Great Danes face tough road to successful year

By Dean Chang

Some of the faces change from year to year, but many things remain constant in the Albany State football program. Beginning his 12th year as head coach, Fred Blatterson wouldn't change any other way.

Starting with the players on the bench, the young line, which includes about half of the team's starting offense and defense, will be a key to the success of the team. The number of experienced returning players is up significantly over last year. The team is much better prepared for the coming season than it was a year ago. Fred Blatterson has been able to bring in several new players from different schools.

The team's biggest asset is that they lost only one player to graduation but gained four new ones. Considering the Great Danes have returned 10 players from the successful 1985 team, the number of returning players is almost as good as the team's previous three seasons.

Great Dane Football Schedule

September 28 SUNY Brockport

October 5 SUNY New Paltz

October 12 SUNY Cortland

November 9 SUNY Buffalo

November 16 University at Albany

To be played at Heritage Park in Albany

Albany netmen seeking seventh straight SUNYAC title

By Katherine Sauer

The special invitees for the Albany State netmen seem to have some help this year. The weather seems to be a little better and the SUNYAC title is over.

The Great Danes' beach volleyball team has been working hard this season to improve their play and win the SUNYAC title. The team has been practicing for the past few weeks to prepare for the season.

The Great Danes have returned most of their starting lineup from last year, including seniors Jay Dermer and Mike Gerber. The team has also added several new players to their roster, including sophomores Dana Schmitz and John Martin.

The team's biggest asset is that they lost only one player to graduation but gained four new ones. Considering the Great Danes have returned 10 players from the successful 1985 team, the number of returning players is almost as good as the team's previous three seasons.

Great Danes' 1985 football schedule

Sept. 28 SUNY Brockport

Oct. 5 SUNY New Paltz

Oct. 12 SUNY Cortland

Nov. 9 SUNY Buffalo

Nov. 16 University at Albany

To be played at Heritage Park in Albany

Frost stress preparation for future careers

By Pam Conway

This September, SUNYA welcomed the Class of 1991. It's a new day, a new era, and a new beginning for its students. Many students are excited about the opportunities that SUNYA offers them.

Despite the initial excitement, there are some challenges that students may face when they arrive on campus. One of the biggest challenges is finding the right fit and being prepared for the transition from high school to college.

SUNYA recognizes the importance of helping students prepare for the challenges they may face during their time on campus. The university offers a variety of resources and support to help students navigate their college experience.

One of the key resources is the Academic Support Center (ASC), which provides academic support and resources to help students succeed.

The ASC offers a range of services, including tutoring, academic coaching, and study skills workshops. These resources are available to all students, regardless of their academic standing or background.

Another important resource is the Career Development Center (CDC), which provides guidance and support to help students explore career options and develop job search skills.

The CDC offers a range of services, including career counseling, resume and cover letter writing, and networking opportunities. These resources are available to all students, regardless of their major or academic standing.

In addition, SUNYA offers a variety of other resources and support to help students transition to college life. These resources include orientation programs, residential life services, and support for students with disabilities.

SUNYA is committed to providing a supportive and inclusive environment for all students. The university recognizes that students come from diverse backgrounds and experiences, and it is dedicated to helping them succeed academically and personally.

SUNYA is committed to providing a supportive and inclusive environment for all students. The university recognizes that students come from diverse backgrounds and experiences, and it is dedicated to helping them succeed academically and personally.

"Pass law" reviewed

(AP) The White House yesterday sought to clear up a storm of confusion surrounding new controls on political activities by groups abroad, which some critics have called a "pass law." The White House said it would not be used against citizens or charities foreign to the United States.

**SUNY gets a taste of freedom**

By Ken Dombbaum •

In a move that signals a new era for the State University of New York," according to SUNY Chancellor Frank L. O'Leary, legislation has been enacted to address recommendations of a recent report by the Commission on the Future of the State University.

The report, entitled "The State University of New York: A New Era," was released on Sunday, January 6. While the report predicted SUNY's progress, it also contained a list of the university's most pressing issues.

First moves were signed by Governor Mario Cuomo, according to John Cohan, academic vice president for Research and Educational Development.

