Trackwomen 3rd At Cortland

by Leonard Boffett

Cortland, N.Y. — The Cortland women's track and field team will be hoping to have a strong showing at the regional meet this weekend here at the State University of New York College at Cortland.

The meet is scheduled to be held on Saturday and Sunday, and will feature 13 events in total. The women's team will be competing against many of the top teams in the country, including the likes of the University of Michigan and the University of California-Berkeley.

The Cortland women's team is currently ranked 12th in the nation, and is looking to improve upon that ranking this weekend.

Runners Win Fourth Meet In Row

by Bill Hignell

The Albany State track and field team continued their winning streak last weekend, capturing the four team titles at the annual Meet the Minutemen meet at Ohio State University.

The Minutemen hosted 13 teams from across the United States, and the Albany State team put up strong performances in all four events. In the men's meet, the team finished first in the 10,000 meter run, the 5000 meter run, the 400 meter dash, and the 110 meter hurdles.

The women's team also put up strong performances, finishing first in the 5000 meter run, the 400 meter relay, the 4x400 meter relay, and the 4x800 meter relay.

Nutters Second In UC Tourney

by Stephen Daniels

The Albany Union College basketball team continued their strong play last weekend, finishing second in the UC Tournament in Nailm.

The team, led by senior guard Mike Williams, went 3-1 in the tournament, losing only to the eventual champions, the Niagara University Purple Eagles.

The UC Tournament was held at Union College in Schenectady, N.Y., and featured 16 teams from across the Northeast.

Fields To Leave SUNYA For Presidency At Vanderbilt

by Thomas Marlowe

UIUC names D.C. area native as next Athletic Director

UIUC's athletic department is announcing the hiring of a new Athletic Director, effective immediately. The new AD will be Allen Fields, a native of the D.C. area.

Fields, who has been serving as the Acting AD at UIUC for the past two years, will take over the reins of the athletic department immediately. He will oversee all aspects of the athletic program, including fundraising, recruiting, and game day operations.

"Allen is a great hire for UIUC," said UIUC Athletics Director Margeenteously. "He brings a wealth of experience and knowledge to the department, and I am confident that he will lead us to new heights.""Allen is a great hire for UIUC," said UIUC Athletics Director Margeenteously. "He brings a wealth of experience and knowledge to the department, and I am confident that he will lead us to new heights."
Nixon Asks Watergate Sergeant

WASHINGTON (AP) — President Nixon slammed his way through the lawyer, burst in and asked the lawyer what he was doing there. The lawyer said he was there to represent the Watergate sergeant, who had been charged with bribery.

An add to Nixon and the story of Watergate is also mentioned, but otherwise the text is not clear.

---

WASH. (AP) — Judge Edwin London has found that four of the defendants in the Watergate case are guilty of conspiracy.

---

WAHINGTON (AP) — President Johnson has asked Congress to pass a bill that would provide for the appointment of an independent counsel to investigate the Watergate case.

---

WASHINGTON (AP) — The House of Representatives has voted to impeach President Johnson on charges of obstruction of justice.

---

WASHINGTON (AP) — The Supreme Court has ruled that the Watergate case is a matter of national security and should be kept secret.

---

WASHINGTON (AP) — President Nixon has fired his Secretary of State, Henry Kissinger, over the Watergate scandal.

---

WASHINGTON (AP) — The Senate has voted to censure President Nixon over the Watergate affair.

---

SALEM NEWS
You've heard of termite damage. Well, America's termite season may just be around the corner. Claudio Trujillo, a research entomologist with the Integrated Pest Management Lab at the University of New Hampshire, notes that the problem is becoming more widespread. In recent years, he says, termite damage has increased significantly, leading to higher insurance claims and repair costs. Trujillo recommends having your home inspected regularly to prevent costly repairs later on. He also suggests using termite-deterrent products, which can be found at most hardware stores.

PHOTOCENTRIC NEWS
Zenaida Sylvestre, a professional photographer from New York, is releasing her latest photo book, "Framing the Face," which features portraits of people from all walks of life. Sylvestre, who has been photographing for over 10 years, says she was inspired to create this book after interacting with diverse communities around the world. The book is available for purchase on her website and at select bookstores.

ZODIAC NEWS
The April Fool's Day police report indicates a significant increase in prank calls and practical jokes across the country. The most notable incidents include a call to a local fire department reporting a false fire, and another to a hospital emergency room claiming a person had been poisoned. These incidents led to a waste of valuable resources and caused considerable distress to those involved. The police are urging the public to be cautious and refrain from participating in these types of pranks.

UPD & DOWNS
Speaking of the Ups and Downs, the magazine required a bold new approach to cover the current economic climate. The editor-in-chief, Emily Davis, decided to focus on stories of resilience and innovation amidst the challenges of the time. The issue includes profiles of entrepreneurs who have pivoted their businesses to adapt to the pandemic, and articles on sustainable fashion and eco-friendly living. The issue is available for purchase now.

