Tennis team bounces back with two shutouts

By Kelly Lavine

The 9-2 Danes have a tough remaining four games, but because of missiles situated in the area "a feeling it is ok to be aggressors."

The members of the U.C. Executive Board "has been fudging [the ticket revenues]," said Rich Schaffer in reference to the allegations.

For University Cinemas, President Bill Braddock, Treasurer Rich Schaffner, and SA Vice President Jeff Schneider stressed that they will "be looking at ways of changing the way the university does operations."

"The Reagan administration is leaking information about the war in Central America, and the whole issue of the arms, he said."

"I think there's enough information to go to a District Attorney and I think the SA here goes around proclaiming the information is not there," said Schaffer.

"But I think the students are being misled by the little lot of people," said Rich Schaffner.

"Our history because of the possible consequences of nuclear war if it were not for human intervention," Chomsky explained.

"The situation of missiles in the area is 'a feeling it is ok to be aggressors,'" he said."

"I played well in the first set but seemed to lose some confidence as the match progressed. It's really disappointing," said the coach. "We will have to work harder to get out of it (the slump). I guess it's just something that happens."
Workers riot at rallies

WASHINGTON, April 30 - Police fired tear gas to disperse thousands of strike workers in West Virginia today, after two days of rioting in which state troopers used nightsticks and batons to beat demonstrators. 

The state police also announced that they would continue to use nightsticks and batons against the workers until the strike is ended. 

The strikers, who are demanding better working conditions and higher wages, have been picketing for two days. 

Party boss found guilty

WASHINGTON, D.C., April 30 - The judge found James Naughton, a Democratic Party official, guilty of accepting bribes from a wealthy businessman. 

The judge said that Naughton had accepted $50,000 in cash from the businessman in exchange for political favors. 

The businessman, who had previously been convicted of fraud, had offered to help the businessman if he would help him win re-election. 

The trial, which lasted for two weeks, was held in a federal courthouse in Washington. 

Satellite tests successful

WASHINGTON, D.C., April 30 - The United States successfully tested a satellite today, demonstrating its capability to launch and operate satellites in space. 

The satellite, which was launched from a rocket, was successfully placed into orbit and is now functioning properly. 

The test was conducted by the National Aeronautics and Space Administration (NASA). 

WASHINGTON PARK party held despite objection

ALBANY, N.Y., April 30 - The Albany Student Association (ASA) has decided to hold a party at the Student Union today, despite objections from the city. 

The ASA had planned to hold the party on campus, but the city officials had objected to the event, citing concerns about noise and disorder. 

The ASA had appealed to the city, but their request was denied. 

Public protests continue

ALBANY, N.Y., April 30 - Public protests against the university's decision to hold the party continue today. 

Many students and faculty members have expressed concern about the party's potential to disrupt the campus and create a negative atmosphere. 

The university administration has defended its decision to hold the party, stating that it is a right of the students to express their views. 

New York loses jobs

NEW YORK, April 30 - New York state lost 72,000 jobs in the first quarter of this year, according to a new report. 

The report, released today by the state labor department, states that the job losses were due to a decline in manufacturing and construction. 

The state's unemployment rate rose to 7.5 percent, the highest in five years. 

Attacks lead to new focus on women's safety

ALBANY, N.Y., April 30 - Police have arrested two men for attacks on women in Albany. 

The attacks were reported near the University of the State, and the men have been charged with assault and battery. 

The university has also decided to increase security measures on campus. 

Appropriateness of foundation's spending investigated

ALBANY, N.Y., April 30 - A review of the Foundation's spending has been ordered by the state attorney general. 

The review follows allegations of mismanagement and waste of funds. 

The Foundation is a nonprofit organization that provides scholarships and grants to students. 

The review will be conducted by a team of independent auditors. 

The Foundation has been under scrutiny due to its high executive salaries and its spending practices. 

The review is expected to be completed within six months.

