Albany's Jeff Mazin (left) assisted on the Hooters lone goal in a disappointing Danes Toy With Outclassed Brooklyn, 56-0.

Danes' mentality of each player is different. Against Norwich, we know respectable defense.

We can determine our playoff position. If we win, we go. If we lose, we don't deserve to go. But, I know we're hot going to lose.

Halfback Sam Haliston: "Every time we play another learn, the scoring ladder. From 10 points, by Rich Seligson

Cornerback Joe Rajczak: "If we win, we'll have a good shot at the liking defeat In Binghamton. (Photo: Sue Taylor)

Afrim Nezaj was ejected from the day's first possession while Albany's defensive line with incredible moves continuing on page sixteen.

Bob Ford was not at all shocked by the Danes' first possession since the game. "I thought defensively, we dominated throughout," Ford said. "That's the matter, the final result. "We didn't have our best day, but we still dominated defensively."

Junior forward Vas Serdsev was the Danes' first possession since the game. "I thought defensively, we dominated throughout," Ford said. "That's the matter, the final result. "We didn't have our best day, but we still dominated defensively."

Unfortunately, the Danes' first possession since the game was quite ineffective. The problem resulted in the Danes' first possession since the game. "I thought defensively, we dominated throughout," Ford said. "That's the matter, the final result. "We didn't have our best day, but we still dominated defensively."

Bob Ford was not at all shocked by the Danes' first possession since the game. "I thought defensively, we dominated throughout," Ford said. "That's the matter, the final result. "We didn't have our best day, but we still dominated defensively."

Poll Reveals Present Disillusionment

Pollsters have released figures that show a marked drop in public optimism over the past two years. The latest poll indicates that only 24 percent of respondents believe that the future will be better than today. In contrast, a similar survey conducted two years ago showed that 45 percent of respondents were optimistic about the future.

The poll, conducted by the National Opinion Research Center, found that the biggest drop in optimism was among young adults aged 18 to 24. Only 18 percent of this group believe that the future will be better than the present, compared to 32 percent in the previous survey.

Academic Council

The Academic Council has held a meeting to discuss the future of the university. The council expressed concern about the declining enrollment and the need for increased funding. It was also noted that the university should consider offering more online courses to attract students from other countries.

UAS Reps Approved Despite Objections

by Debbie Kepf

The 38-member Alumni Council approved the selection of 11 candidates to the new Alumni Assembly this week. Although opposition to the candidates was voiced, none were removed.

"I think the panel of candidates was a fair selection," said Ralph Redwood, finance director of the College of Arts and Sciences. "I believe they have a good understanding of the College's goals and objectives." Redwood was among severalcandidates who were approved.

"I am pleased with the selection of candidates," said Alumni President Donald Johnson. "I believe they will represent the interests of the College effectively." Johnson was one of the candidates who were approved.

The Editor's Aspect

Existence Eclipsed

If you run out of money you could always make more, but when you run out of time, there's nowhere left. Every second is irreplaceable. Let's not talk about wrong choices because of too many. Each one is unique and one that could be better done elsewhere.

Economists? They're the key. Efficient, profitable and expert! The FiS. Don't you know what this is? Enhance common letter. No wonder. Es for Economy. Economists, yes, they're the key. Efficient, profitable and expert! Enhance common letter. Yes, it's the key.

Our time is clockwork perfect. Its economy is exact, but it's not enough. To advance with the ongoing events of time we must make new engagements with time. To enjoy time we must extend beyond its requirements and explore constantly. We can even eliminate instantaneous or ephemeral engagements, to joy involuntarily. To enjoy time we must extend beyond its requirements and explore constantly. We can even eliminate instantaneous or ephemeral engagements, to joy involuntarily.

"Life is a state of qualified unhappiness.

Friday Observer
The World, The Cable And The Box

A Silent War
The Crash Of 1929

The book saw the answer to all our problems. Cable connected us to the great sellers. But what was the great sellers? They were the money and the market. What was the money and the market? They were the smile and the sound. What was the smile and the sound? They were the voice and the music.

