VACCINATION PER CENT SHOWS INTELLIGENCE OF THE STUDENTS

Vaccination to be Entrance Requirement

The tribute to intelligence and cooperation shown by the response to the request for vaccination on the part of the students greatly gratifies Dr. Crosdale. Over ninety per cent of the student body have been vaccinated. At the present time Dr. Crosdale is making out certified forms for all matriculants thus making vaccination one of the requirements for college entrance.

VARIES OUT PLAYED ALUMNI IN BOTH GAME

With the Russell Sago game in mind, the need for seasoned material for next year’s squad, Miss Johnson, coach of the girls’ basketball team, tried out new players and different combinations in the Alumni game before vacation, which ended in a 26—18 score in favor of the varsity.

Score 24—13

While not a great victory from a purely athletic standpoint, considering the lack of training of the opposition, the overwhelming defeat of the Alumni by State’s varsity basketball team was a great moral victory and better days on the basketball court may be expected.

FOR DISTINGUISHED SERVICE WELL RECEIVED BY STUDENTS

Again the Advanced Dramatics class has been successful in producing a one act play. The play, “For Distinguished Service,” in itself was simple and light without much character, but it was pleasingly presented before a large audience. Betty Nadeau played the part of the modern married woman to life and Edna Sheffor, who represented the more old fashioned type of woman, acted her role with character. Priscilla Jones made a very typical maid. Miss Margery Bayless deserves note as director of the play.

'27 APPROVES BUDGET

The Freshman class budget of expenditure totaling $306 was adopted at the last class meeting. The budget: Boys’ basketball, $40; Girls’ basketball, $40; Banner, $25; Pedagogue, $40; Miscellaneous, $100; Deposit for gift to college, $100; Total, $306. Treasurer Baird Shults presented a report of the budget, which was adopted without opposition. Dues for the year are two dollars.

HORSEBACK RIDING TO LAST TILL FEBRUARY 2ND

Captain Taylor has extended the limit of horseriding instruction from January 12 to February 2, when the season of riding lessons for State College girls will end. Those members who have more than four lessons yet due may make them up in one-hour rides at the armory any afternoon.

CLASSICAL INITIATION

At the initiation party of the Classical Club, which was held in Room B, Friday evening, December 14, the initiates furnished the entertainment by presenting three very clever on-act stunts, “Orpheus and Eurydice”, “A Classical Vaccination,” and “Cæsar and Cleopatra the Rubicans.” Afterwards the new members were welcomed by Mikhail Kuhn, first consul, and refreshments were served.

BENJAMIN FRANKLIN 1706-1790

Printer, journalist, diplomat, inventor, statesman, philosopher, wit. One of the authors of the Declaration of Independence and the Constitution, author of Poor Richard’s Almanack; and one of the most eminent natural philosophers of his time.

Electrical machines bearing the mark of the General Electric Company, in use throughout the world, are raising standards of living by doing the work of millions of men.

But nobody had thought to do it

By bringing electricity down from the clouds over a kite string, it was a simple thing to prove that lightning was nothing but a tremendous electrical flash.

For centuries before Franklin flew his kite in 1751, philosophers had been speculating about the nature of lightning. With electric globes and charged bottles, others had evolved the theory that the puny sparks of the laboratory and the stupendous phenomenon of the heavens were related; but Franklin substituted fact for theory—by scientific experiment.

Roaring electrical discharges, man-made lightning as deadly as that from the clouds, are now produced by scientists in the Research Laboratories of the General Electric Company. They are part of experiments which are making it possible to use the power of mountain torrents farther and farther from the great industrial centers.

GENERAL ELECTRIC
Quoting from Dr. Hazel of Yale University, he set forth the four main faults as he considered them, of the American people: materialism, lawlessness, superficial thinking, and boastfulness. His plea was that at the beginning of the New Year, we as college students and future teachers, should do our utmost to bring about a much needed change in present day thinking and ideas.

SPANISH INITIATION

This year the Spanish Club initiation was quite remarkable, because of the stunts and, secondly, because of the dance given by Emily Belding and Ruth McNutt. A vivid description of a Spanish Christmas by Miss Martinez and Professor Stinson formed the climax of a most delightful evening.
