We know... don't we

You bet... we do

CHESTERFIELDS go right along

We know... don't we

You bet... we do

CHESTERFIELDS go right along

CHESTERFIELDS... they'll give you MORE PLEASURE

Milder

Better Tasting

...because they're made of MILD Ripe tobacco

Chesterfields go right along with smokers... giving them the kind of a smoke they want... in the way they like it best.

Chesterfields are refreshingly milder... they've got a taste that smokers like. Chesterfields are different from all the rest... THEY SATISFY.

Interest Russ Ramspeck Over Queen's Identity

When Miss Russ Ramspeck, reigning queen of the 1937 Homecoming, was introduced, there were many who thought her identity was not correct. Miss Ramspeck, who was born in 1925 in Utica, N.Y., and is a junior in the School of Home Economics, was originally Miss Helen Ramspeck, who is a senior in the College of Arts and Sciences.

The Ramspeck identity was changed after Miss Ramspeck was crowned queen. She has been identified with the Ramspeck family ever since.

Since Ramspeck was a senior in the College of Arts and Sciences, it was thought that her identity was not correct. She was identified with the Ramspeck family ever since.

We have had many changes in college life in recent years. The Ramspeck identity was changed after Miss Ramspeck was crowned queen. She has been identified with the Ramspeck family ever since.

State Graduate in West Indies Tells Interesting Experiences

Robert Shaw, a graduate of the State University of New York at Albany, has recently returned from a trip to the West Indies. He was accompanied by his wife, who is also a graduate of the State University of New York at Albany.

Shaw has been working on a project for the United States Department of Commerce, which is interested in the development of the West Indies. His work has included the study of the economic and social conditions of the islands, as well as the development of new crops and industries.

In his report, Shaw stated that the West Indies are a rich source of natural resources, including minerals, timber, and tropical fruits. He also noted the progress being made in the development of new crops, such as rubber and cocoa.

Shaw's report is being used by the United States Department of Commerce as a basis for further investigations in the West Indies. He hopes to return to the area in the near future to continue his work.

Faculty to Attend Education Meetings

Professor A. B. Clark, dean of the College of Education, will attend the annual meeting of the National Association of Colleges and Universities on November 15 in New York.

Professor Clark will represent the State University of New York at Albany at the meeting, which is being held to discuss educational policies and problems.

He will also attend the annual meeting of the American Association of Universities, which is being held in Washington, D.C., on November 16.

Professor Clark will return to Albany on November 17.

Campus Days in Previous Years
Have Presented Varied Events

It was on October 30, 1936, that the first annual assembly was held on the campus, a day of sports, music, plays, and dances which were the culmination of the Student Association's efforts to bring a sense of unity to the college.

The Student Association had been formed the previous year, and its leaders hoped that the assembly would be a way to bring the various groups on campus together. They planned a day of fun and activities, including a football game, a dance, and a variety of performances by the student groups.

The day was a success, and it was decided to hold the assembly again the following year. Over the next few years, the assembly took on new forms, with different groups taking on leadership roles.

In the 1930s, the assembly was a way for the students to have a voice in the running of the college, and it was also a way for them to socialize and have fun. It was a time when the college was undergoing a period of change, and the assembly was a way for the students to take an active role in the process.

As the years went by, the assembly evolved, with different groups taking on leadership roles and bringing new ideas to the table. It became a way for the students to express their opinions and to have a say in the running of the college.

The assembly is still an important part of the college's calendar today, and it remains a way for the students to come together and have a good time.
