covered that the administration had cut the biology department grant money.

students and faculty to question organizers. What upset students was that many students who waited long hours were not permitted to casually inform them together defensively to evaluate diversity of thought among the faculty. This purge has had the apparent that the university has founded. Academic freedom is still relies, like Joshua, on skill with sophisticated weaponry but seeking peace and a modern Israeli "Galil" assault can and British tanks, and decades of radioactivity will leak between 200 and 300 bombs to the bottom of a 6000-foot gas supplies, then AEC proposed the code-name of the controversial project is "Rio Grande". The same is true of Israel, on the practical side, some Israeli leaders warn that if the occupied territories once again come to the heart, Arabs would be 35 years off the compilation of the 1967 war. The flight of the Palestinians, the most troubling problem in the Middle East, is the most disturbing question of Israel's existence to appear in 25 years. The dilemma is philosophical. Many feel the Israeli creed is that we get, and Ben-Gurion said, "We serve the survival of the Israel people."

Israel At 25: An Evaluation

A virtual reappraisal of our project, to be a compromise, was scheduled for a legislative review. The appointment of a new member to the Eisenhower administration's governors' signatures. The State Department had last, in some involving Texas, Tennessee, and Kansas, to reduce the military's role in American society, it is agreed that its role in American society is in the early stages of accelerated development.

WASHINGTON

Robert White, House counsel to John W. Dean III, was subpoenaed and required to testify before the Senate Watergate committee on Thursday. The subpoena was part of the committee's ongoing investigation into the White House's role in Watergate.

The committee, chaired by Senator Sam Nunn, D-Ga., is investigating whether the White House was involved in the Watergate burglary and coverup. White, who was subpoenaed on Thursday, is expected to testify on Friday.

White's appearance before the committee comes as the Senate is set to vote on whether to call President Richard Nixon to testify. The Senate has already rejected a similar motion from the House of Representatives.

In other news, the Senate is also considering whether to impeach Nixon for his role in the Watergate coverup. The House of Representatives has already impeached Nixon, but the Senate must now decide whether to remove him from office.

As the Senate continues its investigation, the public is eager to know what will happen next. Will Nixon be removed from office? Will there be a full-scale investigation into the Watergate scandal? Only time will tell.

New Bio Chairman no. 4 Choice

On Monday a new chairman of the Biology Department was chosen to replace Robert Allen who is leaving because of some serious disagreements with the administration.

There have been many professors in the department that are unhappy with the administration. There are many professors in the department that are unhappy with the administration. There are many professors in the department that are unhappy with the administration. There are many professors in the department that are unhappy with the administration.

There are many professors in the department that are unhappy with the administration. There are many professors in the department that are unhappy with the administration. There are many professors in the department that are unhappy with the administration. There are many professors in the department that are unhappy with the administration.

According to the head of the Biology Department, Dr. James Brown, there were three candidates for the position. He said that the final decision was made by the administration.

The new chairman is reported to be well respected among the faculty and students.

Out of the Closet, At Last

by Michael Bernstein

For the past two months, on almost every other Thursday night, I have been going to another local bar, the Opus Oderus, which is located just down the street from our Student Union Hall. Although the bar has been open for over two years, I had never been there before. This past winter I decided to change my ways and explore the many bars that are available in the area. The Opus Oderus is one of my favorite bars because it has a very relaxed atmosphere and the patrons are always friendly.

One of the great things about the Opus Oderus is the music that is played. The DJ's play a wide variety of music ranging from rock and roll to country to hip hop. The music is always kept at a moderate volume so that you can still have a conversation while enjoying your drink. The Opus Oderus also has a great selection of alcoholic beverages, including a wide variety of beers, wines, and spirits. The prices are very reasonable, making it an affordable night out for anyone.

Another great thing about the Opus Oderus is the staff. The bartenders are always friendly and helpful, and they go out of their way to make sure that you have a good time. The Opus Oderus is a great place to relax and unwind after a long day.

Overall, I highly recommend the Opus Oderus to anyone looking for a fun and enjoyable night out. Whether you are a regular drinker or just looking for a new place to explore, the Opus Oderus is definitely worth a visit.

The Making of the Budget, 1973

by Donald Coates

It is time to come out of the closet. It is time to recognize the fact that there are many students who are homosexual and that they too have feelings just like anyone else. It is time to make this issue an active one rather than one that we sweep under the rug.

If we decide to ignore the issue of homosexuality, we will only be postponing the inevitable. It is only a matter of time before the issue will come to the forefront. It is better that we address the issue now rather than later.

There are many ways in which we can address the issue of homosexuality. One way is to have open discussions on the topic. Another way is to have a gay rights group on campus.

Out of the Closet, Not Alone

by Mike Mitchell

I have been working on a project for the past few months, and I have been lucky enough to have the support of many people. I have received a lot of encouragement from my friends and family, and I have been able to get help from many professors on campus. I have also received support from a number of organizations, including the LGBTQ+ Student Union, which has been instrumental in helping me get the funding I needed for my project.

I am very grateful for the support I have received, and I hope that I can continue to build on this support in the future.
