Faculty To Judge, Free Cigarettes In Your Future; Award Prizes At Finale Close

(Continued from Page 1, Column 1)

**Primer Art Staff** and any other group must have $5 change to start affair. Each organization must send at least three representatives to the meeting and each student whose birthday will occur during the month of March will receive two packs of Chesterfield cigarettes. Each student will have an opportunity to make a valid request to pass a question in the field "Happy Birthday Contest." Next Monday night I'm going to pick at random from the names of all students whose birthdays will occur during the month of March and will have an opportunity to make a valid request to pass a question in the field "Happy Birthday Contest."

**Tate College News. Friday, February 17, 1950.**

The Senior Miss will be chosen on the basis of appearance, character, and ability.
**Exemptions - Pro And Con**

Editor's note: This column is in response to a recent editorial that expressed concern over the increase in professor and student requests for exceptions to the present Handbook budget. The author of this column aims to provide a balanced view on the issue, highlighting both the benefits and drawbacks of granting exceptions.

**The Case for Exemptions**

It is often argued that granting exceptions to the present Handbook budget would lead to a decrease in the overall performance of the school. This argument is based on the assumption that a fixed budget is the key to maintaining the quality of education. However, exceptions can be tailored to the specific needs of individual students, ensuring that they can continue their studies without financial strain. This can also help to prevent students from dropping out due to financial reasons, which would be detrimental to the school's reputation.

**The Case against Exemptions**

On the other hand, granting exceptions may lead to a lack of uniformity in the treatment of students, potentially creating an unfair playing field. Moreover, it could also lead to a decrease in the school's financial stability, as the budget would be less predictable and more difficult to manage.

**Summary**

In conclusion, while exceptions to the Handbook budget can provide much-needed assistance to students, they should be approached with caution. It is important to strike a balance between maintaining a fair and predictable financial structure and supporting those who truly need it.

---

**Let's Plan . . .**

State College students, on the whole, are health conscious. A number of them have been taking steps to maintain their physical well-being, and one of the most popular activities is running. At least at the time! One place where such running is popular is the track at State College Field, where students can be seen running laps to improve their stamina and endurance.
