Langmuir, Nobel Prize Winner, Lectures on Protein Research

Department of Chemistry, State College, Pa.

Dr. Irving Langmuir, Nobel Prize Winner for chemistry, will deliver a series of lectures at State College, April 23-25, as part of a nationwide tour. He is the first of 116 American scientists and scholars who will receive the 1939 Pulitzer Prizes for their outstanding contributions in the field of science. The lecture series is being sponsored by the American Chemical Society.

Dr. Langmuir's lecture series, "Protein Research," will be delivered in the auditorium of the State College Union, April 23-25. The lectures will be open to the public and reservations are not required.

The lectures will cover the latest developments in the field of protein research, including the structure and function of proteins, their role in biological systems, and their applications in medicine, agriculture, and industry.

The series will be followed by a panel discussion on protein research, featuring leading experts in the field. The discussion will be moderated by Dr. Langmuir, and will be open to the public.

Dr. Langmuir is a world-renowned chemist and scientist, known for his groundbreaking work in the fields of electrical engineering, chemistry, and physics. He is a member of the National Academy of Sciences and has received numerous awards and honors for his contributions to science.

The State College Union is located on North Main Street, State College, Pa. The series of lectures and discussions is supported by the American Chemical Society and is open to the public. For more information, please contact the Department of Chemistry, State College, Pa., (814) 238-3600.

Commentator

Best Dawns of the World is by far the better picture of the two. "West Point" has begun to show itself as a mediocrity, at least, and has also managed to keep the best scenes off the screen. Several of these are in the last, but they are not enough. The majority of the students would be ashamed that our pat on the back is so untimely, and that we allow the students to be so patronized. Others rate it with Goodman and Shaw, but more than 08% have found another class in front of Page. It was certainly an acknowledgment of talent and effort; but more than 08% have found another class in front of Page. It was certainly an acknowledgment of talent and effort; but more than 08% have found another class in front of Page. How the Forum of the Week was the forum of the year. We still look to its decision of the policy, the faculty blank, but it took itself off the board.

Forum Approves Yearbook Plan

Kampus

Kapers

It seems that one must really have a solid base for the student body to become more and more, more involved in every aspect of the school. If we don't, we'll lose the students.

Good Morning, Senator, and Good Day, Senator. I would like to present our plan for the yearbook for the upcoming school year. We believe that this is a worthy cause and will need the support of everyone here.

State of Affairs

Appointment Bureau

Concerted Action

Forum for the second time in a month, student initiatives have taken a positive and encouraging form. The second incident, that of the budget protest, was transitory but the second had a strength and character that made it significant. The money we're asking for is to be used for the benefit of all students, not just those of us involved in the forum.

We were able to present our plans for the yearbook for the upcoming school year. It seems that one must really have a solid base for the student body to become more and more, more involved in every aspect of the school. If we don't, we'll lose the students.

The International Relations club has been presenting a show with this year's schedule. The first one was on a few weeks ago and the second is on this Friday. The purpose of the show is to encourage interest in international relations.

Policy Recommendations

The president of the forum representatives of the state college symphony orchestra, and several of the faculty组成委员会参加了委员会的计划。

Salon Judges Consider Many Angles

When they pick winning pictures for special exhibitions, these experts of the faculty of the University of Wisconsin Camera Club must study every detail. After careful review, Jerry Saemen, Dr. Max Thorek, and others carefully examine each entry. Above they are getting a long-range view of the prize-winners.

Salon Judges Consider Many Angles

IT'S GOOD TO LET UP... LIGHT UP A CAMEL

WITH THAT CAMEL YOU COULD POSE FOR A PICTURE OF HAPPY SMOKING

FOR SMOKING PLEASURE AT ITS BEST

LET UP... LIGHT UP A CAMEL

THE CIGARETTE OF COSTLIER TOBACCOS
Most popular of all photographic subjects among the collegiate amateurs of the nation are scenes of nature, for this division in our special contest had the greatest number of entries. The general excellence of the photos submitted made the task of the judges of this division particularly difficult. If space had been available, this issue would have contained almost three times the number of scenic pictures, for that large number of almost equal high quality were in the semi-finals division in the judging. In the three photos on this page we present the final selections, photos which we believe pay high compliments to the ability of college photographers to beautifully and accurately record the scenic wonders of the world about us. Many are the elements considered in judging pictorial photographs, but chief qualities considered are composition, technical excellence.

**Twilight**
First Prize
Jack Mendelssohn
College of the City of New York

**Apollo's Descent**
Second Prize
Kenneth Syfard
University of Minnesota

**Sylvan Serenity**
Third Prize
Robert A. Bucklin
Florida University

**Marvels of Nature**

Most unusual are the results obtained when the photographer sets out to create his own pictorial subjects without relying on the set limitations of an individual or a scene. With an opportunity to form his own compositions, to regulate his lighting, to control movement and form, the photographer gains results that are always interesting and usually technically perfect. Second most popular division in the Collegiate Digest competition, the still life section winners on this page reveal again the important place the student and faculty amateurs have attained in the ranks of the non-professional photographers. The chess picture is an excellent example of a composition that has been formed and lighted in such a manner that a perfectly inanimate scene assumes life and brilliance. The remarkably sharp picture of the sleeping cat is one of the most photographically perfect photos entered. The water lily print is an excellent example of an outdoor still life creation. All in all, these three photos accurately reflect the range of interest that is obtainable in still life photography.

