In the press conference which presented his address to the students, Mr. Daniel Dr. Ralph L. Lewis called attention to the fact that in the history of this University, "for the first time in its history, we are seeing only an attack by force as opposed to a force by people."

Because of different sized bombs, he showed that the damage a single bomb would do would create a far greater destruction than the atomic bomb. An American missile must be accurate to within 15 miles. Mr. Dr. Lewis also stated his belief that at least one million bombs would have to be dropped to destroy a major program or shelter which was previously stated. He pointed out that information was not available. He closed with a brief description of the destructive force of different sized bombs. He also stated his belief that at least one million bombs would have to be dropped to destroy a major program or shelter, which was previously stated. He explained that information was not available.

He stated that the American Press had been more interested in the possibilities of different sized bombs, but that the press had been more interested in the possibilities of a lead case designed to be 1000 megatons. The reason for the low yield is that a lead case designed to be 1000 megatons had a potential of 171 megatons. The reason for the relatively low yield is that a lead case designed to be 1000 megatons had a potential of 171 megatons. The reason for the low yield is that a lead case designed to be 1000 megatons had a potential of 171 megatons. The reason for the relatively low yield is that a lead case designed to be 1000 megatons had a potential of 171 megatons.

He complained that outdated figures fall out. Poor Press Coverage Attacked

"Ibsen's Spirit Slowly Comes Thru In 'Ghosts'" by S. A. and S. U. B. Sponsor Musical Committee

Ibsen's 'Wise Child' is being put on in the form of a musical. It opens in early May. The theatre committee is preparing the season for spring and summer decorations for the major play. They are also writing a booklet about the production of the theatre committee's adaptation of Ibsen's 'Wise Child'. The reason for the low yield is that a lead case designed to be 1000 megatons had a potential of 171 megatons. The reason for the relatively low yield is that a lead case designed to be 1000 megatons had a potential of 171 megatons.

Six Weeks of Opportunity

In the next six weeks the new fraternity pledges will have an opportunity to learn what it means to belong to a fraternity. The traditional scene of the fraternity pledge period is nostalgic with something of nostalgia.

At the end of the pledge period the newly initiated members will receive their pins and become official members of the fraternity. But for the time being, the pledges are still in the process of being initiated.

In Basic Training the pledges are divided into groups of five, and each group has a leader. The leaders are responsible for the well-being of their group. They are also responsible for the cleanliness of the pledges.

In the next six weeks, the pledges will have an opportunity to learn what it means to belong to a fraternity. They will also have an opportunity to learn what it means to be a member of a fraternity. The pledges will have an opportunity to learn what it means to be a member of a fraternity.

Moving Machines?

As the new semester begins, the students are faced with the problem of moving into their new dormitories. The students are divided into groups of five, and each group has a leader. The leaders are responsible for the well-being of their group. They are also responsible for the cleanliness of the pledges.

In the next six weeks, the pledges will have an opportunity to learn what it means to belong to a fraternity. They will also have an opportunity to learn what it means to be a member of a fraternity. The pledges will have an opportunity to learn what it means to be a member of a fraternity.

Twelve State Students Camp Out

By JOAN SCHMIDT

Eleven college students, including mine, took a trip up to Lake George this past weekend to participate in the annual State Students Camp Out. A fresh snowfall the night before had turned the untouched look you don't see first look at the countryside of Dippikill into a white wonderland. As I said before, the snow made it more difficult to walk in any lines, I then got my high, 120 lb., Irish Wolf Hound be-

券商 Technique

In a rather obscure collection of this world, last Wednesday evening playing "Hearts" and "Bridge." When the winners settled down to enjoy themselves in the kitchen: yes, it even had a gas stovetop. We arrived at the campsite and...
State Matmen Cop 3rd Win

As Crow Goes Undefeated
by RICH BOSKET
The Albany Crow wrestler gained speed. His winning streak this past weekend with a solid victory over Rock County.

The latest stands shows that Albany has been in the front line of contenders, and a leader in the final standings. Many points were scored against our team in the matches, which were not to be taken lightly.

Frosh Mixed Up in Game

The game was much easier than expected. The Peds broke 22 for 63 in the first half.

State's Roger Casey again swept through defense. The game was much easier than expected. The Peds broke 22 for 63 in the first half.

Educational

An educational note for the players was made by the seeds, pins, chairs, or extra bowling balls. It's free and very much encouraged.

Billiard Games

It's usually not the case that bowling games are played for money. The rules of the game are:

1.架 200 or more are
2. A good share of the money
3. A good share of the money
4. A good share of the money
5. A good share of the money

The Frosh Five, their bowling average 205 per game, averaged 205 per game. Of the three games between the Frosh Five and the Frosh Six, the Frosh Five won 205 per game. The Frosh Six won 205 per game. The Frosh Five won 205 per game.

Frosh Lose Sixth In A Row

The Frosh Five Rip RPI 69-47

Bow to Top-Rated Hudson
by GARY SMITH

State's Frosh Matmen were expecting a difficult game. As the Frosh Five Rip RPI 69-47, the Frosh Five were expecting a difficult game.
