Dr. Harold W. Thompson Talks of Merits of Faculty and Student Body

Dr. Harold W. Thompson, professor of English, spoke on "What I Like About State College in the English Department." The first thing I like is the proper balance you have between work and play. It is a matter of fact that we have more hours than at coeducational colleges, but at the same time, the students do not feel they have indulgences for marks above a C."

Dr. Thompson said. Indicative of the same balance, is one idea of sport in common with the smaller men's colleges, and the British universities. The second thing Dr. Thompson mentioned was the achievement of our students in college and after they graduate. The work of the News award for the past eight years, and the work of the Fests, which is clearly first rate, are examples. The fact that our debating teams have made such marks as Bismarck shows that we are not afraid to meet the big teams. Dr. Thompson said, it is a thing to be proud of. Dr. Thompson believes this is a part of the reason for the lack of training and degrees."

Dr. Thompson said. And what of fundamentals between the faculty? The answer is Stoics."

"The last thing that we go to tea with is the spirit of the company is only one example of the importance of the English faculty, too, is something to be proud of, Dr. Thompson believes, when we go to tea with."

Marion Dillenbeck, '31 Announces Committees
Marion Dillenbeck, '31, president of the G. A. A., announced the following committees for Inter-Fests. Fall Inter-Fest, Winifred Rommel; Winter Inter-Fest, Maureen O'Sullivan; Spring Inter-Fest, Robert Montgomery. The Inter-Fests will be held on Friday night and Saturday night, March 21 and 22.

Dr. Harold W. Thompson agrees that the first thing I like about State College is the proper balance you have between work and play. It is a matter of fact that we have more hours than at coeducational colleges, but at the same time, the students do not feel they have indulgences for marks above a C."

What the NEW HUMIDOR PACK means to Camel Smokers*

COMPARE a package of Camels with any other cigarette and note the difference in the technique of packing.

Note that Camels are completely enclosed in an outer transparent cover of moisture-proof cellophane and sealed air-tight at every point.

We call this outer shell the Humidor Pack. It differs from the ordinary cellophane pack and while it is egg-shell thin, it means a lot in terms of cigarette enjoyment.

It means, for instance, that evaporation is checkmated and that Salt Lake City can now have as good Camels as Winston-Salem.

While Camels are made of a blend of the choicest Turkish and mildest domestic tobaccos, it is highly important, if you are to get full benefit of this quality, that these cigarettes come to you with their natural moisture content still intact.

The Humidor Pack insures that. It prevents the fine tobaccos of Camels from drying out and losing any of their delightful flavor.

Aside from cheap tobacco, two factors in a cigarette can mar the smoker's pleasure:

Fine particles of peppery dust if left in the tobacco by inefficient cleaning methods sting and irritate delicate throat membrane.

Dry tobacco, robbed of its natural moisture by scorching or by evaporation gives off a hot smoke that burns the throat with every inhalation.

We take every precaution against these factors here at Winston-Salem.

Switch your affection for just one day, then go back to your old love tomorrow if you can.
