Emotions Should Not Be the Single Guide

In Selection Of Wife, Dr. Navar Says

"Emotions should not be the single guide in choosing a wife. The choice should be based on a careful consideration of the character, intelligence, and other qualities of the candidate."

Dr. Navar, a well-known authority on the subject, emphasized the importance of considering the candidate's character before making a decision. "It is not enough to rely on emotions alone," he said. "One must also consider the candidate's intelligence, sense of responsibility, and other qualities that will make for a successful marriage."

"Meinholtz, the Times Wants You..."

Meinholtz

Fred E. Meinholtz of the New York Times sat in his home on Long Island, listening-in on a radio press dispatch from the Byrd expedition. Someone on the Times staff wanted to reach Meinholtz on his home phone. And quickly! But the receiver there happened to be off the hook.

Radio science was equal to the occasion. The Times radio operator sent a request to the airlift operator at the other end of the world. And Meinholtz was quickly made aware of the situation by a radio message from Antarctica saying: "Meinholtz, the Times wants you to hang up your receiver so that they can call you on the telephone."

Honor English Section
Enrolls Six Freshmen
Six freshmen will attend an advanced, or honor, section of English 10 to be conducted Mondays and Wednesdays at 9:00 o'clock in room 11 of Richardson hall.
