Estes, '20, Florence Stanbro... "There's nothing like a good song with a good dance to bring us together, and the Jubilee Singers will give a concert this year. Make sure you plan to be there."

FACULTY

This week the student tax is being collected. Part of this money is to be used in the College for the purchase of Y. M. C. A. and Y. W. C. A. work in the College and the surrounding districts. The faculty has delegated to a national convention.

It will undoubtedly be worth while for us to be represented, but it will cost money, and it is this problem of raising money for such a purpose that we must discuss. This occupies a part of our attention at present. A part of the cost, at least, must be sought from outsiders, as subscriptions. But it is not fair, it seems to me, to ask more money from the outside than it is fairly necessary, and the question of a subscription dance has been brought up. It has met with the objection of being scarcely a legitimate way of raising money for "Y. W. work."

To the Editor of the "News"... We have decided that absolutely nothing will be published on the "News" which is not in the publication office by noon on Monday.

We have let the public know that the "News" Board declines all responsibility for the non-appearance of any paper of any material not fulfilling these conditions, and that we will receive several complaints lately because certain things were omitted, and the writers got "Y." work instead of had them if their articles were in accordance with our rules.

We have decided that absolutely no material will be considered for that week's edition unless the "News," which is not in the publication office by noon on Monday, will be ready to go to press late the following day and will be printed in the usual place in the usual place on Wednesday. Don't forget these rules, unless you wish to read filled blank columns!

THIS MEANS YOU

A committee was appointed to select a form from whom the Juniors will buy their class rings. This committee will also have two seniors, two Sophomores and two Freshmen appointed by their respective class presidents.

Articles, manuscripts, etc., must be submitted in the publication office by noon, but not later than noon, on Saturday of the week preceding publication. No material will be considered for the College year, by the Student Society of State College, Maurice Hauser, vice-president, and Gertrude Southard, secretary. This committee includes: Alberta Silvisworth, Evelyn Adams, Mary Giff, Gertrude Robinson, and Edna Lusenower.

The meeting of the Chemistry Club last Friday in Room 250 was one of the more successful meetings of the year. The new members were given pledge cards, and a list of tests with envelopes of red cards and silver, the club colors. Richard O'Brien read a paper on "Gas Balloons," giving the history of the gas, an account of its discovery in the column of the south, and the way the gas is extracted and used to inflate dirigibles.

A committee was appointed, of which Dorothy Banner is chairman, to consider and report on the advisability of a club plan. Plans were made for the initiation party to be held this Friday night in Room 250. Chemistry Club proposes to issue a club paper for next year, for which Richard O'Brien, Marcella Ryan, Frances Sullivan, Gertrude Robinson, and William Keene were chosen as the board of editors.

No copies of the "News" will be sent to those whose subscriptions are not paid December 1.

singing. Miss Stubbs appealed to our patriotism with "O, Columbia the Gem of the West," and ended the concert with "The Rose of No Man's Land."

Mr. Schleiermeier then called for a ball, and also presented Mr. Bentley and Mr. Neumeier, as candidates suggested by the Athletic Council, for track manager.

While the votes were being counted several notices were read. Among these was one from the Board of Finance, which stated that students are asked to notify their subscriptions to the "Pedagogue" at the same time that they pay the Student Tax.

Elizabeth Archibald, representing the Dramatic and Art Association, announced that Dr. David M. Robinson, professor in Johns Hopkins University, will give a semester lecture on "The Significance of Art in Asia Minor," Thursday, November 13, at eight o'clock.

Miss Stubbs next spoke of meeting some strangers in the hall who insisted that they must appear in Student Assembly. At that time the door opened and in tumblid eight of the freshest looking young men. After many humorous jests, as well as moral-natured jests at each other, the students of Asia Minor lined up and sang two good old Southern songs: "Old Black Joe" and "Sequence River," in a manner creditable to professionals. It is generally understood that these entertainers form a part of the company of Rude Jubeke Singers, who are to appear at Chancellor's Hall. Surely no one would miss anything like that, even if the proceedings were not to go toward organizing a college orchestra!

John McCrill, '21, attempted to cause public sentiment in favor of a subscription to the benefit for the benefit of the Y. W. C. A. and Y. M. C. A. The difficulty was in deciding on a suitable date for the dance and as the Assembly period was already over nothing definite could be done.

The results of the College Song Leader Contest were in favor of Florence Stuebbs and Elizabeth Archibald; therefore, it was necessary to cast another ballot, resulting in the election of Elizabeth Archibald as College Song Leader for the ensuing year.

Mr. Bentley was elected track manager.

G. W. FRANKLm WILL ADDRESS PRESS CLUB

Meeting Open to all College Students

George W. Franklin, chairman of publicity for the New York State Republican Committee, will talk to the Press Club and the members of English 25 Monday afternoon at 3:35 o'clock.

"Mr. Franklin is one of the best newspaper men in New York State. He was for some years connected with the "Troy Record" and other Troy papers. He was later State political reporter for the "New York Herald." During the two administrations of former Governor Charles S. Whitman, Mr. Franklin was deputy superintendent of prisons, a position which he lost when Governor Smith took office. Since that time he has been director of publicity for the State Republican Committee, feeding all the Republican political news from headquarters to the public which it will swallow.

And that has been no simple task. It has required systematic work on the part of Mr. Franklin, however, has been able to do the work because he has never had regular directors of publicity. The publicity, always a political problem, has demanded education as well as information among the people. Women, the new element of the electorate, have needed political food very different from that dealt out to men voters. Mr. Franklin, however, has turned the tide. He is going to tell the Press Club how he did it. He will talk for a half hour, and what he has to say will be worth while. Notice of the room will be posted. Watch the bulletin board.