**Checkmate**
First Prize
Kenneth Syfard
University of Minnesota

**Sleeping Beauty**
Second Prize
Rene Williams, Jr.
Los Angeles City College

**Salute to the Sun**
Third Prize
Sarah Elizabeth Freeman
Johns Hopkins University

**Still Life Photos**

**Unusual Camera Studies**
Many and varied are the subjects for fine photographs available on the college campus, yet college life is one of the most neglected of the fields open to the campus amateur. Although this division had the smallest number of entries, the photos on this page reflect the high quality of the work being done by the few who see in their immediate surroundings the great opportunities for effective photography.

"Pledge Work"
Robert W. Monk
University of Wisconsin

"Swing Session"
G. B. Bombard, Jr.
Georgia School of Technology

"Experiment"
E. M. Sales
Alabama Polytechnic Institute

"Scanning the Scandal Sheet"
Bruce Cook
Claremont College, Claremont, California

Featured on this page are two examples of unusual student photography. Above is a triple-exposure, self-portrait of John B. Wright, Michigan State College freshman, beating himself at a game of cards.

Unusual effects can be gained by making bas relief photos such as this unique cameo by Robert Buckles, a Purdue University senior. The bas relief effect is obtained by super-imposing a positive transparency over the regular negative.

SMOKERS, HERE'S A GRAND COURSE IN PIPE-JOY!

IT DOESN'T TAKE ANY STUDY TO CATCH ON TO THIS SWELL COMBINATION OF MILDNESS AND RICH, Ripe TASTE I MEAN PRINCE ALBERT

.UNMILD - SO TASTY

Prince Albert is "crimp cut," too, to give you the smoothness of "smoke in hand, with the joy of easy drawing provided by our exclusive "no-bile" process that removes harshness. Prince Albert is so mild and so tasty that the regular cigarette smoker can enjoy a pipeful of cool-sniokin' Prince Albert and forget his worries about tongue-bile. Here's the rich, full-bodied smoking of choice tobaccos with extra mildness assured by our exclusive "no-bile" process that removes harshness. Prince Albert is "crimp cut," too, to give you the smoothness of easy drawing and the joy of easy drawing. It's partly for you, partly for me! Smoke a pipeful of Prince Albert on our risk. It's our risk, not yours. Here's a grand course in pipe-joy—Prince Albert.

50 pipes of fragrant tobacco in every handy pocket tin of Prince Albert
"Pictures as they are posed to be" might well be the subtitle to this division of our special Salon Edition, for in it are featured the outstanding portraits taken by college amateurs this year. In addition to having fine composition, the winning photographers have caught the personalities of their subjects in a truly remarkable fashion. Special mention should be made of the photograph below, for it is an excellent example of self-portraiture, a branch of portrait photography which has a special appeal to a great many college amateurs.

"Cymbal Player"

Jack Mandelblan
College of the City of New York

"Gordon"
Second Prize
Bill Pate
West Virginia State Teachers

"Aerial Photographer"
Third Prize
G. D. Aydieott
New Hampshire Institute

"Two Losses Make One Good Picture"
Alex Campanis, New York University second baseman, lost his cap and First Baseman Soupis of College of the City of New York lost the ball in the sixth inning of the game won by N.Y.U., 4 to 3.

"Aerial Photographer"

"Mountaineer Soldiers Parade in Her Honor"
When West Virginia University's military corps passes in review, it gives a smart salute to Regimental Sponsor Jane Greer. A major in journalism and a member of Kappa Kappa Gamma, she attended Columbia University before climbing to the mountain school.

"Most Handsome"

was the title voted Dominique LaCasse by his Columbia University senior classmates. He does free-lance modeling, and spends some of his spare time looking at the movie-star photos that adorn the walls of his room.

"Politics in Action"

B. L. Johnson and D. R. Rice

Collegiate Digest
Circle of Presidents

A real round-table discussion was caught from below by the photographer at Drexel Institute of Technology. Heads of the women’s divisions of the four classes are: (clockwise, starting at bottom) Ruth Wall, sophomore, Marietta Schmitt, senior, Betty Towner, junior, and Barbara Murphy, freshman.

Member of Queen’s Court

Sophomore Virginia Thomas was one of the four Northwest Missouri Teachers College students selected for the court of honor of the “Tower Queen”... says Eugene Phillips, University of Georgia, as he instructs a new member of his American Association of Collegiate Hitchhikers. His first organization of its kind in the U.S. Note armbands worn by all members. Phillips claims his organization was first proposed in September, 1937, while the Registered Collegiate Thumbers was organized in May, 1938.

