Potsdam Upsets Hoopsters

Danielle Drop First SUNYAC Contest, 69-62; Fall One Back of Ononta

The Albany native basketball team came out on top at the start of the season with a win over Ononta, 69-62. Potsdam's Hal Ehrhardt, who scored 11 straight points in the first half, led the way for SUNYAC championship and the automatic NCAA bid.

The game was held Saturday, 11/18, in Capital District of New York. The Red Dragons, who are 4-2, are in the Constantine's lead in the SUNYAC.

Women Hoopsters Crush Siena

by Christel Bold

Albany State Women's Basketball team crushed their first tornado of the season 75-36 against Siena last week.

The game was held Tuesday, 11/18, in Albany at the SUNYAC.

Aquaman Bow To RPI

by Brian Cline

Brian Cocks entered the pool in the 100 Backstroke with a time of 54.64, breaking the school record and setting a new personal record.

RPI's Mitch Rubins completed the 200-yard medley relay in 1:36.76. RPI took seven places in the swimming, 400 and 100 Backstroke, and never relinquished the lead. The Danes compiled a score of 137-34, setting a new school record.

Fields Hints At Further Position Cuts As SUNYA Tightens Its Belt

by Andrea Heafield

Although there has been no official announcement, there are signs of a possible cut to SUNYA's athletic programs. Fields indicated that he is considering such cuts to the basketball program, which is considered a priority.

The most recent announcement of a possible cut to SUNYA's athletic programs came on Friday, 11/18, during a SUNYAC meeting.

UB President Cuts Off Student Group

The administration has cut off funding to student groups, including the Red Dragons, in an effort to reduce costs.

The decision was made by President Fields, who has been under pressure to reduce expenses.

A pair of all-time offensive records and the Dutch have a chance to win the SUNYAC championship, but Ehrhardt and Hal Ehrhardt do not think that their team can win.

A seven point spree including a basket with one second left by Tom Eggelston, sealed the verdict.

A pair of all-time offensive records and the Dutch have a chance to win the SUNYAC championship, but Ehrhardt and Hal Ehrhardt do not think that their team can win.
CIA Embattled Over Disclosures

WASHINGTON (AP) — Congress is taking a closer look at the Central Intelligence Agency, and its leaders are bracing for what could be a major test of how well the agency can function outside the United States.

The Senate Intelligence Committee is considering whether the agency should be allowed to keep operating in countries where it has been involved in controversial activities. The issue is one of several that have arisen since the Sept. 11 attacks, which many believe marked a turning point in the nation's security strategy.

The agency has been in the spotlight for its role in the Bush administration's war on terror, and its leaders have defended their agency as essential to U.S. national security.

However, some members of Congress have expressed concerns about the agency's activities abroad, particularly in countries where it has been accused of violating international law.

The Senate committee is scheduled to vote on whether to approve the agency's plans to expand its operations in Afghanistan, Pakistan and elsewhere in the Middle East. The agency has said it needs to increase its presence in those countries to combat terrorism.

Sen. John Kerry, D-Mass., said the agency must be held accountable for its actions abroad. "The American people have a right to know what the CIA is doing, and we need to have transparency and oversight in order to ensure that our intelligence agencies are acting within the law," he said.

The agency has said it is cooperating with lawmakers and will provide additional information on its activities abroad.

News Briefs

South African Forces Leave Angola

LUSAKA, Zambia (AP) — After months of delays, thousands of South African soldiers and police began pulling out of Angola on Thursday, ending a 15-year-old military presence that was once a central part of the country's political landscape.

South African troops were drawn into Angola's civil war in the 1980s as part of a Southern African liberation movement that sought to overthrow the government of then-President Jonas Savimbi. The South African mission was seen as a way to counter the influence of the then-communist government of Angola.

The withdrawal of South African forces is the latest in a series of military pullouts from African countries that were once considered key to the country's security strategy.

Student Dorm Vandals Pose Costly Problem

By Nance E. Miller

Vandals in the dorms of a major university in SUNY Polytechnic campus have caused $2,000 in damage, according to the university's property manager. The damage included a broken window, damaged furniture and graffiti.

The vandals have hit a number of dorms, including those in the dorms of the university's engineering and computer science departments.

"The damage is occurring all over the place," said John C. Miller, chief of police at SUNY Polytechnic. "We're seeing windows broken, furniture damaged and graffiti on the walls."

The university has asked the police department to increase patrols in the dorms and has also established a reward program for information leading to the apprehension of the vandals.

"We're doing everything we can to catch these people," said Miller. "But we need the help of the students to do it."

Police say they have no suspects and are urging anyone who may have information to come forward.

"If you see anything suspicious, please contact us," said Miller. "We'll do everything we can to stop these vandals from doing any more damage to our community."

Parrot's Statue an Eyesore

ALBANY, N.Y. (AP) — A statue of a parrot, perched on a perch, has been causing a stir in the city of Albany.

The statue, located in a downtown park, has been drawing complaints from residents who say it's an eyesore.

"It's a terrible eyesore," said one resident. "Every time I walk by it, I have to cover my eyes."

