State College
BEAT SIENA!

Cagers Top Hamilton Five, Face Siena Squad Tonight

In what may very likely develop into a rivalry that will parallel the St. Pat's-Hamilton contests, the Colgate Siberian of State College for the first time tonight on the Page hall floor.

State Chemists Win Third in Row

Among other things that will happen tonight, will be the third consecutive win of the State Chemists over the Hamilton Five. This year State College is determined to make the Chemists identify with the faculty of the State instead of with the Siena College in the annual retreat and corporate meeting of the National Chemical Foundation, which will take place during the period of State College's spring semester.

Suffer Third Straight Loss Over Fordham

Touche!

A Friend in Need

Words in black and white may seem effective; but as the old song says, 'a friend in need is a friend indeed.' Lest we forget; let's act! Consequently, ideas that might have spelled success shows that it can be done!

The Siberian, the year after its first affiliation with the American Chemical Society, now enters into the annual meeting of the society, which will be held at Colgate University this summer. State College has not been a member of the American Chemical Society before, but the Siberian has a active and well organized group of students who are interested in the chemical sciences. The club is very active and is doing a lot of work.

First Conquest

One of the most important events of the week was the first victory of the State College basketball team over the Hamilton Five. The game was played on the Page hall floor and was attended by a large and enthusiastic crowd.

In his conversations, he sought to
renewing old ones was Mr. Bulger.

Syracuse, December 27-29.

The theme of the principal's con-
tinuation of the country. He comes to
in Columbus, Ohio, is making an
appearance later this year.

The local committee of the
NHWS has magnanimously refused
their request for an increased
budget. However, they will continue to
assist in the annual trip conducted to study
the current political situation in Eu-
rope.

And now for the questionnaire-
naire. The following are the initial series presented:

1. What is your name?
2. Where do you live?
3. What is your favorite color?
4. What is your favorite food?
5. What is your favorite sport?

Amendment Bill
Fails to Secure
Student Approval

Constitutional Interpretation
Quickly Blocks Passage
of New Measure

Opponents replied that the very
use of the word "dynamite" in the bill is
a clear indication of its intent to
overshadow the true purpose of the
legislation.

To summarize, the students have
once again shown their determination
to protect their rights. The amend-
ment bill will not be discussed further in
this session of the legislature.

Walker Comments on Vacation; Talks About New European War

The single most important event
of the past year was the outbreak of the
European War. The students have
been actively involved in supporting
the war effort, with many enlisting in
the armed forces.

In his opinion, the war has
brought about a change in student values.
The old laissez-faire attitude has been
replaced by a sense of duty and
responsibility. Students now see
education as a means to an end rather
than an end in itself.

However, the war has also
caused some difficulties. The
availability of courses and
instruction has been reduced, and
there has been a widespread exodus
of students from the country to
join the military.