He's Doggin' His Way Through College

Eddie Crescini, Hiram College sophomore, pays his tuition with money he earns with his famous pedigreed Great Danes.

They Study Lies

Four students from New York State College for Teachers, the Empire State’s police are considering as the basis of their studies the principles of the detection method.

“Campus Cram”... is the name of the new, Smith washing machine, recently installed in the student union on the Ham­ilton College campus. They deliver food any place in the campus, and whatever is put in the machine is printed on the back.

I'm a steady Camel smoker from 'Way Back—They've Got Mildness and Good Taste, Too!

FOR SMOKING PLEASURE AT ITS BEST... LET UP—LIGHT UP A CAMEL

the cigarette of Costlier Tobacco
There's No Evading This Dance Bid

... Deputy Sheriff M. A. O'Brien was retained by managers of the University of Michigan's annual law school dance to distribute subpoenas ordering co-eds to attend the musical night court. His welcome at the Delta Gamma house was most cordial, as this scene proves.

Collegiate Design Photo by Shellenberg.

Collegians Lead Drive Against Disease

Outstanding leaders in the drive to stamp out the dreaded disease, syphilis, are the nation's college and university students. Already thousands have been tested under programs earned out by student health departments. Particularly commendable have been the works of the College of Physicians and the student health departments. With the work of the alpha Student Health Foundation, there is a movement to involve the colleges and universities of the world in the fight against the spread of the disease.

Outstanding leaders in the drive to stamp out the disease are: Mary Ashby Cheek, national vice president of the American Youth Hostels; Karl Smith, state vice president of the American Youth Hostels; and Jack Smith, state vice president of the American Youth Hostels.

A Toast with Coffee

... was drunk at the opening of the youth hostel at Rockford College. President Mary Ashby Cheek, national vice president of the American Youth Hostels, "poured" the coffee for the guests. The coffee was served in a large glass pitcher.

Harvard Scientist First to Automatically Record Speed of Light

Dr. Wilmer C. Anderson, Harvard University research fellow, demonstrates the device he invented to automatically measure the velocity of light. The principle is to deflect a light beam by a quarter of a wave-length and measure the speed of the light to help in the measurement of the wave-length.

Pyramid of Players

Both teams crowded in to capture the ball when the photographer snapped this bit of dramatic action in the rugby match between Cornell University and the New York Rugby Club.
He Gets Up Promptly, or Else — William McMillan, Ripon College, rigged up this simple device to cure his bad habit of oversleeping in the morning. The alarm handle on his clock tips a cup of very cold water on his head if he doesn't turn it off immediately.

Buggy Business

This is one of the conclusions of Robert Szwajcer, Rutgers University psychologist, after many experiments with this device of his own invention. His subject here is Muriel Albers, New Jersey College for Women cross country runner.

First to Finish

The M. Y. A. student at Ohio State University has in her special project tested the effectiveness of an alarm device that not only wakes you ahead of the buggy without jolting it, but also to assure you of the selection of a good horse for the race. This subject here is Marcella Allen, New Jersey College for Women center.

Congratulations to the Winner

Boy! Square mettle the capabilities of Jean Pons for defeating her in a fencing match at Connecticut College for Women.

Little Connection Between Sight and Hearing

This is one of the conclusions of Robert Szwajcer, Rutgers University psychologist, after many experiments with this device of his own invention. His subject here is Muriel Albers, New Jersey College for Women cross country runner.

State Chemistry Club will conduct outing

The State Chemistry Club will conduct an outing to the National Museum of Natural History May 20 to 21. The museum is located near the National Zoo. It is expected that the members of the club will travel on the local train service from Washington, D.C., to the zoo. The museum is open on Saturdays and Sundays from 10 a.m. to 5 p.m. The outing will be conducted by members of the club, and all members are welcome to attend. The outing will be a great opportunity for members to learn about the natural history of the United States and to explore the many exhibits at the museum.

Melanson Reports Total of Dormitory Pledges

Senior Class Supports Drive for Student Dormitory. A total of $5,100 has been pledged for the Student Dormitory by the senior class. This is the largest amount of money that has ever been pledged for the Student Dormitory, and it is expected that the funds will be used to help finance the construction of the dormitory.

Spanish Club Little Heads Spanish Club Activities in the University. The Spanish Club is one of the largest and most active clubs on the campus, and it is expected that the club will continue to be an important part of the university community.

SPECIAL COMMITTEE TO MEET AT NINE O'CLOCK

Students Will Conduct Mock Interview of a Legislator at Forum of Students

State College Posters in State Capitol Session Tonight

The special session of the legislature began tonight, and the student body was one of the groups that participated in the session. The students were represented by representatives from the various colleges and universities in the state, and they were able to discuss their concerns with the legislators. The session lasted until midnight, and it was a very successful event for the student body.