The university's new chancellor, O'Leary, was appointed by the SUNY Board of Trustees in May. He was formerly the Acting Vice President for Research and Educational Development.

SUNY Chancellor Frank L. O'Leary said he has no intention of running for a third term as chancellor. He said he plans to retire in 1993.

**Admin. streamlining will have future benefits**

We're not sure if the superintendent and coordinators are as excited about the new phone system as the students are. A recent survey of the students revealed that they were very pleased with the new system. However, the faculty and staff have yet to see any improvements in the service. The new phones are not only more expensive, but they also require additional training for use. Despite these challenges, the students remain enthusiastic about the new system.

By Parke Davis

The new phone system has been implemented at the University of Arizona. The changes have been met with mixed reactions from the faculty and staff. Some have expressed excitement about the new features, while others have concerns about the increased cost and potential for errors.

**Unlimited stress**

Researchers found that there is an academic pressure among students at SUNY that students experience during college. They noted that students are under a lot of pressure and are constantly on the lookout for sales, specials, or interest rates for the upcoming semester. Gary Larson's cartoon, which appeared in this article, humorously illustrated the stress students face. The ASP also offers a variety of events to help students relax and manage their stress, including workshops, counseling services, and stress management programs.

**AIDS groups form**

The AIDS Council of New York plans to create making groups for well individuals who are aware of AIDS and its implications. The purpose is to provide support for the individuals who are aware of AIDS and its implications. The groups are intended to provide support for those who have been affected by AIDS, and to provide a forum for discussion and support. Members will be able to meet and discuss their experiences, and will be able to receive support and guidance from other members of the group.

**Disabled seek help**

The Albany-based Center for the Disabled is looking for individuals who are willing to help with volunteer work. The center is seeking people who are interested in helping disabled people with daily tasks such as cooking, cleaning, and errands. Volunteers will be able to help disabled people with activities such as reading, writing, and playing games.

**Pull-offs permitted**

Visitors to the University will now be able to park in the lot. Pull-offs are being made available by the University's administration. Visitors will be able to park their vehicles in the designated area, and then walk to their destination. This change is being made in order to improve the flow of traffic on campus, and to make parking more convenient for visitors.

**Directories due when?**

Student directories will be available by October 30. The directories will contain information about the University's facilities, services, and programs. The University is looking for anyone who is interested in helping with the distribution of the directories. Volunteers will be able to help with the mailing and delivery of the directories, and will be able to receive training on how to use the directories.

**Weekend of the arts**

The Office of Programs in the Arts will sponsor a new event program called the Albany Student Press Open House. This program will feature a variety of performances and exhibitions, including music, dance, poetry, and visual arts. The event will take place on Saturday, November 2, from 2 to 4 p.m. at the Student Union Building. The event is open to the public, and there will be no charge for admission.

SUNYA student pleads innocent in case of chalked divestment graffiti

A 21-year-old SUNYA student was arraigned Thursday on a charge stemming from an arrest for scribbling slogans on the SUNY Central building in downtown Albany.

Scott Palmer, currently on a leave of absence from school, was arrested Wednesday at 4:43 p.m. by security officers who accused him of writing a half-dozen slogans on the sidewalk in chalk, protesting SUNY's investments in companies with interests in South Africa.

During his arraignment at Albany Police Court, Palmer entered an innocent plea and will reappear with his attorney September 19.

Reported in the Albany Times Union.

STUDENT ID GETS YOU 10% OFF
Now you can have a roomate you're guaranteed to get along with. And all you have to do is call Granada TV Rental. At Granada, companionship comes cheap. When you rent till the end of the school year, your student I.D. gets you a Magnavox, RCA or Hitachi color TV for as little as $13.45 to $23.35 a month. A VCR for as little as $17.95 to $22.95 a month. And our incredible combo offer—a TV & VCR and stand—for just $29.95 a month.

Make your payments with a major credit card, and you'll save another $300 a month. And, let's face it, you don't have to have a PhD in economics to realize they're the best deals around.

What's more, our low rates also include free service and repairs, usually within 24 hours. So give us a call today and let us set you up with an ideal roommate. Just think, if it ever gets on your nerves, you can simply shut it off.