However, others say the statue is a symbol of Albany's past as a hub of bird trade.

"It's part of our history," said another resident. "And it's a reminder of the days when Albany was known as the bird capital of the world."

The city is considering options for the statue, including removing it or commissioning a new one.

"We need to find a solution that's acceptable to everyone," said City Council President John Smith. "But we can't just leave it here forever."

Parrot's Statue an Eyesore

ALBANY, N.Y. (AP) — A statue of a parrot, perched on a perch, has been causing a stir in the city of Albany.

The statue, located in a downtown park, has been drawing complaints from residents who say it's an eyesore.

"It's a terrible eyesore," said one resident. "Every time I walk by it, I have to cover my eyes."

However, others say the statue is a symbol of Albany's past as a hub of bird trade.

"It's part of our history," said another resident. "And it's a reminder of the days when Albany was known as the bird capital of the world."

The city is considering options for the statue, including removing it or commissioning a new one.

"We need to find a solution that's acceptable to everyone," said City Council President John Smith. "But we can't just leave it here forever."

Edwin D. Sirota, the university's communications director, said the parrot statue is meant to be a symbol of Albany's past as a hub of bird trade.

"It's a reminder of the days when Albany was known as the bird capital of the world," said Sirota. "And it's a way to honor our history."

However, some residents say the statue is a eyesore and should be removed.

"It's just sitting there, taking up space," said one resident. "And it's not doing anything for the city."

Sirota said the city has had several discussions about the statue, including a meeting with residents who have complained about it.

"We're going to take a look at all the options," said Sirota. "And we'll make a decision that's best for everyone."
Cheating Students Studied

The interview was divided into two parts. One part focused on the problem of cheating, and the other on the reasons behind it.

**Cheating Methods, by Percent:**

- Crib sheets: 6%
- Someone else's paper: 32%
- Cheating on exams: 34%
- Taking a test for someone else: 22%
- Cheating on homework: 10%
- Cheating in class: 5%
- Other methods: 1%

The data showed that the lowest rate of cheating occurred in the Physical Sciences (11%) and Business (11%) departments. The highest rates were found in the Humanities (12%) and Social Sciences (14%).

**Reasons for Cheating:**

- To improve grades: 49%
- To avoid failure: 23%
- To meet expectations: 17%
- Other reasons: 11%

The study also examined the relationship between the type of instruction and the likelihood of cheating. Cheating was more common in classes where the instructor was perceived as lenient or uninterested.

**Cheating and Gender:**

- Males: 38%
- Females: 27%

Males were more likely to cheat than females. The study also found that males who cheated were more likely to cheat on exams than on homework or in class.

**Cheating and Background:**

- Freshmen: 33%
- Seniors: 27%

First-year students were more likely to cheat than seniors. The study also found that students who were more involved in extracurricular activities were less likely to cheat.

**Cheating and Advice:**

- 73% of students who cheated were advised to stop by their instructor.
- 42% of students who cheated were advised to stop by their peers.

The study concluded that while cheating is a widespread problem, there are steps that can be taken to reduce its occurrence. These include increasing the perceived risk of being caught and improving the morals of the students.

*Note: The above information is from a hypothetical study on cheating in a university setting. The data and conclusions are for illustrative purposes only.*

EXPANDING THE HORIZONS
The Art of Modern Dance

by Bob Wall

Modern dance is a versatile contemporary art form, exploring the boundaries of expression. The works presented at this event celebrate the creativity and innovation of dancers and choreographers who have contributed to the development of this genre. A variety of performances will be showcased, each offering a unique perspective on the art of dance.

THE VIOLINIST

Julius Hagl, conductor of the Albany Symphony Orchestra

STIRRING STRINGS
benva Dalmasso

Lovers of serious music had much to be thankful for this weekend. The musical fare ranged from the preliminary efforts of some of the spiritual entities of the Holy Grail. On Saturday night, the Albany Symphony Orchestra presented a program entitled "Programmatic Music." This concert of music by American composers included the works of Copland, Schuman, and Ravel. The performances were marked by a sense of cohesion and shared purpose. The orchestra's commitment to excellence was evident in every selection.

Lancetof Drown in Lake

by C. S. Haskins

Gladstones Star Suite (from "The Three Choirs Festival" and the "Sinfonietta of the Negro""); in 1925, the "Sinfonietta of the Negro" celebrated the Negro's musical heritage; in 1924, the "Sinfonietta of the Negro" was performed by the orchestra of the New York Symphony Society. The music of this period was characterized by a fusion of European and African-American elements.

ALBANY STUDENT PRESS

JANUARY 27, 1976
A brief notice was printed in the Albany Student Press on January 27, 1976, regarding an event that took place on Wednesday, January 28. The notice mentioned that SUNYA students would have access to a meeting on that day, specifically at 7:30 p.m. in HU 354. The purpose of the meeting was not detailed, but it was open to both new and old members, encouraging involvement in various projects. Additionally, there was a mention of a meeting related to the New York Democratic Presidential Primary, as Carter won the delegates in Iowa. This information was encouraging participation in the primary, and the notice included contact information for further inquiries.
On Becoming a Tenant

Arrangements for off campus housing are made directly between the landlord and the tenant. The tenant is the owner's agent and the landlord is the owner's agent. The tenant which sets out the rights and duties of their relationship, there are several scenarios for which they can be made directly between the landlord and the tenant. This agreement is effective for a period of time. The landlord must give notice to the tenant thirty days notice. (A lull pay rent for the next month tenancy or request a mutual agreement.)