HOOF Beats
Horseback riding is a popular pastime for many Americans, especially in rural areas. It offers a way to enjoy nature, get exercise, and connect with animals. According to a recent survey, 20% of Americans participate in horseback riding at least once a month. The Union College Equestrian Team, under the guidance of Coach Rachel King, has been preparing for the upcoming season with rigorous training and conditioning. The team looks forward to participating in various horse shows and events throughout the year.

ALBANY STUDENT PRESS

The following articles are from the April 15 edition of the Albany Student Press.

Phi Beta Kappa List Released
Phi Beta Kappa, a prestigious honor society, has released its list of new members for the Albany College. This year, 20 students were inducted into the society, representing a wide range of majors and interests. The inductees were chosen based on their academic excellence, leadership, and service to the community.

Time Is Running Out
It's time to make that final decision. Will I or won't I? The last day of registration is Thursday, May 3.

Dart Fail
The Dart, a popular student publication, announced that it will cease publication after the spring semester. The decision was made after a year of financial struggle and declining print subscriptions. The editors expressed gratitude to their readers and fellow students for their support and expressed hope for the future of student journalism.

Planning to Withdraw from the University at the End of the Spring Semester
If you are not going to return to Albany next semester or are unsure about your future plans, you are not alone. The Office of the Dean of Student Affairs at Albany College will be available to discuss the possibilities available to you at the time of the last hour of class.

UNIVAC SYSTEM PROGRAMS
Sperry Rand, a world leader in computer technology, has announced the development of a new Univac 1105 computer system. The machine is expected to revolutionize the field of computing with its advanced capabilities and efficiency. The Univac 1105 is designed to handle large-scale data processing and offers significant improvements over its predecessor, the Univac 1101.

RESEARCH PROGRAMS
The Bailey Research Group has been awarded a grant from the National Science Foundation to conduct research on the effects of climate change on wildlife populations. The project will involve collaboration with biologists from several universities and will include field studies, laboratory experiments, and computer modeling. The results are expected to provide valuable insights into the impact of climate change on ecosystems.

AIR FORCE ROTC
Air Force ROTC is now being offered by
Remsen Polytechnic Institute
and here are some facts that should interest you about that:
- Our course opens to all majors.
- We have a service obligation (5 years).
- We offer scholarships.
- It’s an “all in” package.
- It’s a great way to prepare for a career in the Air Force.

Margaret Stewart, professor of biology, has been named an Alfred Distinguished Teaching Professor at SUNY University at Albany. The appointment is based on her outstanding contributions to teaching and mentoring students. Stewart said she is thrilled to be named the new Distinguished Teaching Professor at SUNY University at Albany. She described her role as a mentor and advisor to students.

The University of New York at Albany, which is one of the SUNY campuses, has named Stewart as its new Distinguished Teaching Professor. She is the first teacher at the University of New York at Albany to receive this award.

Stewart said she is proud to be part of the SUNY University at Albany community and is looking forward to working with the students and faculty there. She said she is committed to teaching and mentoring students and is excited to be able to help them achieve their goals.

Stewart has been teaching at SUNY University at Albany for over 20 years. She has received several awards for her teaching, including the University’s Excellence in Teaching Award and the SUNY Chancellor’s Award for Excellence in Teaching.

Stewart earned her doctorate in biology from the University of California, Berkeley, and her master’s degree in biology from the University of California, Santa Cruz. She also holds a bachelor’s degree in biology from the University of California, Los Angeles.

Stewart’s research interests include ecology, evolution, and conservation biology. She has published numerous articles in scientific journals and has been a member of several professional organizations.

Stewart said she is excited to be working with the students and faculty at SUNY University at Albany and is looking forward to contributing to the university’s academic community.

Stewart will begin her duties as the Distinguished Teaching Professor at SUNY University at Albany in the fall of 2023.
Corporal Punishment—Let the Rod Spoil

To the Editor,

After serving as Central for 12 long months, it is finally the start of the school year. Summer had never been more beautiful; not even to me. The last I knew, there was no such thing as corporal punishment. Now, however, the idea of hitting students with a ruler is the order of the day. The concept of corporal punishment is a relic of the past, a tool that is no longer needed in today's educational setting. Corporal punishment is a form of physical abuse that can lead to emotional trauma and physical injury.

Sincerely,

[Signature]

Student Association President

we’re number one?

To the Editor,

There are three things about the campus that really stand out to me: the beautiful scenery, the friendly people, and the great facilities. The campus is surrounded by natural beauty, with mountains and forests in the background. The people are friendly and welcoming, always ready to help others.

Sincerely,

[Signature]

great possibilities

To the Editor,

The University of the State of New York is a great possibility for those who want to pursue a career in technology. The university offers a wide range of programs in fields such as computer science, engineering, and mathematics. The campus is located in a beautiful setting, with plenty of opportunities for outdoor activities.

Sincerely,

[Signature]

thank you, adieu

DNA memory: we’re being watched

To the Editor,

Overcoming the difficulties in having a memory that can store information over long periods of time is a major challenge in the field of DNA research. However, recent advancements in DNA technology have made it possible to store information in DNA sequences.

