Tremendous Trivia

Commissar Watt

Our question this week is to show the underside of the Lincoln coin. Though it doesn’t appear on our present coinage, the Lincoln cent is the oldest of our present coins. An oddity of the coin is its reverse side. It is reminiscent of an old coin, the Indian head cent. The reverse of that coin was a profile of an Indian head, and the obverse, or face, was the same as the Lincoln cent. The reverse of the Indian cent was obtained by reversing the obverse. The result was a coin that was similar to the Lincoln cent.