The market was a place of wonder and joy. It was a place where the world connected. It was a place where the individual could become part of something larger. It was a place where the future was bright and the possibilities were endless. And the people who came to that place...they were the ones who made it happen.

The crash of 1929 was a moment of upheaval and change. It was a moment when people had to make choices and face consequences. And the people who came out of that...they were the ones who would shape the future.
Aspects Buzz Report

Drinking And Drugs On Campus

You Better Watch Your Speed

An eighth floor freshman from the south end of University Towers returns from a Sunday afternoon outing with a algebra book from the library. "I don't know what to study," she says, "I just got back from a meeting with my advisor and I have to study for a test on Tuesday." She's not alone. Time is a precious commodity for college students, who are constantly juggling the demands of their coursework with the pressures of social life. And when it comes to alcohol, things can get even more complicated.

"It's a Friday night ritual. You walk into the bar and you see the crowd," one student said. "There are people everywhere, music is playing, and the atmosphere is electric. It's a great way to unwind after a long week of classes." But for others, the weekend can be a source of anxiety and stress.

"The weekends are when I feel the need to escape," said one sophomore. "I don't want to think about school or work. I just want to have fun and relax." She's not alone. Aspects Buzz Report, a study conducted by the university, found that 70% of students feel the need to escape from their daily routines on the weekends.

This need to escape can lead to problematic drinking. According to the report, 27% of students drink 5-8 times per month, and 15% drink more than 8 times per month. This is a concern for the university, which has implemented new policies to address the drinking problem.

"We also sell a lot of pitchers during the week," said one bartender. "People love to get together and drink with friends. It's a social experience." But for others, the social aspect of drinking can be overwhelming.

"I hate socializing," said a junior. "I don't want to be the one who has too much to drink. I just want to have a good time." This sentiment is shared by many students, who feel pressure to keep up with their peers and fear the judgment of others.

But for some, the pressure to drink is a way of coping with stress. "I drink because I don't know what else to do," said a senior. "When I'm stressed out, I just want to get away from everything." This is a common sentiment among students, who often feel overwhelmed by the demands of college life.

"I think it's important to address the issue of drinking on campus," said a professor. "We need to find ways to help students cope with stress in healthy ways." The university is working to implement new programs to support students who are struggling with drinking.

"We offer counseling and other support services," said the professor. "But we also need to address the root causes of the problem." This is a ongoing challenge for the university, which is committed to creating a safe and healthy environment for all students.

"The university is doing a great job," said a student. "But we still need to do more." The university is taking steps to address the drinking problem, but there is still more work to be done. Aspects Buzz Report found that 60% of students feel that the university needs to do more to address the drinking problem.

"We need to continue to work on this issue," said the professor. "But we're making progress. And we're committed to doing everything we can to support our students." The university is working hard to create a safe and healthy environment for all students, and they are making progress.

"I'm proud of the work we're doing," said the professor. "But we still have a long way to go. We need to continue to work on this issue to make sure that all students feel safe and supported on campus." The university is committed to creating a safe and healthy environment for all students, and they are making progress.

Fallen Blossom

The Norwich Cadets: An Offensive Time Bomb

by Mike Dunne

They boast the most proficient offense Division III in America. They've averaged 32.7 points in scoring of seven starts while successfully opposing by an average margin of 18 points.

They are the Norwich Cadets, and in a football team to be reckoned with.

When Norwich invades University Field tomorrow afternoon for the 1969 edition of the Albany-Norwich rivalry, it figures to be a minor battle of teams with opposing strengths.

The Cadets held the entire season in three major offensive categories: passing yards with 216.6 per game, total offense — 461.3 yards and scoring with 39.7.

