"Koreans Appreciate Attempts At Education," Says Dr. Morris

This past Monday night the Foreign Language Club presented an English Demonstration of the "Man Who Came to Dinner". This past year has been spent by Korea in attempting to improve its education. The native language is no longer used, and the English Demonstration will help Korea avoid its national disgrace. The native language is no longer used, and the English Demonstration will help Korea avoid its national disgrace.

In Memoriam

By BUCK HINNE

The Common-Stater is the oldest student publication at St. Anthony's College, established in 1910. It has been a source of information and entertainment for students, alumni, and the community. Unfortunately, the newspaper has been affected by budget cuts and declining enrollment, resulting in a decrease in circulation.

The Common-Stater is published weekly and covers local news, campus events, and student life. The paper has a loyal readership and is respected for its journalistic integrity. Despite the challenges faced by the newspaper, its spirit of dedication to student journalism remains undiminished.

On September 27, 1910, the first issue of the Common-Stater was published. It was a 4-page newspaper with a circulation of 500 copies. The paper was distributed to students, faculty, and the local community. The Common-Stater has since grown in size and content, becoming a valuable resource for students and alumni.

The newspaper has played an important role in the history of St. Anthony's College. It has documented significant events, such as the construction of the campus and the founding of the college. The Common-Stater has also been a platform for student expression and a forum for debate.

The Common-Stater is currently published by a student editorial board, which is composed of experienced journalists. The board is responsible for selecting the content and managing the production of the newspaper. They work closely with the college administration to ensure the newspaper's success.

The Common-Stater is a testament to the dedication of students who have contributed to the publication over the years. It is a tribute to the spirit of student journalism and a reflection of the college's commitment to providing a diverse and informative student experience.

The Common-Stater continues to thrive, despite the challenges faced by the newspaper. It remains a valuable resource for students and a source of pride for the college community.