Getting students to vote

As you might have guessed by now I am one of those people who have been trying to get students to the polls. This has been no easy task. The obstacles are many - from lack of interest to fear of the unknown. But I believe that we can make a difference.

One for the Rose

Pet Rose has always been the type of person to put in 100 percent. He didn't walk to class, he ran for miles. That's why I admire him so much.

Two days ago, Rose got hit by a .452 double header at the University of Central Arkansas. He had five hits in one game and four in another. His batting average is now at .467. I think that's amazing. I've never seen anyone hit .452 before. And Rose has been doing it for years. He's been a consistent performer for as long as I can remember.

By the way, I didn't see the Rose-Kern game. I was at a meeting that day. But I heard about it later. I'm sure Rose played well. He's always been a star.

MORE THAN APPLES AND HONEY

It is customary to eat apples dipped in honey on Rosh Hashanah to express our wishes for a sweet New Year.

But we can't depend on good wishes alone in a difficult world where life isn't always apples and honey.

Unlike the secular new year, Rosh Hashanah has a unique mood of its own. It is happy and festive, but without frivolous partying and merry making. We take Rosh Hashanah seriously. Rosh Hashanah is the time for prayerful introspection, to become better ourselves for a better new year.

That is the message of the Shofar—the ram's horn that is blown on Rosh Hashanah. According to the great Malbim, The sound of the Shofar is a Divine commandment which carries a message. The shofar calls...Awake you sleepers from your sleep, and arise. Search your deeds, repent and remember your Creator...do not forget the Truth in passing...wasting time without accomplishment...search your souls and improve your ways...Everything hangs in the balance. Even a single mitzva can save a person and the whole world...

We may all hear the Shofar on Rosh Hashanah—but are we listening?

Best wishes for a very sweet and happy New Year.

Danes seek to break injury jinx against Ithaca

By John Keenan, Suny Academic
deleu

The Albany State Great Danes and the Ithaca Bombers have some excellent running backs to line up against each other.

In the first game of the Danes' 1984 campaign, as recent SUNYAC Hall of Famer, Bob Ford, and his team opened the season with a big home win.

With no experience at the position, the Bombers had to line up one two-thousand-yard rusher, and two thousand-yard rusher.

With Washington's starting line, the Danes had to line up one thousand-yard rusher and a thousand-yard rusher.

'Ithaca has an excellent running back, but our personnel are much better prepared,' Ford said.

Ford added, "We haven't emphasised the running game, and we think we can do quite as well preparing the Danes for a running battle against Ithaca."

The Danes, after the New Hampshire victory, meet the Bombers Saturday, the Bombers last game of the regular season, and the Danes last game of the season, and the Danes last game of the season.

A big factor in Albany's victory was the running game, and the Danes have been very active in preparation for this game.

The Bombers have been very active in preparation for this game, and the Danes have been very active in preparation for this game.

Starting the game for the Danes was senior quarterback Jeff Russell for the first time in his last 11 years as coach.

Russell went 4-5 on the rest of the season, mostly due to the inexperience of the quarterbacks.

Albany's starting linemen are rated on their last four outings, according to Ford.

Ford said, "I'm not in a factor in that part in the way, I'm taping the players and trying to get them to play at their best.

Ford stressed the importance of keeping the Bombers off balance.

"There's no resentment on our part," Ford said. "I think early for the Bombers when they come back to play at the Danes.

Ford offered some excellent reasons not to like the Bombers.

"In the end, I'm in this game," Coach Ford said.

The game was actually a lot closer than Ithaca's defense, however, with the graduation of inside linebacker John Valentine, there is a question as to whether the Bombers defense will remain as strong as it was in the past.

According to Ford, Mike Milano will be Mike Milano and will be the Bombers defensive leader again.

"Milano is very consistent," said Ford. "I think early for the Bombers when they come back to play at the Danes."

"Milano is very consistent," said Ford.

"I'm in this game," Coach ford said. "I think early for the Bombers when they come back to play against the Danes."

Game results on page 18.

Dane booters blanked

By Cathy Eng, Suny Academic

deleu

The Danes scored four touchdowns in an easy 19-0 victory over Oswego.

