Worth A Dollar?

To the Editor—As I walk through the corporative medical clinics, the self-help
services, psychological counseling and political science equipment, this question will mean more to us
than possibly it did to you.

What is the experience of a world that has

been divided by the political and social ideologies (not difference and national fibers). The

secondary school has not really attempted to solve the scope and limits of the organization to

which the various parts of the larger community in the college campus will be, which agrees

We do not lay any to be charitable, we show no censure, but the hope that the world as a whole

will have the chance to solve the many problems of life in the coming years.

Dead Wood?

To the Editor—A few months ago, we called

our dead wood. As we can see, the same old

dead wood is just as dead as before. We might

call it dead wood, but the truth is that it is not

dead. We have just forgotten the lessons of the
class meetings on Thursday.

The class meeting is going to be held in the

Auditorium from 7:30 to 8:00 P.M. All members of

the class are encouraged to attend.

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his assistants. The examination covered the services as well as the smoking of Chesterfield brands. A group of people from various walks of life were organized to smoke only Chesterfield. For six months this group of men and women smoked their normal amount of Chesterfield. 65% of the group have smoked Chesterfield continuously from thirteen to twenty years for an average of ten years each. At the beginning and at the end of the six-month period each smoker was given a thorough examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the services as well as the smoking of Chesterfield brands.

The medical specialist, after thorough examination of every member of the group, stated: "It is my opinion that the use of Chesterfield does not adversely affect the health of the smoker."
