a quadrangular meet.

The Albany State harriers leave for New York City tonight to participate in a quadrangular meet.
