Assorted Role Questioned

The acting chairman of MYSKANIA, Dr. Bill Colgan, and his communications media, have attempted to assume the role of authority on the campus, and to this we say no! The function of a student organization on this campus is to provide services and to foster activities that benefit the students, not to dictate what is or is not appropriate for the entire student body. As students, we have the right to express our opinions and to participate in the decision-making process of our campus life. The communications media of this university have the responsibility to report accurately and fairly on events and issues affecting the campus, not to censor or control what is being said.

We believe that the MYSKANIA proposal for censorship is a threat to the freedom of student expression on this campus. We urge the university administration to reject the proposal and to support the free exchange of ideas and information. We also call on the university to provide adequate resources and support for the communications media to perform their duties effectively and without interference.

The Communications Media Committee of the university has a responsibility to protect the rights of all members of the campus community to express their opinions and to receive information. We support the committee's efforts to ensure that the communications media of this university are free from censorship and that they maintain the highest standards of accuracy, fairness, and professionalism.

We believe that the university should support the free exchange of ideas and information on this campus, and that the communications media should be free from censorship. We urge the administration to reject the MYSKANIA proposal and to support the free exchange of ideas and information on this campus.

This proposal was submitted by Students for a Free Press, a group of students dedicated to the freedom of student expression on this campus.

MYSKANA has ruled that "SCOPE has violated its organizational recognition statute and has recommended that "SCOPE's organizational recognition be rescinded immediately."

If so doing, MYSKANA has not only employed a ridiculously narrow interpretation of the statute, but has completely ignored the more important issues involved.

Under MYSKANA's interpretation, SCOPE's very existence on campus is in violation of its recognition statute, unless it avoids any attempt to identify itself as a unit operating on the SUNYA campus. It does not enforce its laws might as well as to change these laws if they would be committed.

Itself as a unit operating on the SUNYA campus, it has condoned a violation of law by its inaction.

The Statute was originally put into effect to assure that SCOPE's policies would not be attributed to the general student body. The Court comes close to denying recognition completely.

There can be no half-way terms recognition and non-recognition. Once the group is recognized as able to operate on the SUNYA campus, it has the right and the responsibility to identify itself as such.

We therefore recommend to Central Council that it rescind the wording of the statute "that the activities of the representatives of this group shall not be construed in any manner as general policy of the SUNYA", and allow SCOPE the freedom to conduct its campaign and activities responsibly and effectually.