Primarily, neither team will be attempting to rock defensive unit which has been consistent almost to the point of being boring. The Cadets' only 18 points in five games. There measures to place them second

The Norwich Invader is a star and has played notable role in making the season exciting. It began with a pair of games against schools whose football teams are being overall four years. The Cadets, live Albany, received outstanding defensive efforts in scoring both, allowing a slight edge in points in each contest.

Biggest hit, the Cadets' outstanding halfback, dared to be in the position after the Albany-Norwich contest. Williams has rushed for 617 yards in his 'ven games this season.
Albany Digs In With Unbreakable Defense

The Great Defender: Eric Singletary

Norwich Boasts Top Offense In Nation
Sam Halstion: It Seems Like Only 99 Yards Ago...

by Nick Sullivan

When the Norwich engines were mounted on Sunday, Field No. 2, the scene was one of those remarkable, non-stop, never-ending, non-stop, non-stop, non-stop, non-stop, non-stop, non-stop, non-stop, non-stop games that usually end with the fans cheering for more. The fans were certainly not disappointed, as the Danes' fourth halfback, Dave Sladlum, made a 73-yard run on the opening night, setting the tone for the game. Sladlum's performance was a testament to the Danes' offensive capabilities, as the teamcomposition and strategy were finely tuned for the game.

The carry was undoubtedly the most important aspect of the game, with Sladlum's run setting the pace for the rest of the team. The Danes' fourth halfback, Dave Sladlum, made a 73-yard run on the opening night, setting the tone for the game. Sladlum's performance was a testament to the Danes' offensive capabilities, as the team composition and strategy were finely tuned for the game.

Costume Contest at Midnight

by Mike Dunne

The Albany State soccer team hosts St. Francis this Wednesday night in an important game. The booters cannot afford the slightest slip-up as they have lost two in a row. The back-to-back losses have turned into their third loss.

The team has had some strong performances in recent games, with several players putting in solid performances. However, the team has also struggled with scoring goals, leading to their recent losses. The game against St. Francis will be crucial for the team's playoff hopes, as a win is essential to their playoff chances.

The game will take place at 7:30 p.m. at the Albany State soccer field. Both teams are expected to put in a good performance, but Albany will be looking for victory to boost their confidence.

Albany lost to Siena last week, and the team will be looking to avenge that loss. The game will be a good opportunity for the Albany State soccer team to prove their worth and show that they can compete at the Division I level.

The team is currently in a severe slump, with a 5-3-2 record. They will be looking to get back on track with a win over St. Francis. The game will be a key test for the team's early season form, and they will be looking to show that they are capable of competing at the highest level.

Despite their recent struggles, the team has shown some promising signs. With several key players returning from injury, the team will be looking to build on their strong performances and turn their season around.

The game will be an important one for both teams, and a win could lift the spirits of the players and fans alike. Keep an eye on the match as the Albany State soccer team looks to bounce back against St. Francis.
Wishing the Danes the best of luck against Norwich

SUC Cortland
Newspaper Is Halted

Editors Overworked And Overlooked

In Tom Wilms
The Press, A SUC Cortland's community newspaper, has been suspended indefinitely by the Student Government. The newspaper is due to be sold but has been sold to a third party.

"Yes. We have laid off a staff of five people," said one of the editors. "We have had to cut back on our coverage of local news due to budget cuts." The newspaper was founded in 1979 and had a circulation of 5,000.

The decision was made by the Student Government, which is an elected group of students. The newspaper had been in operation for 12 years and had been a source of information for the campus community.

Press Allowed In Court

The Press is a weekly newspaper published by the SUC Cortland Student Government. The newspaper is available to all students, faculty, and staff on the campus.

Oliver: Trial By Peers "Impossible"

Roger Oliver, a sophomore at SUC Cortland, has been charged with attempted robbery.

"The trial by peers is impossible," said Oliver. "There are no witnesses to the crime, and the evidence is circumstantial." Oliver was charged with attempted robbery in the SUC Cortland Student Union.

The trial will be held in the Student Union, which is located on the campus.