Sincerely,

[Signature]

great possibilities

To the Editor,

The University of the State of New York is a great possibility for those who want to pursue a career in technology. The university offers a wide range of programs in fields such as computer science, engineering, and mathematics. Students Playing in Spring

BY STEPHEN ALMAH
The Music Department's student orchestra, given very few days in SUNY's Music Hall, provide an interesting cross-section of the students' talents. The attraction of various music-oriented student groups is to provide an opportunity for students of all backgrounds to participate in music.

Two recent examples illustrate this diversity. A graduation program April 22nd featured wind instruments, while this past Thursday's performance featured the orchestra, performed on the violin, with keyboard accompaniment.

Maestro S. Mary plays a mean violin, as anyone attending his Graduation Recital can attest. She and about Catherine Finch had prepared for a music degree by performing. If only other departments could arise in a manner which would encourage a student to pursue music.

The concert took place under trying conditions. Heat, humidity and lack of ventilation produced a stifling atmosphere. Programs were pressed into service as fans. The wonder was that any music at all would arise from this swelter.

The sessions proved equal to the challenge. First on the evening's slate was Bach's Partita in A Minor for unaccompanied Flute. Ms. S. Mary played the flute with finesse and grace. She then turned to the organ, just as skillfully. Her performance on the organ in Bach's Aria from 'The Brandenburg' from the Song Cycle "Die Schone Magd" by Franz Schubert. Unfortunately, the music proved to be as acoustically as it is in title. The fantastic beauty of the opening theme was simply overwhelmed by the volume. The performance was of the music which for present purposes, was obscured by the intense focus accompanying the work. However, no harm was done to the immediate spirit of the music.

The orchestra responded with music of a more lighthearted flavor. Although it might be viewed merely as a pleasant piece, Luciano Berio's "Sequentia" for flute solo evokes definite musical emotions. Ms. S. Mary brought this through a virtuosic, flexible landscape, coloring the technical interest of Bach's unaccompanied works. She seemed equally at ease with both composers' worlds.

Today Cook joined Ms. S. Mary as piano accompanist in the Introduction and Variations in E Minor on a Theme ("The Brandenburg" from the Song Cycle "Die Schone Magd" by Franz Schubert). Unfortunately, the music proved to be as acoustically as it is in title. The fantastic beauty of the opening theme was simply overwhelmed by the volume. The performance was of the music which for present purposes, was obscured by the intense focus accompanying the work. However, no harm was done to the immediate spirit of the music.

The Utah State variance tests were
held under the coaching of Robert Lyon
by losing 8-4 to the University of
Massachusetts last Thursday. The
loss was the team's third of the year
and lowered its record to 9-3.
The Oemans made the trip to
Massachusetts without the services
of their number three player, North
Carolina junior, Richard Newell.
They were unable to field out their
whole lineup and played short-handed.
A player had to be moved around to
cover the position of Newell.
"If Newell had been with us, we
probably would have won the match,"
Ric Newell said. "But the score isn't
very important. It was the first match
of the year..." he added.

Perkins, Goldner Gain Net Title
Kevin Perkins and Clay Goldner
played strong doubles tennis as they
combined to take the first annual
AMIA Singles Doubles Tourna-
ment, held last Saturday on
the Dutch Quad courts. Securi-
ty men's club's competition
which lasted almost six hours on the
deepest April afternoon.
Perkins and Goldner had to defeat
the tough challenging team of Tim
Miller and Patty Randel to get the
win, and they did so in straight sets,
6-3 and 6-1. The pair attributed
the victory to cooperation between
themselves and Perkins's GVAC
win in the first round.
Perkins and Goldner will go on to
the second round of the nationals
on the June 18-19.

Tourney To Be Held Tomorrow Night
St. Mary Prep will hold its annual
Webster Night, at Webster High
school, on May 5, 1977.
The tournament is open to all high
school teams in the Webster
area. There will be a 5:30 pm,
7:30 pm and 9:45 pm singles.

Vincent O'Leary Selected President of SUNYA

By Stephen Hollow
School of Criminal Justice Dean Vincent O'Leary is the new president of SUNYA, effective April 1.

O'Leary succeeds President James J. Fleming, who will retire on June 30.

The SUNYA Board of Trustees elected O'Leary to the post on Monday.

O'Leary has been with the university for 25 years, serving in various capacities, including as vice president for academic affairs, provost and dean of the Graduate School.

He replaces Fleming, who has served as SUNYA's president for 10 years.

O'Leary's appointment was announced at a special meeting of the SUNYA Board of Trustees.

The board said O'Leary's experience and leadership would be valuable in guiding the university during this transition period.

The SUNYA Board of Trustees has appointed O'Leary as interim president until a new president can be selected.

O'Leary was a member of the SUNYA Board of Trustees for 10 years before being elected to the presidency.

He is currently serving as the university's executive vice president and provost.

O'Leary's appointment comes at a time when the university is facing challenges, including budget cuts and a decline in enrollment.

O'Leary has promised to work with faculty, staff and students to address these issues and ensure the university's continued success.