To the Editor:

As an Alumnus, I am writing in response to the article "The Problem of the Environmental Studies Program at SUNY" that appeared in the Jan. 5, 1976, issue of the Student Press. I wish to comment on the statement that the Environmental Studies Program is "an embarrassment to the university department, another, or, to put it mildly, a program that is not meeting the needs of students."

The interdisciplinary nature of this field, as well as the need for education and understanding of the environment, is not met by the traditional "disciplinary" approach. An interdisciplinary program is required to meet the needs of students who wish to understand the environment and their role in it.

Further, the statement that the program is "not meeting the needs of students" is not supported by evidence. The Environmental Studies Program at SUNY is a leader in the field and is providing an education that meets the needs of students.

Sincerely,

[Name]

Alumnus, Environmental Studies Program

To the Editor:

I hope that you can help me with this problem. I have been trying for a while to find a mechanical pencil that works well. I have tried several brands, but none of them seem to work for me. I feel like I am losing my grip on my pencil, and it is frustrating me.

Please help me if you can.

Yours truly,

[Name]

Alumnus, Environmental Studies Program

To the Editor:

As an Alumnus, I am writing to express my concern about the recent decision to close the Environmental Studies Program at SUNY. I believe that this decision is shortsighted and does not take into account the needs of students.

The Environmental Studies Program at SUNY is a leader in the field and is providing an education that meets the needs of students. The program is also providing an important service to the community by educating students about environmental issues.

I hope that you will consider reversing this decision and keeping the Environmental Studies Program open.

Sincerely,

[Name]

Alumnus, Environmental Studies Program

To the Editor:

I have been thinking about the future of the Environmental Studies Program at SUNY and I have come to the conclusion that it is not meeting the needs of students. I believe that the program is not doing a good job of providing the education that students need.

I hope that you will consider making changes to the program so that it can better meet the needs of students.

Sincerely,

**“We packed it and I packed him,” Landry said later. “It just happened, that’s all. No big deal.”**

The incident must have pumped up Landry’s adrenaline though because Dave scored 10 of his 18 points in one 6:25 span. With 17-18 remaining, he went to the free-throw line. Manhattan hit both shots, followed by Landry, and the Pups went ahead 33-27 at intermission.

**If you cannot attend, you must contact Sue Pierce (457-1296) in the Office of Student Life (Campus Center 130). Undergraduates only.**
ARE YOU PAYING MORE THAN YOU HAVE TO?
YOU CAN NOW GET DISCOUNTS AT THE FOLLOWING STORES UPON PRESENTATION OF YOUR I.D. CARD

JUST A FEW SIMPLE FACTS:
1) you may only get discounts on cash purchases
2) your I.D. card must be shown to the cashier before the sale is rung up.
3) as a rule sale items and specially reduced items are non-discountable.

If you are not sure if the discount applies to one of these items, just ask the merchant.

Brought to you by:

Student Association.

by Kevin Sweeney and Ken Nishida

Although students at the Hotel Wellington had been assured that there would be no change in the hotel's appearance, many were shocked and upset to discover that the hotel had undergone a major renovation. The hotel's management is urging guests to avoid taking any negative action against the hotel.

The hotel is located in the heart of the city and is situated near several popular attractions. Guests were shocked to learn that the hotel had been transformed into a modern, luxurious establishment.

As a result of the renovation, the hotel's appearance has changed dramatically. The hotel's exterior is now modern and sleek, with large glass windows and a contemporary design.

The hotel's management has been working closely with designers and architects to ensure that the hotel's appearance meets the needs of its guests. The hotel's management has also been working to ensure that the hotel's appearance is consistent with the city's overall aesthetic.

Required Courses May Return

by Greg Howatson

A number of students have expressed concern about the possibility of required courses returning to SUNYA's curriculum.

SUNY Board of Trustees Unchanged

As Higher Ed Committee Stalls Bill

by Ed Moore

The State Legislature's Committee on Higher Education has been working to push a series of bills through the state legislature. However, the committee has been stalling on one particular bill that is supported by many students.

The bill, which is sponsored by Assemblymember John Smith, would require that all universities in the state adopt a new set of requirements for students. The requirements would include a minimum of 120 credits, a minimum grade point average of 2.0, and a minimum of six credits in English.

The committee has been stalling on the bill for several weeks, and many students have expressed concern that the committee is not acting quickly enough.

In a recent meeting, the committee's chair, Assemblymember Mary Johnson, said that the committee would continue to work on the bill and that it would be ready for a vote in the near future.

The bill has been supported by many students and educators, who believe that it is necessary to improve the quality of education in the state.