The defense is the only place the Danes were able to get a solid performance.

Frontline will be dominated by freshmen, with Erik Pfeiffer doing the job.

Pfeiffer went 4-1 in last year's team, and was named as a starting quarterback.

The defense is the only place the Danes were able to get a solid performance.

Defensive lineman Chris Esposito readies himself for the upcoming challenge against Ithaca.

When I come to SUNYA this fall to work on the student press on Wednesday, September 18 at 8:00 pm in LC 19.

Welcome to the many aspects of Aspects.
Summer Cinema '85

John Keenan and Ian Spelling

The summer of 1985 provided more than the average number of good films. Though the usual romantic comedies failed to generate much interest at the box office, many other pictures proved to be a delight. Among the films released in the summer of 1985, the two, Kasden's *Pale Rider* and Robert Zemeckis' *Back to the Future*, were highlights of '85 (no, not Godzilla) which reached what could have been its modern day apogee. Though *Back to the Future* was a positive treat, and together they combined to make us forgive the fact that young William Zabka played the role of Mike. It's all in fun - but it's not an easy task to come up with a movie which poked fun at Romero, was actually quite funny than his jokes. The differences (and similarities) between 1955 and 1985, because the third part of George Romero's *Day of the Dead* trilogy. Originally titled *Beyond Thunderdome*, *Pale Rider* featured real dialogue and a real gore film. Though *Beyond Thunderdome* featured real dialogue and a real gore film, which poked fun at Romero, were actually quite hilarious turn as Dr. Emmett Brown, the inventor of the time travel device, only to disrupt his parents first marriage. As a result of *Ghostbusters*, Fox has skipped over to the big screen with remarkable ease. He picks his popular sitcom, but as a boy fighting off the ad mannequins who were either Bad Guy Fascists or just plain putzes. The biggest weakness of *Day of the Dead* was its lack of soul. The biggest weakness of *Day of the Dead* was its lack of soul. Eastwood did give the movie some touches of '60's. Eastwood's attempt to revitalize the genre seems like it'll be remembered. nacho Mannequin, a drifter who has been on the wrong side of law and gravity against him, it's time to infuse some fresh blood and original ideas into the Dead squads.

The return of Bill Murray as the wunderkind, who was deftly portrayed by a young William Zabka, who played the role of Mike. It's all in fun - but it's not an easy task to come up with a movie which poked fun at Romero, was actually quite funny than his jokes. The differences (and similarities) between 1955 and 1985, because the third part of George Romero's *Day of the Dead* trilogy. Originally titled *Beyond Thunderdome*, *Pale Rider* featured real dialogue and a real gore film. Though *Beyond Thunderdome* featured real dialogue and a real gore film, which poked fun at Romero, were actually quite hilarious turn as Dr. Emmett Brown, the inventor of the time travel device, only to disrupt his parents first marriage. As a result of *Ghostbusters*, Fox has skipped over to the big screen with remarkable ease. **SASU press released from jail Friday morning**

By James Brown

Three SUNY students were released from jail Friday morning after a seven-hour trial in which they were found guilty of disorderly conduct. The students — two from the University of Albany and one from SUNY Plattsburgh — are accused of participating in a protest against South African apartheid.

The trial began on August 15, and all four students were found guilty of disorderly conduct in 15th District Court. The defense argued that the students were simply exercising their constitutional rights, but the judge ruled otherwise.

The students were sentenced to 15 days in jail and ordered to pay a fine of $100 each. They were also ordered to write an essay on the issue of apartheid and submit it to their respective colleges.

**Building Bubble**

By Evan Weintraub

College officials have announced that they will build a 288 Lark mini-athletic arena to be built between the gym and the Indian Quad tennis courts. The facility will be a mini-athletic arena for students who wish to stay active without leaving campus.

The bubble will be a unique project that will keep the vinyl-nylon in place during high winds and will resist wind and water. According to Stevens, the bubble will be installed in the summer and will be ready for use in the fall.

The bubble will be a bubble-shaped structure that will house four basketball courts, two track lanes, and a mini-athletic arena. According to Stevens, the bubble will be a unique project that will keep the vinyl-nylon in place during high winds and will resist wind and water.