**Professor leads attempts to harness the wind**

By Mark Misko

Many students have gained practical experience working for American Student Moving. For one, they may look to their experience as part of their college career. As a junior at Barry University, John Blount, a junior at Barry University, said that his internship at American Student Moving was a valuable experience. "I was really able to put together potential laws," he claimed. "I was really a part of the process and my work was recognized." In a sense, said Greener, "I helped put together potential laws." As a result, he was able to contribute to the state legislature where students get credit, by extending their practical career experience in the field in which there has been little experience in the past.

**Interns extend education outside**

Wagoner Dances At The Egg

Dr. Wagoner, a Davenport resident, gazed upon the ballroom floor with a twinkle in his eye. "I've been dancing since I was a little boy," he said, "and I just couldn't resist the invitation to break out in a stylish display of dance moves." The crowd, transfixed by his graceful movements, couldn't help but wonder if Wagoner had secretly been practicing for a long time.

Welcome To The Chateau

As far as what lies ahead for the Chateau, the options are unlimited..."jazz shows country music, mud wrestling," ponders Reilly, "these are just some ideas I have.

She Stoops To Success

"It happened that one who was an acquaintance of mine, Mrs. Marlow, was at the hotel. She was returning to the classic garden drama, 'She Stoops To Success,' which is set in the 19th century and features a leading woman who must overcome societal norms to achieve her goals. We had a wonderful time discussing the play, and I decided to incorporate it into our repertoire."}

Martha Is Missing Something

"The person I'm looking for is someone who has a gift for music, particularly the guitar. Martha is missing something that's important to her, and I believe the guitar could help her find it."
Smell the flowers

The world's attention is currently focused on the arms race and its implications. The deployment of Pershing II and cruise missiles in Europe, at sea, and on land for war against Russia, has cost over 2,000 lives and at least $100 billion. According to the US government's own statistics, the US has deployed Minute Man III missiles and installed Trident I missiles as part of the nuclear triad over the past decade, including advances in their military capability over the past several years. The US's proposal is for Europe completely free of nukes, but the Soviet Union wants to maintain its military capability.

Guest events and springtime parties are often scheduled, and sometimeskek's Tinsel of Albany's political arena. We applaud the decision of the US government to suspend nuclear testing and to seek arms control agreements. Yet, it seems that if a lie is repealed enough times, at least some people will believe it.

Community reactions to racism

Some of us wonder whether the world is truly safe for the vast numbers of oppressed people who are living in poverty and suffering under the weight of discrimination and oppression. The reality is that the world's most powerful nations are denying the human rights of millions of people around the world.

Truths about the arms race

The costs of the arms race continue to mount as nations spend billions of dollars on military hardware and systems. The United States, for example, spends more on its military than the next 14 countries combined. However, we believe that the costs of the arms race are too high and that we need to find a way to reduce it.

Mitchell Cohen

The letter purports to be a response to an editorial by the editor in chief of the ASP. It seems that the editor in chief is not paying much attention to the editorial.

ENJOY!

Special Olympics is a success

By Mark Levine

Patriotism is the spirit of the nation, tennis and other activities. 250 men, women and children gathered last May at SUNYA, and now there are plans to make it an annual event to benefit the Special Olympics.

The participants competed in events such as the 100-meter dash and softball, as well as in their respective team events. The participants were also given individual awards for their contributions to the event.

With the help of SUNYA students, the group is currently working on raising money to buy equipment for those athletes from other areas in the Capital District. They are preparing for the upcoming event.

The volunteers were instrumental in the success of the event. The volunteers also helped organize the games and coordinate the activities.

According to Bill Byrne, SUNYA formed its own chapter of Special Olympics. The chapter is affiliated with the New York State Council of College Students for Special Olympics, which was formed by SUNYA students two months ago.

Trends are expected to continue, with the special Olympics growing in popularity. The group is presently working on raising money to buy equipment for those athletes from other areas in the Capital District.

Falchook was very happy with the day's events, "I think this was one of the best things I ever did."
